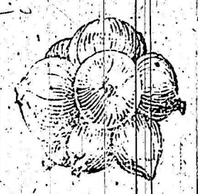
PLANT RENNIE'S MULTIPLIER ONION SETS

Either to produce early Green Onions or splendid cooking Onions



ONE single bulb of Rennie's Yellow Multiplier will yield from 6 to 12 green onions within 6 weeks from time of planting, or if left to grow to maturity, will produce excellent cooking onions of remarkably fine flavor.

Rennie's Yellow Multiplier Onion Sets may be procured from your local seed merchant.

A Farmer Who Gave His Health for His Son

John is a big framed, heavy-handed farmer, with a gentle voice and grey eyes that beam out hopefully at you from behind steel-rimmed spectacles. John wanted his boy to be a doctor, so he worked hard early and late, cultivating his rocky acres to save the money. He got run down, had two or three attacks of the 'Flu—until he got so weak he couldn't work and after some fainting spells and enforced medical attention he learned the dire news—tuberculosis. If Mrs John had been living probably he would have had better care and better food.

He was received at the Muskoka Hospital for Consumptives and now with skilled medical and nursing attendance and the wonderful air of Muskoka to bring health to the tired lungs, John is actually getting better. ... an enthusiastic booster for ... he is well enough ... back to the ... a lot of lost ... that fairly ... maybe he can still ... his ... roll.

Contributions to Muskoka Hospital in the work may be sent to Hon. W. A. Charlton, 75 College Street, Toronto.

Kimberley

(Special to The Standard.)

Mr. Plewes has returned to the mill and farm after spending the week-end here.

Mrs. J. Thompson of Flesherton visited with Mrs. Plewes and Mrs. O. Irwin.

We are sorry to say Mrs. Irwin is not making as satisfactory progress towards health as we would like to see. At times her recovery is despaired of.

Mr and Mrs. R. J. Stuart visited with friends here recently.

Rev. Mr. Ellison is very busy for the last four or five weeks giving lantern lectures at all of his appointments. He will finish up at Kimberley on Friday night with views and special music. Special music has also been prepared for the Easter service.

The Institute are receiving another consignment of basketry from the Institute of the Blind.

Mr. and Mrs. L. Proctor visited with Mr. and Mrs. G. Proctor. We regret to record Mr. G. Proctor is back on the sick list with the Hepworth ailment.

The young people have decided not to go "on the war path" until after the Easter holidays.

Miss Lillian Abercrombie was able last week to return to Peterboro to resume her Normal studies.

Mr. S. S. Burritt visited Wodehouse school last week and found attendance for January 95.4 per cent., February 98.6, and March 97.7, with a total of 15 pupils enrolled. He also visited a number of other schools and will report later. Kimberley junior rooms report for the quarter is 97.2 per cent.

Strathavon

(Special to The Standard.)

The regular meeting of the Y.P.S. took the form of a social evening and there was a good attendance and an enjoyable program, which consisted of contests and games. Lunch was served at the close.

Mrs. Wm. Carmichael purchased a good work horse in Owen Sound last week.

Misses Lottie and Isabel Mustard, accompanied by Mrs. John Ramage, visited with Mrs. Thos. Ramage on Monday.

Mr. ... Duncan Torrie of Lakeview visited with Mr. and Mrs. Donald Torrie the first of the week.

We are sorry to have to report the ... of Mrs. Annie McGillivon, who has for some years resided here, ... bed ... room. ...

What Dairymen Are Looking For.

Dairy farmers producing milk for the city trade depend largely on the half and half type of farmer-breeder for their supply of cows. These specialists in milk production are the wideawake business type of men. They know feeds, cows and markets. When they go out to buy more cows up and down the country side roads, this is what they look for:—Cows with dairy temperament, feed capacity, well developed milk organs, constitution, vigor, freedom from tuberculosis, mastitis and abortion.

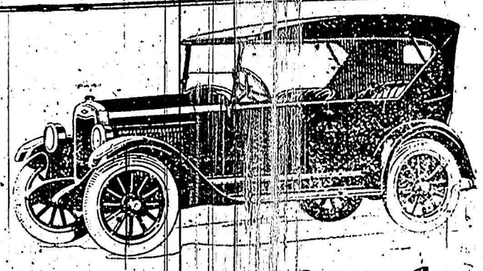
Dairy temperament is indicated by a wedge-shaped conformation, freedom from marked coarseness, alertness, activity and bright eye.

Feed capacity is indicated by a long deep roomy middle, broad muzzle, strong jaw, and well developed salivary glands.

Well-developed milk organs are indicated by an udder of good size and quality, well attached forward and high up between the thighs, large well-placed teats, and veins running forward on the abdomen.

Constitution ... indicated by a good ... and a good width through the ... of the heart, a healthy ... and hair.

Freedom ... dicated by the ... tuberculin test and ... ious ... L. S. ... O. A. C. ...



A Disc Clutch that never needs oil

THE new Chevrolet has a new, improved dry-plate disc clutch that needs no lubrication. It has no internal adjustment. It has a positive, smooth action that makes gear shifting easy. A light pedal pressure operates it, yet it has more than a thousand pounds pressure action delivering all the power to the rear axle without slippage. It is fully enclosed.

This is but one of the many quality features of the new Chevrolet that are daily making thousands of people ask, "How can they produce such fine cars to sell at such low prices?"

Ask us about the G.M.A.C. deferred payment plan.
