ONE HONEST MAN.

Please inform your readers that if written to confidentially I will mail in a sealed envelope the plan pursued by which I was permanently restored to health and manly strength after years of suffering nervous weakness, lost vigor, unnatural discharges, and lack of development.

I have no scheme to extort money from any one. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank Heaven, I am now well, vigorous and strong, and anxious to make this certain means of cure known to all.

Unsolicited indorsements from my grateful friends who have been cured through my Free Advice:

Mr. Mulford: "I saw your notice in the paper some time ago and wrote you about my case. After following your advice which you so kindly gave me, I am very glad to say that I am now perfectly cured. I wish to thank you a thousand times for your kindness."

kindness."

"Heaven grant you a .ong and prosperous life, is the wish of a cured friend."

"Judge of my surprise to receive a kind letter of so valuable advice, absolutely free."

"It is the first advertisement I have answered that did not ask me to call at the Express Office and pay for medicines that I had not ordered."

"I am happy to say that you are truly an Honest Man and deserve the endorsement of both Pulpit and Press."

In conclusion: I have nothing to sell, and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. Perfect secrecy assured. Address with stamp:

"MR. WM. T. MULFORD, Agents' Supplies.

ke Victoria Warder FRIDAY, MAY 14, 1897.

My Thought-And Hers?

The gray of the sea and the gray of the sky.

A glimpse of the moon like a half-closed The gleam on the waves and the lights on the

A thrill in my heart—and my sweetheart's

She turned from the sea with a woman's And the light fell soft on her upturned face, And I thought of the floodtide of infinite blis That would flow to my soul with a single kies,

But my sweetheart is shy, so I dared not ask For the boon, so bravely I wore the mask; But into her face there came a flame-I wonder could she have been thinking the

PAUL LAURENCE DUNBAR in May Ladies Home Journal.

My Wife in a Tempest.

A murmur creeps up from the languishing lanes, And a shiver runs over the trees;

Whilst on the gray barns all the startled Turn a-flash o'er the daffodil seas.

Of the thunder clouds tramp o'er its wreck, And the dove from afar to its cote flies fleet, With the rain on its deep purple neck,

The sun is o'erwhelmed, and the black scallop-

Thus the elements join in conspiracy kind To make me everlastingly blest— For at thunderous crash, and each groan

Thou dost cling sweetly close to my breast. -MAR ST, JOHN BRAMHALL in May Ladies' Home Journal.

Nature's Lesson.

The pink apple blossom is just out of reach. Though you stand on the tips of your toes-A lesson has Nature she wishes to teach You will learn it before autumn goes.

Strive not for the blossom, nor weep at defeat, But patiently wait for a while-All things come in time-and the moments

Soon your frown will give place to a smile, The blossoms will die, but the good fruit will

It will ripen in sun and in rain, The weight of the apple will bend the bow And the waiting will be to your gain.

Seek not the bright buds that will fade in But await the sweet fruit God will send-

The buds may be high and be out of your Way.
While the boughs at the harvest will bend. -Flavel Scott Mines in May Ladies' Home

Another Phase of the Question.

Although fighting in the name of liberty the Greeks are said to be very little better than the Turks, and the Armenians are said to be the worst of all oriental abominations. The Jew of the east is known to be a terrible skinflint, but it is a common remark among oriental travelers that it takes two Jews to equal a Greek, and three Jews to equal one Armenian. These are probably facts that have some bearing in preventing the nations of Europe from joining in their eastern broils. The more civilized nations feel that no real Christian blood should be spilt over such a horde of human robbers and pirates, -Whitby

HAMILTON, MONTANA, U.S.A. special to the Warder

HAMILTON is a lovely town in the beautiful Bitter Root Valley of Montana. It is one of Marcus Daly's great race track towns, with a summer mile course beautified with elegant buildings and grand stand, and a winter track entirely covered. its red roof making the grass a brighter green. Near by is the trimly built town, with brick blocks, frame residences, churches, and two commodious school houses. The Valley is about six miles broad, with lovely farms spreading to the foot of the hills, and towering above are mountains huge with peaks of snow shining in the sun. A mile from the town centre are the Marcus Daly saw mills, capacity 150,000 feet of lumber per day, just started up. The great boom can hold 40,000,000 feet in the log, and the dam cost \$30,000. The company is known as the Anaconda conne

company is known as the Anaconda copper mining company, with mines at Butte and furnaces at Anaconda, and great mercantile interests here and there.

The Bitter Root Valley is one of the most beautiful in the west, and is being improved every year It is a great hay, live stock and vegetable centre, and has proven a grand orchard country, apples especially being very superior. The citizens are from all over the States, and there are quite a number of Canadians doing well quite a number of Canadians doing well. A little over fifty miles from here is Bonner, a beautiful milling town, owned by the Big Blackfoot Milling Company, the directors and many of the employes being from New Brunswick. Many of the towns have sturdy citizens from Ontario, Quebec and Nova Scotia. Nearly every one in Montana gets the mining fever, and I have had an attack and am severally interested in "the Two Mac's", the "Big Mac" and the "Little Two Mac's", the "Big Mac" and the "Little Mac" mines. They are grouped in what is known as the Mayflower district, and give excellent promise, as shown in an assay of \$87.00 to the ton. Only twenty-five and fifty feet have been developed, and great output is expected, of which I hope to inform you turther on. The "Big Mac" is named in my honor, and the "Little Mac" after J. A. McPhaden, who is now calculating what he'll do with his riches.

I like Montana and its breeze western

I like Montana and its breezy western ways, but the spring has been terribly backward and has kept miners as well as

The Colonies on the Isolation Hngland.

Ho! Booshlan Bear, F. Joe, and you— Bill Kaiser Sauerkraut, Kruger, too— Who plot and scheme and trouble brew, To harry Mother England.

A whisper in your ear, you there:
If you know beans, keep on your hair;
Seems like you fellows ain't aware
There's more'n you think to England.

The time was when she stood alone, And downed the world and cried, "Come And that was, 'fore we had grown, To call her "Mother England."

You 'spose that little isle in the surf Is all of her—though that were enough? Don't you forget, when you bully and bluff, We, too, we and we, are Engladd. You 'spose she's weaker now than then? Now that we—grown in brown and brain, Say—"Look-a-here?" our swords, our men, Our lives are yours—dear England.

Millions strong at the very first toot, Of the trumpet, ready o'er seas to scoot, And smash every durned foreign galoot Who dares point a gun at England.

From lands o' the sun, from lands o' snow From lands above her, from lands below, We'll whiten the seas with the ships that To the help—to the help of England.

More-were that plucky old isle some day To drop in the sea like a stone in the bay, England would live—ay!—and bear the sway, In the race and the stuff which is England

So, as we remarked-you, Mister Czar, Herr Bill and the rest, you-stay where you are, Or there's going to be high jinks on this And the one to go down won't be England. -J. K. Lawson in Toronto World.

A Study in Baseball Batting.

The ideal batter puts into his stroke first, body motion; second, upper-arm motion; third, forearm motion; and fourth motion; third, forearm motion; and fourth, wrist motion. The stroke begins with a strong body swing, which is followed by the motions of the upper and fore arm respectively, and ends with a short quick snap of the wrists. Although this is the analysis of the ideal stroke, it is not precisely the one that I would recommend for The wrist and arm motions can be controlled more easily and quickly than the body swing, so that if most of the latter is left off, the batter has a greater chance of judging the ball accurately. I therefore think, as accuracy is absolutely essential, that batters should be coached to use but little body swing. In other words, they or home runs, but to "slree" in the clothing furnished to its army all over the world. Each of the foreign possessions, however, has to pay back, to a certain extent, the amount which the uniforms of the troops stationed or sent there has cost, and this that batters should be coached to use but little body swing. In other words, they or home runs, but to "slree" in the clothing furnished to its army all over the world. Each of the foreign possessions, however, has to pay back, to a certain extent, the amount which the uniforms of the troops stationed or sent there has cost, and this that batters should be coached to use but little body swing. In other words, they or home runs, but to "slree" in the clothing furnished to its army all over the world. Each of the foreign possessions, however, has to pay back, to a certain extent, the amount which the uniforms of the troops stationed or sent there has cost, and this the clothing furnished to its army all over the world. Each of the foreign possessions, however, has to pay back, to a certain extent, the amount which the uniforms of the troops the coached to use but little body swing. isely the one that I would recomme that batters should be coached to use but little body swing. In other words, they should be coached not to "slug" and try for home runs, but to meet the ball squarely for line singles. I believe that the temptation on the part of many Princeton, Harvard and Yale nines to hit hard is accountable for not a few defeats. If my baseball readers refrain from home run hitting, and endeavor to acquire a quick stream. refrain from home run hitting, and endea-vor to acquire a quick snappy stroke, using plenty of wrist motion, I am sure some will have taken a big step towards improv-ing their batting. When you see a batter, as I often have, strike at a ball, and from the force of the stroke be turned completely around, you have seen one who is guilty of two breaches of correct batting principles. First, having entirely sacrificed the import-ant arm and wrist motions, he has with like Montana and its breezy western s, but the spring has been terribly kward and has kept miners as well as ners waiting.

H. McDougall, Hamilton, Montana.

H. McDougall, Hamilton, Montana.

A New View of the Bird Question

of an editorial by Edward W. Bok, in the May Ladies' Home Journal, which presents the live, practical side of the movement against the slaughter of birds for their plus mage. The crusade, Mr. Bok considers, has been carried on upon unwise lines, and over-zealously. "There is a practical element in this desired reform," he writes, "and it is this; Anybody who has given even the most cursory attention or study to botany knows this; Anybody who has given even the most cursory attention or study to botany knows that all forms of life have their origin in plant life. Every animal which exists either lives directly on some plants, or on insects which destroy plants. The birds find their sustenance mainly in the insects that injure yegetation and ofttimes kill it entirely. A sufficiently large number of insects will kill a crop. If there are no birds, naturally the insects have everything their own way. I have recently gone to considerable pains to have recently gone to considerable pains to find out from farmers to what extent the decrease of birds is affecting their crops, and I find that the condition is more alarming than we, who live in the cities and large centres, have any idea of. All the farmers to whom I spoke or wrote agreed that last year the increase of insects was unusually great, while the decrease of birds was even greater. For every hundred birds killed, about sixty are born. Hence it is easy to see that the greater the number of birds killed the more expecad come the crops of the farmer to the issects. The same may be said of our trees, fer the bird is really the balance of Nature. To what extent this balance is being upset by fashlon is easy to realize from the statement that during 1896 the plumage of over three millions of birds was received in New Yora * * * It is these things which I would like women

attacked. They simply supply a demand. The reform in this matter lies with the women who have adopted this fashion,' The workman often eats his lunch on the same bench where he does his work. The office man turns his deek into a dining-table. Neither gets the cut of doors exercise he needs. neither takes the proper time for eating. It is small wonder that the digestion of both gets out of order. In such cases Dr. Pierce's Pleasant Pellets come to their assistance by aiding nature in taking care of the food.

to think about when they purchase birds for

their hats. Na urally a supply depends upon a demand. If women would moderate their buying of hats adorned with birds or their

plumage fewer birds w.uld be slaughtered. Those who kill the bird cannot be rightly

The cause of nine-tenths of the sickness the world is constipation. From this one cause come indigestion; disorders of the stomach, liver and kidneys; billicusness, headaches, flatulence, heartburn, impurity of the blood and the serious complications that follow. To begin with, constipation is a little thing, and a little thing will cure it. The "Pleasant Pelleta" are tiny, sugar-coated granules. They will perfectly cure the worst case of constipation and indigestion. If the druggist tries to sell you some other pill that pays him greater profit, just think of what will best pay you.

For Bicycle Riders.

The mere fact that a dozen or twenty wheelmen are off together for a day's run does not give them the right to take possession of any country hotel they may stop at for dinner; nor does it give them the right to take possession of the road along which they are riding; nor the right to become noisy and troublesome to the people whom they may meet, either on the road or where they stop. There have been so many instances of late in the vicinity of large cities where a dozen young men, individually well bred and gentlemanly, have made themselves so disagreeable, that hotels and stoppingplaces have been obliged to make certain rules, such as preventing the wheelmen from coming into the dining-room in bicycle costume, or from sitting in the public rooms, except perhaps the cate; for the proprietors have found that the moment the members of a party dress in civilian costume they again realize their responsibility as individuals to the community, and that while they remain in their bicycle costume they seem to think they have no responsibility whatsoever. This sort of behavior does more harm to the general bicycling fraternity than can be well estimated. A few men going to a place and making themselves obnoxious to all there will spoil that particular house for bieyelist for many a day to come. The others are treated like intruders. Each one is shunned by people for fear he is another of the first gang. Regulations such as the above are posted up in plain view, making him, so to speak, a restricted person; and in general many quiet people who are fond of bicycling trips have their pleasure marred simply from this lack of responsibility on the part of a few who have preceded them,-Harper's Round Table.

Kidney War.

How Insidiously it Wages, but how quick the Surrender, and how the Flag of Truce is Hurriedly Hoisted when that Great General, South American Kidney Cure, Turns his Guns on the Disease.

This is what James Sullivan, of Chatha Ont., writes: "For years I was a gree sufferer from Kidney trouble. The disease became so acute that I was confined to the house, and was greatly inflicted with insomnia. I was persuaded after using many other remedies without relief to procure a bottle of South American Kidney Cure. I had relief almost from the first dose. I have persisted in its use, and after using six bottles I am well and strong again. I can work fourtes hours out of twenty-four and feel very little if any, fatigue. It is the best medicine I have ever used." Sold by P. Morgan.—95 1.

The British Soldiers' Clothes. about \$675,000 annually. On the other hand, when a regiment comes home from India, that country has to be paid back the full value of the clothes it wears. The government sells old and worn-out articles, to the second-hand dealers, who, by-the-way, usually accumulate fortunes in a short time. The value of cast-off clothes so disposed of is about \$150,000 yearly. The best quality of everything is used in the manufacture of uniforms. In fact, it is said they are too good for durable wear. A huge factory in Pimlico make a large share of the furnishings, but wast quantities of foot and head gear are vast quantities of foot and head go bought ready made. Boots and le

mind that against any pitcher a good clean hit can be made, even without any body motion, if the ball be hit squarely and with a quick arm metion and snap of the wrists.

Harper's Round Table. wool, the billions of yards of sewing-cotton that are made into tunics, trousers, and shirts, cost \$2,500,000, and the wages paid for making these up are over \$5000 a week. But all this vast expense is much less than the annual outlay that France or Germany makes for keeping its soldiers. In Germany every man in the army has four complete suits of military clothing. — Harper's Round Table.

SHOW THEM UP TO THE PUBLIC

As the public—particularly the ladies— are so often swindled by profit-loving merchants and dealers, it is well that people should have an example of what is done in the sale of certain package dyes for home dyeing.

The makers of common and adulterated package dyes sell their crude colors to the retail merchants at a cost of four cents per packet, and the public who buy these ception dyes are made to pay ten cents for them. A handsome profit indeed for Mr. Storekeeper! No wonder he uses every endeavor to sell and substitute his poor dyes for the famous and reliable

Diamond Dyes.

The Diamond Dyes, that all live and nonorable dealers in Canada handle and sell cost a good deal more money, yet the public get them for ten cents, which only allows the dealer a fair profit.

But mark the difference, ladies! sheap dyes are really worthless, and are made for the profit of the manufacturer and the dealer, while Diamond Dyes are made for the profit, pleasure and blessing of every home dyer.

FRANKLIN.

Angelal to The Warder! SEEDING about all done in this section. 1881-ly The fall wheat and clover is about all killed, which made a great deal more work this spring. Our cheese factory is in full operation

again and a large season's business is expected and as Mr. Wood has always made first class cheese the factory is sure Mr. Elias Lowes is on the road every day buying two year old steers; already several car loads have been shipped from

Bethany. ARBOR DAY was diligently spent here in cleaning the school and yard, also a number of new seats were put in. Quire a number of mares and foals have died in this township this spring. Already we know of six.

Law Governing Newspapers.

The following are points in the law governing newspapers that are frequently enquired about and that are worth remembering :-1-Subscribers who do not give express

orders to the contrary are considered as wishing to continue their subscription. 2-If sub of their periodicals from the office to which they are directed they are responsible until they have settled their bill and ordered them discontinued.

8-If subscribers neglect to take the periodicals from the office to which they are directed they are responsible until they have settled their bill and ordered 4—If subscribers move to other places

papers are sent to the former address; they are held responsible. 5-The courts have decided that refusing to take periodicals from the office or removing and leaving them uncalled for

without informing the publisher and the

is evidence of intention to defraud. 6-If subscribers pay in advance they are beand to give notice at the end of their time if they do not wish to conlinue taking it, otherwise the publisher is obliged to send it, and the subscriber will be responsible until a notice with pay ment of all arrearages is due to the publisher.

Cancer can be Cured. For six years I suffered from cancer, an got no relief until I used Burdock Blood Bitters. I used seven bottles faithfully, when the cancer gradually dried up and finally disappeared. I am now entirely well and rejoice that by using B.B.B. I have escaped death either from the surgeon's knife or from the cancer itself. Signed, Mrs. ELIZA TUFFORD, Paris Ont .- 93 3.

GRIEF AND WORRY.

Cause Heart Troubles. A well and favorably known lady of Mitchell gives an account of her sufferings: "Grief, at the death of near and dear relatives a few years ago caused nervous trouble and general debility. Prior to that time I was in excellent health, quite stout and very strong. With my said bereavements I became excessively ner-yous, my appetite failed. I lost flesh and strength, and my mind and nerves were in such a state that I found it almost impossible to compose myself to sleep.
When I did drop into slumber I would wake up in a short time trembling violently and in a cold perspiration, and could not get to sleep again that night, My memory became clouded and fickle. I had great pain through my temples, and my heart frequently seemed to stop its pulsations. Then again I had faint-ing spells so that my friends thought I was a hypochondriac. Fortunately I procured a box of Milburn's Heart and Nerve Pills from Mr. S. A. Hodge, the well-known druggist of this place, and nenged taking them last spring. To my gratitude they performed a complete cure. My appetite is now good. I have gained in fish, health and strength, and and feel cheerful and happy. I sleep well, and have now no trouble with my heart or nerves whatever. These pills are a great cure for heart and nerve troubles as well as a splendid tonie for the entire system, and I am very glad to recommend them to all sufferers from similar complaints. (Signed) Miss W. Misserschmidt, Mitchell, Ont.
