$100 AWAITS ANY PASSENGER WHO SIGHTS U-BOAT AT SEA

Glasgow Shipbuilder Willing to Pay Out £10,000 to Encourage Watching for Submarines.

A despatch from London says: Americans and others crossing the Atlantic can make a hundred dollars by sighting a submarine. Sir A. F. Yarrow, the famous Glasgow shipbuilder, writes to the Times that in order to encourage everyone to keep a sharp lookout he has offered a reward of £20 up to an expenditure of £10,000 to anyone on board a commercial vessel who first draws the captain's attention to an enemy submarine. The reward will be paid on the certificate of the captain giving the name of the person who first draws his attention to the submarine. The statement is to be signed by the captain, saying the submarine was actually sighted. Application should be forwarded through the owners to Sir Thomas L. Devitt, chairman of Lloyd's Register Shipping, 71 Fenchurch Street, London, who has consented to make the awards.

NEW PENSION PLAN FOR BRITISH ARMY

Totally Disabled Men Will Receive Minimum of 27 Shillings 6 Pence Weekly.

A despatch from London says: An Order-in-Council establishing a new pension plan for the British army was issued on Wednesday. Under it privates totally disabled will receive a minimum of 27 shillings 6 pence weekly. If this sum is insufficient to enable the soldier to live approximately up to his before-the-war standard he will be given an alternative pension based on his earnings previous to the war. No single pension, however, shall be in excess of 75 shillings weekly.

The allowance for children is 5 shillings for the first child and a sum slightly less for each subsequent child.

A soldier not totally disabled will receive a pension based on the degree to which his disablement affects his earning powers. Widows will receive half the sum to which their husbands were entitled if totally disabled. A disabled soldier requiring the services of an attendant is allowed fees up to £1 a week for such services. Widows will be granted special funds for the expenses of training to enable them to earn their own living.

The Actuary's report accompanying the plan estimates the expense for the first year at £25,000,000, which thereafter will decrease annually.

GERMAN "HOME ARMY" BEING MOBILIZED.

A despatch from Copenhagen says: According to the German papers, the compulsory mobilization of Germany's "home army" is imminent. The appeal for volunteers, though answered by large numbers, has not produced enough workers to satisfy the actual requirements. Large numbers of men are needed at once to replace those employed behind the front, to work in munition factories which are now being completed and for the all-important farm work. The papers say that the Government is prepared for the compulsory enrollment in the early days of March of all persons between 17 anad 60, so that the recruits can be put to work from April 1.

CONTRACTS FOR SIX OCEAN-GOING BOATS

A despatch from New York says:—Plans to replace with the products of American shipyards part of the tonnage lost by the Cunard Line, an English company, in the German submarine campaign, were revealed here on Thursday by the official announcement that the company had placed contracts for the construction of six ocean-going ships, ranging from 7,500 to 12,000 tons, with subsidiaries of the Bethlehem Steel Corporation. Two of the ships are to be built at the Fore River shipyards, near Boston, one at Sparrow's Point, near Baltimore, and three at the Union Iron Works in San Francisco.

$40,000,000 INCREASE IN THE CUSTOMS REVENUE

A despatch from Ottawa says: The Customs revenue of Canada for the fiscal year which ends on March 31st, will probably exceed that of the last fiscal year by more than forty million dollars. The revenue from customs duties for February the Minister of Customs announces, amounted to $11,190,000, or $1,062,000 more than those of the corresponding month in 1916. For the eleven months of the fiscal year which have now passed Canada's customs revenue amounted to $130,739,000, as compared with $91,946,000 in the same period of the last fiscal year, or an increase of $38,793,000.

ONE BELL IN A CHIME MAY BE RETAINED

PLOWS FOR ENGLAND.

Large Number Being Made in Brantford Plant.

A despatch from Brantford says: Cable enquiries have been sent to England to ascertain if the prohibition of imports of agricultural implements recently put into force by Great Britain to save tonnage will work against local manufacturers, who have been shipping large quantities. To meet the demand in Great Britain for greater production with less need of men the Cockshutt Plow Company here has for some time past been making tractor plows. To date over 500 have been shipped to the Old Land, and there are orders on hand at the present time for 400 more. Officials of the company cannot see how on one hand the British Government will bar agricultural implements and yet order 2,000 tractors, as announced on Wednesday, to increase production.

POPULATION OF WALLACHIA FORCED TO WORK FOR GERMANS

Enemy Has Requisitioned Everything, Leaving the Rumanians Hardly Enough to Eat.

A despatch from Rumanian Headquarters says: A Rumanian officer left behind at Wallachia succeeded in passing the German line, and brought interesting information. The whole civil population between the ages of 18 and 42, he says, is compelled to work for the enemy. The Germans have requisitioned everything, leaving the population hardly enough to eat.

CHINA DECIDES TO JOIN ALLIES

Preliminary Negotiations Now in Progress at Pekin.

A despatch form Pekin says: Wednesday the allied Ministers presented a memorial to the Chinese Government expressing sympathy with the attitude taken by China in regard to Germany, and promising favorable consideration of the questions of suspension during the war of the Boxer indemnity payments and revision of the tariff in the event of China's effectively severing relations with Germany and Austria. Delay in the expected development in German-American relations and the absence hitherto of any collective intimation on the part of the allies that China would be welcome among them have caused the Chinese to hesitate regarding future action. The Germans, it is needless to say, have been doing their utmost among the officers of the army to establish a party opposed to the rupture. The timely action of the allied Ministers seems likely to have the desired result.

LET U. S. AID CANADA, SUGGESTS N. Y. HERALD

A despatch from New York says:—Suggesting a way to overcome the objection of those who argue against "entangling alliances" with European nations, a writer in The New York Herald says: "If the United States does not wish to ally itself with any European nation in a war against Germany why does she not ally herself with Canada, a country as much American as she is? Here is little Canada (in population), big in country, large in manliness and courage, void of yellow streaks, who, with a population of about as much as the State of New York, at the first insult from Germany took a bulldog hold on her and has been worrying her ever since."

NEW U-BOATS 350 FEET LONG

Can Carry Twenty Torpedoes and Crew of Thirty-two-Men.

A despatch from Amsterdam says: The Telegraaf publishes an account of an interview with a German soldier who has been for some time serving as a clerk at the Vulcan dockyard in Hamburg. To avoid punishment for some trivial offence he escaped across the frontier. The man left Hamburg in February. There were then in the Vulcan dock-yard eight large submarines on the stocks. These latest submarines are nearly 350 feet long, and are armed like a small cruiser. They can take 20 torpedoes and a crew of 32. Gangs of 120 men are at work day and night on each submarine. The completion of a submarine requires three months. Besides the submarines small cruisers are now building at the Vulcan dockyard of a new class, so-called Stadt class. These are 430 feet long.

Remnant of Kut Garrison Flee in Disorder Toward Bagdad.

A despatch from London says: The remnants of the Turkish force retreating from Kut-el-Amara have been scattered completely, according to information given out in the House of Commons on Thursday. The Turks, it is said, would reach Bagdad only as a disorderly mob. This information was received from General Maude, commander of the British expedition on the Tigris front, and was announced by Henry W. Forster, the Financial Secretary to the War Office.

Mr. Forster said that more than 2,000 prisoners had been taken by the British since February 24, and since the commencement of the offensive on December 30, some [illegible] Turkish prisoners had been taken. The total Turkish casualties in killed and wounded was estimated by General Maude at more than 25,000.
