RESIDENCE BURNED

The fine brick veneered residence of Mr. Adam Hislop, in the valley, was devoured by fire about 5.30 on Thursday morning, the cause of the fire being a mystery. The only occupants in the house at the time were John and his sister, the other members of the family being at the fishermen's club house of which Mr. Hislop is manager. Miss Hislop was aroused by a noise and found the house a prey to flames. She awakened her brother, who with her, escaped from the house. Nothing of any account was saved and the loss is great, as there was very little insurance on the building and contents. Many are the friends and neighbors who offer to give a helping hand if Mr. Hislop rebuilds again. We extend our sympathy to them in their loss.

Increased output for the Dairy Farmer

EVERY time a dairy farmer increases production he increases profits. Increased production is largely a matter of improved and augmented herds, modern equipment, time and labor-saving machinery and better, all-round production facilities.

All this, of course, costs money. But it is money which the Bank of Toronto may readily advance to desirable applicants.

If you plan to increase your outfit and require a loan, you can do no better than to see the branch manager of the Bank of Toronto and discuss your problems with him.
