FLESHERTON

Notes On Baseball

Vandeleur lost their Centre Grey League game in Dundalk on Thursday afternoon or last week 17-4. The Vans were not able to field a full team, and so G. Beaton, of Markdale and G. Akins of Flesherton were allowed to play with them.

Flesherton goes to Dundalk this Thursday afternoon, full of pep to trim up Dundalk's hopefulls in their league game. We need this game to tie up the leadership of first place with Dundalk. Out of nine games played this year Flesherton has won six and lost three games, two wins and one defeat with Dundalk! A big crowd is expected from Flesherton and vicinity to cheer the boys along.

The local outfit played with Vandeleur at the celebration there and were victors in a nine inning struggle 7—3. This looks easy in comparison with Dundalk's 17—4 victory, but Vandeleur were no weaklings on Monday with Warling, Graham etc. in the lineup.

New interest is being taken in the girls softball games this year and lately the Flesherton ladies' team has won a number of victories At Vandeleur on Monday, they trimmed Markdale 34—4 and won from Kimberley in the play off 28—0 in a regular hitting spree. The girls play in a tournament at Maxwell on August 13th, when they meet Shrigley in the first game.

The local ball team were beaten in Markdale on Wednesday last, when Rocklyn took their measure 4—1. The locals were without Boyd and Hutton or would have made it a real contest. Alcox, however pitched real ball all the way, but it was the lack of batting strength which cost the game.

Support your team on Thursday.

Howard Hooey was convicted at Owen Sound for being in an intoxicated condition and was fined $10 and costs or one month in jail He could not pay the amount of $18.95 so took the jail sentence.

A MACADAM ROADWAY

The Law Construction Co., Yonge Street Arcade, Toronto, has been awarded the contract of paving a portion of the provincial highway from Melancthon sideroad six miles north. The new roadway will be waterbound macadam. The Co. will open a quarry at Corbetton for crushing 35,000 tons of stone, and will require quite a number of good men and some teams. An office is also being opened at Corbetton on the Vance property and any laborers who are interested might apply to the Engineer in charge about the 7th of this month.

Seized with cramp while bathing in a small pond on the farm of D.W. Clark, West Oxford, Albert Hocking, an English lad, employed by Frank Way of the same district, was drowned.

Nine buildings on the main street of Athens, near Brockville, were wiped out by fire, which originated in the bakery of William Coons. The loss is estimated at $100,000.

Swat the Roosters.

When the last lot of hatching eggs has been delivered the male birds should be removed from the flock, disposed of, or kept by themselves. Fertile eggs are an uncertain article in warm weather, so the aim should be the production of infertile eggs for domestic use. Germ development will start in a fertile egg at any temperature above 68 degrees Fahrenheit. At low temperature the development of the germ is very slow, but it may reach a point in embryo development where decomposition is likely to set in and thereby produce a condition not desired. Any factor likely to cause spoilage in eggs will be more serious in the fertile eggs than in the infertile. No one wants fertile eggs for domestic use. The removal of the males is the one sure way of preventing trouble.—L. Stevenson, Dept. of Extension, O. A. C.

Getting Rid of Ants.

These pests quickly disappear if whole cloves are sprinkled on the pantry shelves or any place that the ants frequent. This remedy is quick, clean and certain.

Separate Cockerels and Pullets.

Remove the young cockerels from the flock as soon as the sexes can be determined. The male birds being heavier and stronger crowd the pullets away from the feed and water, and thereby delay the development of the pullet flock. Young male birds should be marketed as soon as they reach the broiler stage. Any young male birds saved for breeding purposes should be reared on the range by themselves.
