## GIRLS SHOULD CHOOSE A VOCATION

Common sense dictates that it is advisable for girls of to-day, as well as for boys, to choose a vocation. The fact that more than eight million women in the United States are gainfully employed stands as proof of the fact, that one out of every four women is engaged in an occupation for which she is paid. Since so many women, either from choice or necessity, go into renumerative employment, it is important for every girl to face the question of a vocation and train for one. Life is full of unexpected changes. Any girl is wise who prepare herself to be self-supporting.—Mary Anderson, Director, Women's Bureau, U. S. Department of Labor.
