A DOMESTIC LEMON

A lemon measuring 9 inches round the middle and 10½ inches round the long way grown right here in Alliston may seem to be something incredible to many people. It is a fact nevertheless. Mr. Wellington Graham was showing this product of a lemon tree that has grown from a seed in his own home. It was one of the plumpest and nicest looking lemons one could wish to see and much finer than the ordinary commercial lemon that is purchased in the fruit nad grocery stores. It took this lemon a year to mature after the blossom appeared. At the present time there are four little lemons on the tree.—Alliston Herald.
