Girls And Boys Won Games From Durham

The Flesherton H. S. entertained their Durham friends from the latter school of learning on Wed. evening of last week and were successful in winning both games of hockey. The local girls defeated the Durhamites by the score of 3-1 and they played some good hockey, and all the goals were scored by Marie Patton. They are a well balanced aggregation.

Durham—Goal, C. Lavelle; defence, Claire Row and Florence Kress; forwards, Lizzie Hind, E. Moon, Florence McDonald; subs., Mary Pickerng.

Flesherton—Goal, E. Wilson; Defence, E. McMallum and B. Bushell; centre, Marie Patton; wings, Laura Boyd and Thelma Wilson; subs., E. McKee and E. Ferris.

The boys' game was one of the best played here his season. Play was fast and some good combination and stick handling was in evidence. No scoring was done in the first period, ownig to close checking, but in the second McDonald and Watson scored in quick succession, Moon coming back wtih one for Durham. Cec McTavsh and Ted McDonald each added another, Cec scoring again before the end of the period. In the last period Buchanan scored on a lone rush and W. Vollett lifted a long lazy one and it got past Akins without him knowing it was in that vicinity. R. Boyd came back with his usual goal to leave the score 7-2.

Cec. McTavish was the best man on the ice and although W. Vollett tried hard, he was too closely checked to be effective.

Durham—Lavelle; Defence, Wilson and McFadden; Centre, Moon; L. W., Elvidge; R. W., W. Vollett; subs., F. Vollett and Clark.

Flesherton—Goal, Akins; Defence, Buchanan and R. Boyd; Centre, C. McTavish; L.W., T. McDonald; R.W., M. Watson; subs., J. Nuhn.

INTERMED'S AT CHATSWORTH

The Flesherton intermediates are playing in Chatsworth on Thursday night of this week. It is hoped that a sufficient number will make the trip so as all can enjoy the club rates.

Flesherton 7, Dundalk 6

Flesherton closed their season's engagements with Dundalk by handing them a 7—6 walloping here on Thursday night last. The large crowd that was on hand was well satisfied with the result and were well pleased to see the locals emerge victorious after one of the hardest fought games of the season.

Flesherton opened the first period with two goals in quick sucession on beautiful lone rushes by S. Mctavish who passed the puck each time to C. McTavish, and he drilled the puck past Stevenson. W. Armstrong on a nice lone rush scored the third goal the period ending 3—0.

In the second period the locals increased the count to four while Dunddalk scored two the period ending 4—2.

In the last period Dundalk pressed hard but the locals had the edge throughout, Akins having the time of his life stopping the puck as the frantic Greenshirts tried to tie the game.

Lineup—Goal, Stevenson; Defence F. Montgomery and M. Thompson Forwards; Dper, Ridley and Watson Subs. P. Wellwood, N. Wellwood.

Flesherton—Goal G. Akins; Defence F. Thurston, S. Mctavish Forwards; Armstrong, C. McTavish, R. Boyd; Subs. Watson, Betts, and Dow.

TORONTO LINE, NORTH

Mrs. W. J. Lever of Owen Sound is spending a few days with her daughter, Mrs. Fred Brown.

Mr. Russell Wilson and sister, Olive, were recent visitors at the home of W. J. Alcox.

Mr. and Mrs. Geo. Pritchard spent Sunday at R. Richardson's.

Mr. George Shaw of Cheeseville was a Sunday visitor in our burg.

We are sorry to report that little Marion Wickens and Iva Brown are both sick, but hope to hear of them soon being in usual health again.

Mrs. Henderson of Feversham spent a day with her friend, Mrs. A. Stewart, last week.

Miss Bessie Stewart, who was the guest of Markdale friends for the past week, has returned home.

EAST MOUNTAIN

The young people from here, accompanied by the Duncan young people, had a sleighing party on Vinegar Hill last Monday evening.

A number of people from here attended the funeral in Thornbury on Thursday of the late Fred McKeown, who died at his home in Toronto on Tuesday evening. Mr. McKeown was formerly of Duncan and owned the store and post office there for a number of years. Much sympathy is felt for the widow and children.

Mr. Hugh Smith returned to his home on Monday ill with the grippe.

A number of the young people attended the dance in Kimberley on Thursday evening.

Mr. Clarence and Mildred Smart attended a taffy pull at the home of Mr. and Mrs. Prentice, Duncan, on Saturday evening.

DEATH OF MRS. RICHARDSON

There passed away on Tuesday evening at the home of her daughter, Mrs. Knox, Ceylon, Mrs. Margaret Richardson at the age of 82 years and two months. The funeral is being held Thursday, February 26th, when a short service will be held at the house at 12.30 p.m., interment to take place in Swinton Park Cemetery in Proton township.

Millets Sown at Different Dates.

The question is frequently asked regarding the best dates for sowing millet for hay production. For several years in succession an experiment has been conducted at the Ontario Agricultural College by sowing millets on each of six different dates, starting on May 15th and finishing on August 1st, allowing about two weeks between each two dates of seeding. The average results have shown the highest returns from sowing on June 1st. Naturally, varieties like the Japanese Barnyard and the Japanese Panicle require to be sown earlier than the Hungarian Grass which requires a shorter season for development.

Keep the brood sow in good thrifty and healthily condition. Allow her plenty of exercise. Feed her green food in the winter. She is very fond of alfalfa hay and mangel beets, with one feed per day of middlings and milk. Give her a dry comfortable straw bed, also plenty of fresh water, and she will winter in prime condition.

SIX HILL STORES

We buy together in order that our customers in the six communities may materially benefit individually.

F. T. HILL & CO., Ltd.

Markdale, Ontario

THE HILL STORE

A Store everyone instinctively associates with high quality merchandise at the fairest possible prices.

Many Lines of New Footwear

FOR SPRING 1925 ALREADY PLACED IN STOCK

This store has always been noted for carrying a complete and well assorted stock of Boots and Shoes, suitable for every member of the family. This year our assortment and variety of styles will be larger than ever. Our large buying power places us in a position to meet all compeiiton. Our lines are new and up-to-date in every particular, and when you buy shoes at this store you can rest assured that you are getting strictly new and popular styles at prices within the reach of all. Prices that will show you a substantial saving on your footwear pur-chases. See the new styles of Ladies' Oxfords and Slippers in Patent leather, Calf, Dongolas in black and the most popular colors, all moderately priced, at money saving prices.

GUARANTEED RUBBERS

Always Have a pair Ready

This is your surest foot protection these wet days. We are careful to see that you get correct fitting and we guarantee every pair. The new long Rubber Boots for Women and Children have arrived. Every woman who does any milking or work of any kind around the stable or barn during these spring days should protect her health by wearing a pair of these Rubber Boots, thereby saving doctor bills, and the inconvenience of being laid up with colds or other maladies caused from having wet feet. This is true economy, as it may save many times the price of a pair of these Rubber Boots. See them! Most moderately priced.

In the Matter of Wall Papers Many Customers Have Already Acted on our Advice to Buy Their Supply Early.

Acting on the advice we gave in our last advertisement, many of our customers have secured their supply of papers, but some neglected to bring the size of the room or rooms they wanted to re-decorate. This is very important, for with the actual size of the room to work on we can tell you in most cases exactly what your paper will cost. You will be surprised at the small cost of re-decorating that dingy room or hall, and what a difference a small outlay for some of these new 1925 papers will make in the attractiveness of the interior of your home..... Buy your papers now and have them hung before the busy spring season is ushered in.

Paints for Interior Work in all Wanted Shades

MADE AND PUT UP BY ONLY RELIABLE MANUFACTURERS

If you intend to do any painting to the interior of your home, now is the most opportune time, as you will be much busier in a few weeks time. If you want any estimates or suggestions of any kind in the matter of painting, consult our Mr. Noble and he will be pleased to give estimates or make helpful suggestions.

A COLUMN ABOUT SWINE

What Is Known as "Thumps" In Young Pigs

Causes of the Trouble—Prevention and Treatment—Pointers In Selecting a Brood Sow—Age of Brood Sows—Don'ts for Dairymen.

(Contributed by Ontario Department of Agriculture, Toronto.)

The term "thumps" is applied to a nervous disorder of young pigs which is characterized by violent jerking movements of the body. The jerking movements of the body are caused by spasms affecting the diaphragm or midriff, which is the muscular partition separating the chest and abdomen, and is an important organ of respiration. This spasmodic contraction of the diaphragm is similar to hiccups in people.

Cause of the Trouble.

The cause of the trouble appears to be due to some disturbance of the nerves which supply the diaphragm. In many cases the nervous disturbance is the result of some derangement of the digestive system. Lack of sufficient exercise and overloading of the stomach are common causes of thumps in young pigs. At times there appears to be an inherited tendency to this trouble in the case of litters from pampered or overfed sows. When pigs become affected with thumps the trouble is plainly shown by the thumping, jerking movements of the flanks. The jerkings are sometimes so marked that they move and sway the body back and forth. The attacks are usually more aggravated after feeding when the stomach is full. The trouble may last only for a few days in some cases, and in others it may last for several weeks, and some fail to recover.

Prevention and Treatment.

This trouble of young pigs can be largely prevented by allowing them exercise and avoiding overfeeding. When they become affected they should be made to take exercise in a good, large, roomy place. In summer they may be turned out to pasture and allowed to range about. Badly affected pigs should be given a dose of castor oil to clean out the stomach and bowels. To lessen the spasms of the diaphragm from five to ten drops of laudanum can be given every four or five hours. The affected pigs should be kept on a light diet for a few days and kept hungry so as to encourage them to roam about more and get plenty of exercise.—Dept. of Extension, O. A. College, Guelph.

The Selection of a Brood Sow.

The importance of the careful selection of a brood sow cannot be over-emphasized. So says Professor Wade Toole of the O. A. C. It is true that the sow's influence is reflected on her own litters only, whereas that of the boar is reflected on all litters which he sires, and while many characteristics are common to both sexes of breeding stock, there are others which are very essential to the respective sexes and opposite in nature.

Information as to the history of the ancestry of a young sow is of considerable value. Experience and observation go to prove that certain outstanding qualities are common to strains or families of hogs of different breeds rather than simply breeds themselves. There are good and bad in all our breeds, consequently the prospective purchaser should ascertain as much information as he can concerning the type, the quality and the prolificacy of her ancestry, whether or not they have been thrifty and economic feeders, and whether or not the sows have been good mothers. Canadian hog raisers can well take an object lesson from the results which the Danish breeders are experiencing where all the above information is available to the prospective purchaser. Moreover, every breeding hog must measure up to a certain standard before that hog is eligible for sale.—Dept. of Extension, O. A. College, Guelph.

Age of Brood Sows.

Unusually a sow is most prolific when she is from two to four years of age, and is probably at her best when about two and a half years. Soon after she reaches maturity she is at her prime. After the sow has reached four or five years her powers begin to wane, and it is not long after that when she becomes unprofitable. Just how long to keep a sow will depend upon the individual. If properly handled two litters of pigs a year can be secured from a sow. It is not best to breed a gilt until she is eight to ten months old. Pigs can be weaned at six weeks of age, but eight weeks is probably better. They should be eating long before they are weaned and be well able to secure all the nourishment they need from other sources than the sow's milk, so they will not be checked in their growth by weaning. Many sows will accept service within a few days after farrowing, but it is not best to breed them until after the pigs are weaned, or in eight or nine weeks. The welfare of the sow and the next litter of pigs should be kept in mind, and the sow should have time to recuperate after raising a bunch of lusty pigs before undertaking the job again.

Don'ts for Dairymen.

Don't forget to wash the separator after each separation.

Don't separate the milk without first straining it.

Don't fail to operate the separator according to directions.

Don't expect the cream can to reach destination unless plainly addressed.

Any cow suspected of being in bad health should be isolated, and her milk should not be saved.

Small Advertisements

LOST OR STRAYED

LOST—At the railroad crossing at Ceylon about January 19th, iron claw bar. Finder please communicate with Jas. Sargent, Ceylon.

LOST—Purse containing important papers and small sum of money, on the Collingwood gravel about a month ago. Finder please notify Tucker Phillips or leave at this office.
