W. H. THURSTON, - Editor

THE OLD ADAM SHOWS

The editor of the Farmer's Sun is a regular Grit of the old school and carries with him through the editorial columns of that paper his old prejudices and instincts. At present he is engaged in trying to discredit the Ferguson regime with all the elopuence of a gifted pen. He has lost none of the party enthusiasm displayed years ago when he conducted the Manitowaning Expositor. The Advance can agree with much that the Sun says editorially, but the editor's unqualified attack on Premier Ferguson, who is making an effort to find a way to minimize the orgy of bootlegging by making for the crime a jail penalty and granting a slightly higher alcoholic content in beer, is not very convincing when one remembers the political record of Mr. Smith. The real political animus shines through the veneer. The old Adam is looking through the Sun's spectacles.

Mr. Ferguson believes that he can better cope with the bootlegger by granting a 5 per cent. beer, which he claims is not intoxicating, and stiffening up the Act in other dierctions, giving a jail sentence without option of a fine, and that this will work in the best interestss of temperance. At least he will make the experiment and if the new beer is found to be intoxicating he will cut it out. The Premier has good temperance men in his cabinet who are willing to give the new scheme a trial.

In the country the nefarious work of the bootlegger is comparatively unknown as compared with the cities, but even here there is too much of it in evidence and a bootlegger with a jail term ahead of him will consider matters a little more carefullly before continuing in the business.

EDITORIAL NOTES

The government will give an annuity to Prof. Saunders of $5,000 for developing the Marquis wheat. This is a dangerous precedent. Many other inventors have benefited humanity as greatly as Prof. Sanders and without pecuniary recognition by anybody. Prof. Sanders has been a government employee for many years and should not require this handsome donation from the public chest.

The glorious news has been heralded from Ottawa that $6,933,279 have been cut from the esimates as compared with last year. Of course this estimate is only preliminary, and before shouting "Glory hallelujah" we will wait and see what the supplementary estimates will be. Some governments have the bad habit of leaving a lot of estimates until the last moment in hopes that the people will not notice their last hour munificence.

The Mt. Forest Confederate and Representative asks, "Why shouldn't all the awkward 5-cent nickels be called in as fast as possible and be substituted by our former most convenient and elegant silver five-cent pieces?" Well, Mr. Confederate, we believe the answer lies in the fact that the government is trying to economize, and goes about it by palming off upon the public its pewter coinage. Nickel has only a metal value, is cheap and silver costs considerably more. There is not the money value in the nickel medal that there was in the old five-cent piece. It is spurious, it is confusing and it is inconvenient. But it is put out in the much abused name of economy!

The Euphrasia Township Prohibition Union held their convention on Feb. 10 in the church. Rev. Mr. Ellison presided. The numbers were not as large as hoped for on account of bad conditions of the roads. After the reading of a letter from Prohibition headquarters it was decided on motion that the matter of finances would be left to each community in the township to collect. The following resolutions are to be sent to Premier and members:

1 That we believe that bootleggers should be given a fine and jail term, as intimated by the Premier. We, the representatives of Euphrasia Township, agree to assist the government to enforce the O.T.A. to the best of our ability.

2 That we, the members of Euphrasia Prohibition Union, meeting in convention, this 10th day of Feb., place on record our appreciation of the benefits of the O.T.A. in our province, and, whereas a majority of the electors of the Province have for three or four times expressed at the polls their confidence in the O.T.A., we earnestly request the Government to strenthen the Act by better enforcement rather than weaken its benefits by any method of government control.

Rev. Mr. Ellison was appointed delegate to the Prohibition convention in Toronto on Feb. 17.

A deputation from the Library Board waited on the Township Council on Friday and secured a grant of $10. They also have purchased $50 worth of books, which are being enjoyed by the many readers. There are about 100 members and we have about $200 worth of good books. Credit is due to the W. I. and others for their generous support.

Rev. Mr. Ellison preached his fourth sermon in the series "The Farmer." Next Sunday night he will take "Sports, especially ball games," and if it is as interesting as the others, which we expect it will, it will be well worth a full house. All the young people should attend.

We Appreciate It!

Lethbridge, Feb. 10, 1925

Dear Mr. ..Thurston:—In., renewing my subscription to The Advance I wish to offer our appreciation of your efforts in endeavoring to publish an up-to-date district newspaper. It covers so much of the local news of that district, and comes to hand so regularly, that I am satisfied that I am expressing the feeling of a great number of your Western subscribers in thus expressing our appreciation to you.

The crops in this part of the country were very good last season and prices are good, therefore conditions are very satisfactory here. We had a rather severe winter until the beginning of this month, which brought milder weather and we are not expecting much more real winter weather from now on.

He made money on the farm

OF many a farmer retiring to a well-earned rest it has been said, "He made a lot of money on that farm." The fact is that he made no more money than his neighbour, but he saved a great deal more.
