### LADY BANK

We are very glad to be favored once more with a few nice days to let the farmers finish their harvesting.

Misses Iyv and Lena Izard, Edith and Janie Semple visited a few days at Clarksburg with friends and attended the camp meetings on Sunday.

The Ladies' Aid of Providence church will hold their next meeting at the home of Mrs. Jos. Sewell on October 7th.

Quite a number of people from Lady Bank took in the camp meetings on Sunday.

Mr. Guy Kaitting of Feversham visited with his brother, Mr. Wm. Kaitting, and family here.

Mr. and Mrs. C. Semple and son, also Mr. Fred Semple of Islington, motored to the former's parental home on Saturday evening. Clarence and Fred returned on Sunday evening, while Mrs. Semple and son, Reginald, will remain for a fortnight.

(Intended for last week)

The blessed sunshine makes its appearance once more, after nearly eight days of steady rain and clouds.

The people of this community met at Providence church on Monday evening of last week with their pastor Mr. Howie, when a Young People's Christian Union was organized. An outline of the work was given by Mr. Howie and a staff of officers was duly elected. It was decided to hold their first meeting on Wed. evening at 8 o'clock in the church. Everybody welcome.

Miss Janie Izard is spending a fortnight with her cousins, Mr. Roy and Chas. Fenwick of Maxwell.

Miss Adell Roberts of Epping visited her parental home over the week end.

Mr. and Mrs. W. J. Moore of Spring Hill, visited with Wm. Semple and family on Labor Day.

Much sympahty is extended to Mr. Wm. Kaitting and family in the loss they have sustained in the death of his mother Mrs. J. J. Kaitting at Feversham.

A man should never be ashamed to own that he has been in the wrong; it is but saying in other words that he is wiser to-day than he was yesterday.

## EUGENIA

The weather at time of writing is allowing the farmers to complete the harvest. We hope it continues fine.

We extend our sympathy to the Kaitting family, Feversham, and the Warling family, Vandeleur, in their recent sad bereavements.

We are sorry to report Mrs. Allen ill but hope she will soon be better. Dr. Guy is in attendance.

Miss Betsy Turner has gone to Rock Mills, to assist Mrs. George Johnston, who is not enjoying good health.

We are sorry to hear that Mrs. Smith's son George, who was recently injured in an accident in Toronto, has passed away to his eternal home. We extend our sympathy to Mrs. Smith.

Mr. Alfred Genoe and wife visited Ceylon friends on Sunday.

Mr. Geo. Graham has made a decided change in his residence, which he purchased a few years ago from Mr. Thos Fenwick. He has given the exterior a complete renovation. Mr. Graham is a first class carpenter and is making a fine job of it.

### MR. GEORGE GAMEY DEAD

We extend our sympathy to Mrs. Alex Hoy, who has received the sad news of the death of her uncle, Mr. George Gamey, of Verwood Sask ,who passed away to his heavenly home on August 20th, 1925. ### Cause of Lump Jaw.

Lump jaw is not a hereditary disease, nor is it directly contagious or "catching." It is caused by the invasion of a punctured wound, laceration or abrasion of the skin or mucous membrane lining the mouth by the "ray fungus" (actinomyces). The disease technically is termed actinomycosis, from the fungus mentioned. In probably a majority of cases the disease is caused by the beards or awns of barley, rye, wheat or wild grasses, or the hulls of straw of grains, and possibly the stalks of fodders carrying the infective spores of the fungus into the tissues. When pus flows from an affected tumor or abscess, caused by the fungus, it contains canary-yellow, gritty particles which contain spores, and these getting onto grass, grain, etc., in time reinfect animals when wounds occur. For that reason an animal that has a discharging actinomycotic sore or abscess should not graze with sound cattle, and had better be kept isolated. As some of the pus may also get into milk and contaminate it, a cow affected with a discharging disease centre should not be used for milk production. It may be added that the meat of an affected animal is fit for use if slaughtering is done before emaciation is caused or pus forms and while the animal is otherwise in good health and eating well. The same is true of milk. But if the lump has become an open sore, neither flesh nor milk of the affected animal is fit for human food.

R., they being the honor guests of the evening. The lawn was tastefully decorated with Chinese Lanterns and illuminated by a huge bonfire. A program of games by Miss Kate McMillan, were heartily indulged in. Community singing of the old time songs was a pleasant part of the program and forfeits were taken from those who did not participate in the games. Refreshments were served and a delightful social time was spent by all. A prize was given to the person who found the famous Mr. and Mrs. Banks, who were on the grounds. Mrs. Dan Campbell found Mr. Banks and Miss Edna Nichol found Mr. Banks. Mrs. Donald Stewart was Mrs. Banks and Mr. Archie Stewart was Mr. Banks.. All shook hands and said, "Are you the famous Mr. Banks."
