Baldwin.

In the absence of the Mayor, on motion of deputy-reeve Wilson, seconded by Dr. Barrows, reeve Brady was appointed chairman. Some conversation took place as to the business to be transacted, whether it should only be the appointing of a commissioner, who would nave a general appervision of all work to be done for the corporation. It was agreed to take the matter of appointing a commissioner up first, and decide on the legality of proceeding with other business afterwards.

afterwards.

Dr. Burrows rese to a question of privilege; it was currently reported that the engineer in charge of the sewer was paid \$7 per day. This was untrue, as he was paid a fixed amount for the work to be performed. This explanation the Dr. stated he made in justice not only to the engineer but to the council.

Moved by Coun. Horn, seconded by deputy-reeve Wilson, that Peter Pitkie be appointed town commissioner for the term of four months at a colors of \$65 per month, his duties to be

Coun Horn, as mover of the resolution wished to say that, in conversation with Mr. Walker, that gentleman thought that the public would believe there was some charge against him, which was the cause of his dismissal; personally, he (Mr. Horn) had not, and that when Mr. Pilkie's engagement expired he would be in favor of responsiting Mr. Walker.

It is really like pursuing the ever flitting ignis-fatuus, to follow him from cover to cover, frem point to point, yet so colossal are his inaccuracies, so manifestly misleading his statements that I would be untrue to Mr. Du Vernet, my Toronto legal agent in the case, and also untrue to my reputation as a professional man were I to allow him to go

Councillor Graham asked that the by-law be read for the information of members.

After the by-law was read, which was passed last September, defining the duties of the town commissioner, and fixing the salary to be paid at \$600. Reeve Brady stated that he did not think a by law could be amended by a resolution.

Without a doubt, nine-tenths of the people of the Township of Maripona say that the Attorney General's Department was quite right in consenting to the order for Parks' release, and all efforts of Mr. Hopkins to injure the Ontario Government by his conduct in this matter only go to expose his real weakness and lack of influence in that Township.

I take the liberty of publishing a letter I received this morning from Mr. Duvernet, which contains a full answer to all Mr. Hopkins silly nonsense.

LIEUT. Neill has gained his first victory by bombarding and destroying Mt. Nebo, and put its inhabitants to route with a week. If Mr. Hopkins had considered for a moment, he would have seen that Judge Ferguson was the requist Judge, and if he had enquired of the Clerk in Chambers he would have found that the order had been made in the regular vey. I may add that the papers were pleed in my hands in the regular way and I moved in the regular way. The motion could have been brought on before Judge Street, but Mr. Langton was talephoned to, that owing to my being engaged in another court at the time I would be unable to be present.
