NATURE'S REMEDY.—A farmer informs the Charlottetown, P.E.I., Patriot that an insect resembling an ant has appeared in his two-acre field of potatoes, and within a day or two has completely destroyed the potato bugs. This parasite eats the bug, leaving nothing but the shell, and seems to possess an insatiable appetite. The same insect was reported in another section of the island last year, and no bugs were left where this parasite had visited. A carload of these bugs cannot be imported toe quickly into this neighborhood.

ACCIDENT —On Thursday afternoon of last week Mr. Wm. Walters, of this town, met with a painful accident at Magnetawan, Muskoka, where he has been overseeing the building of a stop log dam. Mr. Walters had four detonating cape for expleding dynamits, three of which he used, placing the fourth in his vest pocket. After dinner, while feeling in his vest pocket for a match to light his pipe, the detonator exploded, blowing off the first finger of the right hand, besides injury to the thumb and middle finger. The force of the explosion was outwards, otherwise the accident might have been more serious. The wounds were dressed by Dr. Teyrne of Magnetawan, Mr. Walters coming home on Saturday evening. The cause of the explosion is supposed to be that the end of a match scratched the cap.

HALF HOLIDAY.—The date of the oddfellows decoration ceremonies has been changed to Tuesday, July 23id. The Mayor has proclaimed a half holiday, and all business places will be closed from 1 p.m. The Str. Crancella will leave the locks at 2 p.m. as usual for Riverside cemetery. The public are taking a deeper interest every year in this beautiful and impressive ceremony, and nearly every grave in the cemetery is neatly decorated by friends in remembrance of the departer ones. This half day in the year spent in honoring the graves of loved ones in the quiet city of the dead forms a tie between the dead and the living which must awaken the best aspirations of our nature.

PUBLIC LIBRARY. — At the last meeting of the Ontario legislature the law in regard to mechanics institutes was changed in some respects, the name "mechanics institute" being abolished and that of "public library" substituted. Some people fancy from the name being so changed that the library and reading room are free to the public, which is not the case, they being only open to and for the use of subscribing members. We would like to see that the library and reading room could be made free to every citizen but at the present time there is very little hope for such a dealrable result. The memberahip fee however is so small, one dollar, that it need not debar any one from becoming a member.
