GOUGH'S POLICY OF PROGRESS. GRAND INAUGURAL OPENING OF GOUGH'S NEW HOME

We've taken a step upward and a move forward. After weeks of preparation, of remodelling, refurnishing and improving, we are now located in our new, attractive and commodious premises, right in the centre of Lindsay's busiest mart, splendidly situated

On the Corner of Kent and William Streets;
Dobson's well-known old stand.

There's nothing new in the story that this store had to move into larger quarters. The growing demands of our business required increased accommodation, and the same far-sighted policy which has made this business constantly bigger and vastly better compelled us to plan ahead to build up a bigger business still.

Gough's Business hasn't Jumped Ahead by Chance. We've mastered all the strategic points by persistently selling reliable goods at persistently lower prices. We clothe the people for the smallest profit to ourselves.

IN OUR NEW HOME you will find the same policy pursued on a larger and more systematic scale. The biggest stock of Clothing, in styles the latest, is to be found here, where you can look at them at your ease. The brightest, choicest, newest things in Men's and Boys' Clothing. Hats, Neckwear, Underwear and Furnishings find ready expression here. Better light, better system, better accommodation, better everything, with the money-saving register in operation all the time. All goods marked in plain figures, and sales strictly for cash. If the goods are not as represented we will refund the money.

A GOOD STEM-WINDING WATCH GIVEN AWAY, FOR ONE MONTH WE WILL GIVE AWAY WITH EVERY \$10 PURCHASE, MADE AT ONCE, A RELIABLE STEM-WINDING WATCH. EVERY PROMISE FAITHFULLY CARRIED OUT BY

GOUGH,

Corner of Kent and William Streets, Dobson's Old Stand.

than any other spot to be found in the Dominion. This district is a natural park, interwoven by many lakes, rivers and streams of the most beautiful type. Fish and game are plentiful, which renders this most desirable for anglers and sportsmen. The scenery is simply magnificent, and describing with pen. To reach this resort ship for Haliburton, a little mining town, situated at the terminus of the Victoria branch of C.T.R., 180 miles North-East of Toronto. Any information required regarding the country will be cheerfully given by

A Friendly Word.

Several newspaper publishers have for some
years regularly used in division courts all
over our accounts. Their reports are favorable
to the plan, for their readers though at first
amused admit it is only fair.

A large number of WARDER accounts are
therefore being placed in the hands of our
collectors for immediate collection. We are
loath to resort to such a course, but it seems
the only way of getting what is due us.

Some are in arrears from oversight, some
from other causes, but none should feel
offended at being sued.

Kindly save costs by remitting the amount
of your account at once, by post-office order or
registered letter, to

Church Notes.

Mr. E. A. Hardy, B.A., of town, conducted
services in the Fenslon school house near
Pleasant Point last Sunday.

The Rev. W. G. Mills, formerly in charge
of the presbyterian church in Sunderland, now
stationed in California, is visiting his mother,
Mrs. Mill, of the south ward.

Canada's Greatest Celebration of the Jubilee Year.

Fully alive to the times the management of
the Toronto Exhibition, or as the title runs
this year, "Canada's Great Victorian-Era Ex-
position and Industrial Fair," is to be con-
ducted on a scale, from August 30th to Sep-
tember 11th, that will even transcend any
former effort made to promote this, the most
popular, most comprehensive and most
attractive annual show held on this continent.

Already a sufficient number of applicants for
space and of notifications of entries have been
received to warrant the highest expectations.
The management have increased the number
of medals to be awarded and have made many
improvements to the buildings and grounds,
showing that they are resolved to leave nothing
undone that will enhance the pleasure and
comfort of both patrons and exhibitors.

They have also determined on a special feature
that promises to prove the greatest outdoor
spectacle in the way of entertainment that
Toronto or any other city has ever known,
outside the world's metropolis itself.

This spectacle will take the form of a reproduction
of the wonderful Diamond Jubilee procession
in London. Agents are now across the water
hiring and buying the necessary properties and
costumes, which will be an exact replica of
the uniforms and costumes worn by the soldi-
ery, the sailors, the nobility and the young-
men of the guard in the magnificent procession.

Some will also be produced of the ceremonies
at Buckingham palace, St. Paul's Cathedral
and other places along the line of route.
Many interesting specialties will also be intro-
duced, while at night the effect will be height-
ened and magnified by brilliant illuminations
and fireworks.

Not only will spectators have
brought home to them the grandeur and unity
of the empire, but they will be practically
taken home to Old London. While dwelling
on this grand feature the material aspect of
the Exhibition must not be lost sight of,
therefore it is well to mention that entries of
live stock, and the majority of the depart-
ments, close on Saturday, August 7th. Pro-
grammes containing all details of the attrac-
tions will be issued about the 10th of August.

The Weather.

Report for the week ending Saturday night,
July 31st, 1897, from Lindsay observatory.—
TEMPERATURE.

Highest	Lowest	Mean	Coldest	The week
78° 00	58° 00	68° 50	59° 55	65° 61

PRECIPITATION IN INCHES.
Greatest fall of rain in 1 day, 1.90..... Tuesday
Rain fell on 6 days.
Total rain fall, 4.68

THOS. BRALL.

NOTE.—The meteorological conditions for
July were unusual in two particulars, the
continuous great heat without rain during the
first ten days, and the comparatively cool
weather with nearly continuous and heavy
rains during the last ten days.

The highest temperature for the month
98° 6, on the 5th, has been exceeded only
three times during the past seventeen years,
viz.—97° 7 on 7th, 1895; 96° 7 on 16th, 1887;
and 96° 8 on 6th, 1886. The mean temper-
ature of the warmest day, the 5th, 84° 8,
exceeded that of the warmest day heretofore
recorded by 5° 17'. The nearest approach to
it was 79° 68 on the 9th, 1880.

Heavy rain fell on eight of the last ten
days. The greatest quantity, 1.90 inches,
fell on Tuesday, 27th. The total for the
eight days was 5.77 inches, and the total for
the month 6.13 inches. The greatest quantity
which fell on any previous day in July during
the past seventeen years was 1.80 inches on
27th, 1893, but the total for the month was
only 3.1 inches. The largest total for the
month in any year during that period was
4.37 inches in 1889. Therefore the quantity
of rain which fell during the last ten days was
1.75 inches more than the total for any
month previously recorded.

Lindsay Collegiate Does Well.

The report of the educational council on
the result of the first form examination in the
high schools of Ontario was handed out last
Saturday. The marks of the unsuccessful
candidates will be sent to high school and
collegiate institute or public school inspectors
after the results of the other form examina-
tions have been published. It is expected
that the results of the second form examination
will be announced next week. In the first
form examination the Lindsay collegiate did
well, passing 54 candidates out of some 75 or
70. London, Toronto and the other large
places have passed many, but it must be
remembered that a great many candidates
tried at those places. When it is considered
that Toronto sent up 920 and that probably
not one-third of those passed it will be seen
that in proportion Lindsay stands near the
front. The following have passed from Lin-
say:—

Year by year the price of binder twine con-
tinues to fall. Farmers have about a cent a
pound less to pay for it this season than last.

The first auction bicycle sale ever held in
the town took place Saturday when Mr. Jos.
Riggs disposed of a number of his bicycles.
The most of them were high grade machines
and sold from \$50 down to \$22. The buyers
picked up several snags.

Owing to excessive rain it is said that one-
third of the hay crop up west is rotting in the
fields.
