FRENCH ACE FONCK CHAMPION OF AIR

Canadian Aviator, Lieut.-Col. Wm. Bishop, Comes Second.

London, May 4.—The Air Ministry has decided that so far as can be ascertained the champion British airman of the war was the late Major Edward Mannock. Lieut.-Col. William A. Bishop, the Canadian aviator, who won the Victoria Cross, comes next. Major Mannock brought down 73 enemy machines and Lieut-Col. Bishop 72. Of all the allies, Lieutenant Rene Fonck, the French ace, holds the record with 78.

The late Baron Richthofen, of German circus fame, claimed to hold the world's record for the number of machines he had destroyed, but the Germans worked on a different system respecting official confirmation of each victory, and his record has not been confirmed.

Major Mannock was born in India of British parents, thirty years ago, and was considered the greatest aerial tactician the Royal Air Force produced. Among his awards was the War Medal of the Aero Club of America. He was finally shot down by fire from the ground.

LONDON GREETS OVERSEAS TROOPS

King George Reviewed 11,000 Soldiers From Dominions.

London, May 4.—Residents of the West End of London turned out in force yesterday to welcome 11,000 overseas troops, who marched through the main streets and were reviewed by King George at Buckingham Palace. Canada, Australia, New Zealand, South Africa and Newfoundland were represented among the troops. Every arm of the overseas armies was represented in the parade, while famous Canadian airmen flew overhead.

General Currie of the Canadian army, with his Staff, including Prince Arthur of Connaught, headed the procession. Each unit was headed by Commanding Officers and their staffs. The parade was one of the many demonstrations designed to announce the coming of peace. Thousands viewed the parade, and special facilities were provided for children.

TRANS OCEAN FLIGHT STILL DELAYED

Mid-Ocean Winds Still Unfavorable to Waiting Airmen

St. John's, Nfld., May 4.—Harry G. Hawker and Capt. Frederick P. Raynham, the British aviators contending for first honours in a transatlantic flight to the Irish coast, were compelled to postpone their "hop off" again to-day when meteorological reports from mid-ocean, in face of perfect flying conditions here, once more showed adverse winds and weather far at sea.

Official prediction of rain for England for the next two days was received here, and is accepted as indicating a delay of more than forty-eight hours.

The inauguration of daylight saving in Newfoundland to-night, when clocks will be set ahead an hour throughout the country, brought a revision of calculations for the flight, although it has not seriously altered plans.

HOLLAND WILL GIVE UP THE EX-KAISER

A despatch from Amsterdam says:—The Dutch newspapers, excepting one thus far have not commented on the proposal to try former Emperor William of Germany. The exception is the Telegraaf, which in an editorial, says the extradition of the one-time Emperor will not conflict with Holland's national right of sanctuary.

"The ex-Kaiser," says the newspaper, "would not be prosecuted because of his intention to place Deutschland Uber Allies, but on account of actions which plunged the world into misery and a repetition of which would be contrary to the vital interests of the Dutch people."

GERMAN UNDERSEAS CABLES ARE SPOILS OF WAR

A despatch from Paris says:—David Lloyd George, Premier Clemenceau and President Wilson have settled the question of the German underseas cables. The decision was reached that the cables were spoils of war and belong to those powers which took possession of them.

ANOTHER ATTEMPT ON LIFE OF CLEMENCEAU

Paris, May 4.—Another attempt against Premier Clemenceau apparently has been frustrated by the arrest of a nineteen-year-old youth who was seized near the entrance of M. Clemenceau's home. The youth, whose name is Cornillon, was carrying a stiletto and had in his possession Anarchist literature. He declared that he did not want to kill the Premier, but desired only to make a "gesture."

Cornillon was acquainted with Emile Cottin, who recently shot M. Clemenceau. He met Cottin in 1918 in some of the studios in Paris. Cornillon hails from Venay.

FIRST CANADIAN DETACHMENT FROM SIBERIA REACHES B.C. PORT

Mont Eagle Brought 1,082 Officers and Men—Remaining Troops Will Follow in Two Detachments on Empress of Japan and Empress of Russia.

Victoria, B.C., May 5.—With the first complete unit of the Canadian Siberian Expeditionary Force aboard, repatriated from Vladivostok, the C.P. liner Mont Eagle reached this port this afternoon. She brought across the Pacific 56 officers and 1,026 men of other ranks, in addition to her military complement, there were 36 passengers in the saloon. About noon time the Mont Eagle arrived at William Head, and, owing to a case of scarlet fever on board, the ship was detained longer than usual by the quarantine officers.

The entire military force on board will go to Vancouver where the Canadian Siberian dispersal headquarters are located, arriving there sometime to-night.

It has already been announced that the detachment which returned to Canada to-day will be followed by two others on the Empress of Japan and the Empress of Russia, the three sailings being sufficient to transport the expeditionary forces.

Rowell, when $50,000 was voted for the maintenance of the office. The President of the Council explained that the new representative, who will be much more than a Trade Commissioner, will take the place of the Canadian War Mission, which is now winding up its business, as there is no reason for its existence in peace time. The War Mission will be in harness, however, until the permanent representative is appointed. Premier Borden is now discussing with the Imperial authorities the status of the Canadian Ambassador to the United States.

The order recites that "owing to conditions prevailing as a result of the war, a widespread feeling exists throughout the Dominion, and more particularly in western Canada, that steps should be taken to prevent the entry into Canada of all persons who may be regarded as undesirable because, owing to their peculiar customs, habits, modes of living and methods of holding property, they are not likely to become readily assimilated or to assume the duties and responsibilities of Canadian citizenship within a reasonable time."
