THANK YOU, GENTLEMEN.—On the 11th of July last my barn was destroyed by fire and I had no insurance on it. My neighbors and acquaintances, under the superintendence of Mr. Thos. Abbott builder, turned out, hewed timber, framed, erected and completed another in the short space of two weeks, so that I am now housing my crop therein. I take this means of heartily thanking each and all for their timely and generous assistance. Robert Stafford, Berkeley.

EARLY AND EXCELLENT.—Mr. John Boales of Euphrasia, a few miles from Markdale, finished harvesting last week and threshed out on Monday the 20th. His wheat, oats, barley and peas all yielded exceptionally good and the quality of the grain is superior. His fall wheat went 34 bushels per acre. Ellis Bros. new Waterloo Champion, from Graham the live implement man, did the work in a highly satisfactory manner.

COMPLIMENTARY, EH?—A writer in Saturday Night refers to Collingwood as follows: "It is not a go-ahead place were the visitor is made dizzy by the din and swurl of life, but is rather a place to settle down in and compose one's person when one is tired of the turmoil of trolley cars and the mad worry of catching Island ferries. A sort of a pillow is Collingwood where one settles down easily, lulled by the tinkle of the cow-bell on the common, the crow of the chanticleer in a far-off barnyard, and the soft splash of the waves on the pebbly beach. And if all this doesn't tickle Collingwood people, then I'll give it up."

WHAT OUR EXCHANGES FOR FIFTY MILES AROUND ARE SAYING.

Herald, Dundalk.

A remarkable voting machine has now appeared in paris. It resembles a weighing machine and the instant an elector steps on the platform an electric bell begins to ring, and does not stop until he has pressed one of the buttons bearing the candidates' name. One button only can be pressed at once, and when that is done the mechanism locks and will not work again until the platform has been released by the voter retiring. A counting apparatus is attached and registers the votes as they are given.

Cured To Stay.

DR. E. A. ROSE DISAPPOINTS THE DOUBTERS —HE ONCE HAD DIABETES BUT HAS IT NO MORE—ATTENDING TO HIS BIG PRACTICE.

PORTLAND, Ont., Aug 20.—The account which appeared in many Canadian papers a few months ago of Dr. E. A. Rose having been cured of diabetes by Dodd's Kidney Pills, attracted widespread attention at the time. Many doubters, though, protested that the cure was not a permanent one. The best proof that these doubters were wrong is the fact that for a year back Dr. Rose has been attending to his practice, which was always a large one, in this village and the surrounding country, and has never had any return of the disease. His health is first-class and the doctor is not compelled to take any of the precautions as to diet or otherwise, that are always ordered for people threatened or troubled with diabetes.

The best cough cure is Hagyard's Pectoral Balsam. It heals the lungs and cures coughs and cold.

Dr. Low's Worm Syrup expels and removes worms of all kinds in children or adults. Price 25c. Sold by all all dealers.

To remove worms of all kinds from children or adults Dr. Low's Worm Syrup is a safe and sure remedy.

A Curious Case.

An interesting case has arisen in London township. A swarm of grasshoppers settled upon Patron McRoberts' crops, and, calling his neighbors to his assistance, he set about driving the intruders from his fields by beating tin pans to dinner horn accompaniments. Terrified at the din the grasshoppers gathered up their legs and removed to the adjoining farm, where, their appetites whetted by their travels, they cleaned up everything, put the barbed wire fence and brought famine in the land. The Patron who owned the demolished crop, was not so much enraged at the grasshoppers as he was at Patron McRoberts. Grasshoppers have not had the advantages of higher education, and are not responsible for their actions, but it is different with a rational Patron. He should have known better, and now Mr. McRoberts finds himself defendant in a suit for damages incurred by the other man, because Mr. McRoberts drove into his fields a ravenous pest, to the great detriment of the plaintiff, his heirs and assigns and against the peace of our lady the Queen, her crown and dignity. The case should afford full scope for the lawyers expert in the niceties of the law. The plaintiff will have to show that the grasshoppers that ate his crop are the grasshoppers which Mr. McRoberts drove from his fields; that they left the McRoberts place because of intimidation practised by that gentleman, and not of their own free will and in response to the migratory instinct which prompts winged insects of this species to erratic movement. It is known that when in flight a darkening of the sun, the drifting of a cloud across the solar rays so as to obcure their light, will cause locusts and grasshoppers to immediately descend to the ground. It will have to be shown that there were no obscurations at the hour when the swarm settled upon plaintiff's crops, and it will also have to be shown that there was a crop actually in existence before the predatory wanderers settled. So it strikes us that the case will present many nuts the cracking of which will be attended with much concern to an interested public. If a farmer cannot chase a grasshopper off his lot without incurring a suit at law, in which the farmer gets the verdict and the lawyer gets the homestead, the Patron movement is a failue, and there is no reason for the existance of the Canada Farmers' Sun.—Empire.
