Are *You* Ready When *your* Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler pangs of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.

Fletcher's CASTORIA

Britain Speeds Air Liner to Beat Germans to Sea

Hundreds of Workmen Rush Huge Ships in Race to Start Atlantic Service

LONDON.—Great Britain has thrown her last reserves of science into the fight to wrest from Germany the honor of launching the first trans-Atlantic air liner.

Two giants of the air, the British R-100, now being built at Howden, and the German LZ-127, nearing completion at Friedrichshafen, will make their first flights soon. The one finished first will be recorded in history as making the first commercial flight over the Atlantic.

The Germans are now in the lead. Their Zeppelin is expected to be in the air before the middle of August whereas it will be toward the end of September before the British are ready to test the R-100. Constructional difficulties, the failure of materials to arrive and other factors may alter this prospect.

For many months in the giant sheds at Howden and Friedrichshafen hundreds of workmen have been climbing like spiders over the largest metal sausages in the world. Each of the new dirigibles is bulkier than an ocean liner. The metal skeleton is covered with cotton fabric, which has been treated with aluminum paint. Each has cost millions of dollars to construct. When completed the two airships, each on its own route, will inaugurate a line of commercial air travel across the Atlantic. The R-100 expects to make a direct crossing from Cardington, England, to New York, and the Graf Zeppelin from Friedrichshafen to the Azores and then to New York.

The dimensions and carrying capacities of the two airships are equally astonishing. The R-100 is 709 feet long, practically a seventh of a mile, the Zeppelin is 770 feet long and 116 feet high. Both ships are about half again as large as the American dirigible, the Los Angeles.

These bare figures, however, tell only the outline of the story. Imagine an airship comprising three decks, the two upper decks for the passengers and the lower for the crew. Imagine a dining room capable of holding fifty persons, floor on which the entire passenger list can dance, promenade decks, comfortable cabins, all in an airship.

Each airship is capable of carrying a passenger list of 100 and a crew of forty, but the Germans plan to carry only twenty passengers and concentrate on mail and valuable cargo.

Meanwhile in the background looms up the tremendous shape of what will be the greatest airship in the world, the R-101, which is building at Cardington, England. It will not be ready until next year, and will then be placed in use on a route to India.

Chivalrous Gentleman (to man who has just settled in the seat he has vacated)—"Pardon me, sir, but I meant that seat for this lady here." Big Man—"It's quite all right, that's my wife!"

Stage Manager (to new stage-hand)—"Now then, everything's ready. Run up the curtain." Stage-Hand—"Wot yer talkin' about? Run up the curtain? I'm a stage-hand, not a bloomin' squirrel!"

GOITRE

Write for Free Booklet describing a home treatment for Goitre which has proven remarkably successful throughout Canada during the past ten years. Used and endorsed by many prominent physicians.

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention.

One spoonful of this harmless, tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Tiniest Tot There

ARE YOU RUN-DOWN?

All That is Needed is a Tonic to Build Up the Blood

There are many people who have been semi-invalids so long that they accept their condition as a life burden. They have endured nervousness, broken sleep and a generally run-down feeling so long that they have given up hope of again enjoying good health. In most of these cases a well chosen diet, fresh air and a tonic to build up the blood would do wonders. And as a blood-building tonic no other medicine can compare with Dr. Williams' Pink Pills. There is scarcely a spot in Canada where you will not find some formerly ailing person who has found new health through the use of this medicine. The experience of Mrs. Thomas Ahearn, St. Malo, Que., bears out these statements. She says:—"I have the greatest reason to be thankful for what Dr. Williams' Pink Pills have done for me. I was in a very weak and run-down condition. Frequently I would faint and my legs would swell badly. It was almost impossible to do any housework. It seemed as if my blood had turned to water. In this weak and despondent condition I began taking Dr. Williams' Pink Pills. A few boxes proved that they were helping me, but I continued taking the pills until I had used a dozen boxes, by which time I found myself a completely restored woman, able to do my work without fatigue, a better appetite and a sense of cheerfulness, where before I had been despondent. For all this, thanks to the health-giving qualities of Dr. Williams' Pink Pills".

If you are feeling run-down, give Dr. Williams' Pink Pills a fair trial and new health will be yours. You can get the pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

France Equips Two Planes for Paris Riot Duty

Observers, Through Wireless, to Inform Police in Streets of the Presence of Mobs

Paris.—Aerial police for riot duty and the pursuit of airplane bandits have recently been organized by French authorities with an eye to the future.

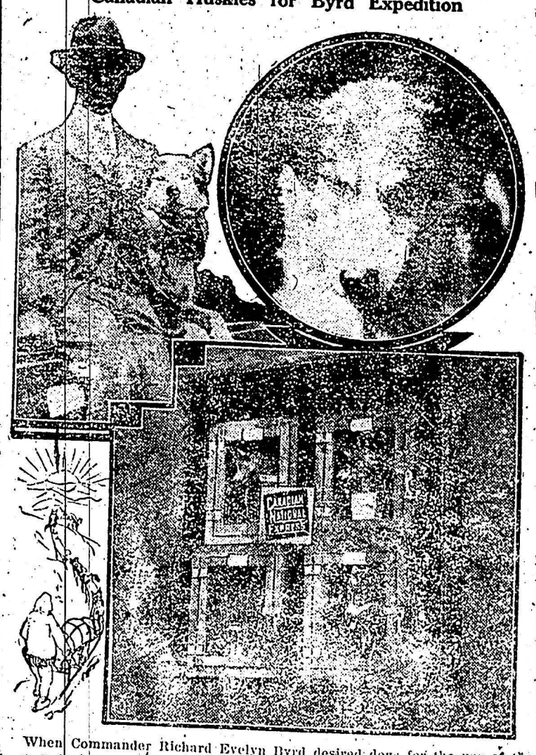
Two airplanes equipped with wireless are kept at Le Bourget Field. There are three pilots and four observers, all men air-trained in the war.

Far above the city on every May Day and whenever there is danger of a Communist or disorderly gathering the air police will circle the city, swooping down for a close look every now and then. The observer, with strong glasses, scan the streets and report constantly by wireless to two police cars below equipped with sending and receiving sets. The Prefecture of Police also is in wireless touch with both the airplanes and the cars, so that the thousands of police and mounted Garde Republicaine, hidden in courtyards and blind streets, can be concentrated in a few minutes whenever there is trouble.

The two airplanes work in relays. The observers are specialists in riot work and they seem to sense the gathering of a crowd. This is more difficult than it seems, say police officials, because the Communists, the main offenders, know they are watched and sometimes organize concentrations quite as cleverly as the police prevent them from becoming dangerous.

Minard's Liniment for aching joints.

Canadian Huskies for Byrd Expedition



When Commander Richard Evelyn Byrd desired dogs for the use of the South Polar Expedition he, naturally, thought of Canada and it was to the North Shore of the St. Lawrence in Quebec and Labrador he sent his agents to select and purchase huskies. David E. Buckingham, V.M.D., consulting veterinarian to the Byrd Antarctic Expedition, went along the North Shore and inspected the purchases which were assembled at Harrington, Mutton Bay and Blanc Sablon. The latter place, just inside the Quebec boundary, had a previous flash of fame as the community from which part of the news of the landing of the trans-Atlantic plane, Bremen on Greenly Island, was flashed ot the world at large.

The dogs were conveyed to Quebec by the S.S. North Shore, of the Clarke Steamship Company, and at Quebec transferred to the care of the Canadian National Express. Two special cars were in readiness and the dogs, each in a private stout crate, were carefully placed on board and despatched to Montreal by the day express. At Montreal the cars were switched to "The Washingtonian," and on this crack train of the National System the Huskies were sent to Washington en route to the United States Naval Supply Base at Hampton Roads, Virginia. From that point the Canadian dogs will sail for New Zealand, Ross Sea and Bay of Whales. There were 79 dogs in the shipment handled by the Canadian National Railways.

Word "Boycott" Was Man's Name

The term "boycott" has crept into use generally only during the last few years. Few people realize that this word originally was the name of a man.

Captain Charles Cunningham Boycott was the agent of an estate in Ireland. His harsh methods of collecting the rents from the tenants caused him to be unpopular. In 1880 the tenants, feeling that they were overburdened with high rents, banded together and fixed the rent at prices they could pay. Boycott refused to accept the new rates. As a result his life was threatened, his food supply interfered with, his fences torn down, his letters intercepted and his servants compelled to leave him.

All those who were found helping Boycott in any way were ostracized by the tenants. As a result when harvest time came there was no one to gather Boycott's crops. He was forced to apply to England for help and his harvest was gathered by a crew of "emergency men" sent to him.

This campaign of persuasion was later adopted by the Irish Nationalists. The term "boycott" soon came into common English use.

Indians in Bison Rodeo

Ellensburg, Wash.—A bison round-up has furnished historic interest at the annual rodeo here. The buffalo came from the Gibson herd on Squaw Creek, one of the few herds left in North America. It has grown to 200 during the last few years. Yakima Indians performed with bow and arrows in the show.

A writer says that a man always criticises his wife's dresses. But he has to make allowances for them.

THERE is nothing that has ever taken Aspirin's place as an antidote for pain. It is safe, or physicians wouldn't use it, and endorse its use by others. Sure, or several million users would have turned to something else. But get the real Aspirin (at any drugstore) with Bayer on the box, and the word *genuine* printed in red:

Tablets Aspirin
BAYER
MADE IN CANADA
Genuine

Aspirin
(is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trade mark.

A WONDERFUL TRIBUTE

Baby's Own Tablets Declared to be Worth Their Weight in Gold

A mother has only to use Baby's Own Tablets once to be convinced that nothing else can equal them in banishing the ills of her little ones. Once used, always used, as long as there are small children in the home—that is the tribute thousands of mothers pay the Tablets.

Among the many, many mothers who are anxious to tell of their experience with Baby's Own Tablets is Mrs. Griffith, of East Hamilton, Ont., who writes:—"Shortly after coming to Canada I began giving the Tablets to my baby boy who was then six weeks old. The result was so pleasing that since that time I have always kept the Tablets in the house. I have two children now and both of them are the picture of health. Baby's Own Tablets are the only medicine they have ever had and I really believe the Tablets to be worth their weight in gold."

Baby's Own Tablets are free from all injurious drugs and can be given to the youngest babe with absolute safety. They are sold by medicine dealers or by mail at 25 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

Syrian Council Backs Plan to Form Republic

Jerusalem.—A member of the Constituent Council of the Syrian National Assembly is authority for the information, given to Damascus newspapers, that the council has decided upon a Republic of Syria.

The draft of the constitution, it is understood, will be ready shortly for submission to the National Assembly.

News of the pro-Republican leanings of the National Council have spread among distant Bedouin tribes and have provoked demonstrations among those who had candidates for the throne in view. Encounters between these tribes and government troops resulted in a few casualties among the soldiers.

Corsicans Permit Capture Of Bandit Lacking "Style"

Ajaccio, Corsica.—Banditry is a lost art in Corsica. Perfettini, the latest of the robber chieftains, has been shot down by gendarmes and they were able to get him only because the Corsicans didn't like Perfettini's style of banditry.

They considered his methods too low-brow. He and his band robbed and killed in the ordinary manner. His acts were regarded as "crime," while the Corsican bandit, Romanett, also killed by gendarmes two years ago, occasionally held for big ransom some unpopular person or killed in vendettas.

But he did things in a grand and picturesque manner that made him something of a popular hero.

A man who had been asked to make his after-dinner speech as short as possible, arose and said: "I am asked to propose the toast of Mr. Dodshou, and I am told that the less said about him the better."

The Engaged Sister—"When we are married, dear, we must have a hyphenated name—it's so much smarter. What would go well with Eaton?" Her Small Brother—"Moth."

A New Industry

Workers in Europe Reset Plan to Cut Diamonds in South Africa

The recent announcement that the Government of the Union of South Africa has decided to conclude a contract with an Antwerp firm under which the concern is to erect a diamond-cutting plant in South Africa and enjoy special privileges calculated to give it an advantage over existing diamond cutting works, aroused deep resentment in the ranks of the organized diamond cutters.

In a pronouncement issued by the Executive Committee of the Federal Association of Diamond Workers, with its headquarters in Antwerp, it is pointed out that, while it is natural for the South African government to try to promote diamond cutting at home and thus build up a little industry, the method adopted is contrary to every principle of fair competition and trade. Consequently, the affiliated unions are urged to forbid their members to go to South Africa to work for the firm in question, or any other firm which may make similar contracts.

The great majority of the 50,000 union diamond workers live in Belgium and Holland (about 8,000 in the former country and 6,000 in the latter). It is understood that the diamond-cutting concerns of these countries are well pleased with the union's stand, as the prospect of getting the bulk of the work cutting the rough gems done near home has caused considerable trouble in Belgium and Holland.

Seek Tomb of Ancient Queen Famous for Her Love Affairs

Lesbar, France.—Marguerite de Navarre, Queen of Navarre, dead 400 years, is in danger of having her tomb torn up with her bones.

Search is being made under the Cathedral of Lescar for the tomb of the woman whose history was a recital of love affairs and intrigue, disaster and defiance even of the King of France.

Spring is late in Italy. Premier Mussolini has had other things to think of.

MINARD'S "KING OF PAIN" LINIMENT

MEDICINE FOR YOUNG GIRLS

Mothers Endorse Lydia E. Pinkham's Vegetable Compound

Sydney, N.S. "My seventeen-year-old daughter took Lydia E. Pinkham's Vegetable Compound for weakness and pains. She could not go about much with the other girls as she was not strong enough. We got a bottle and it did her a great turn. She is now at now in a store and works every morning and has been doing nicely." Mrs. M. M., Sydney, N.S.

Pinewood, Ont. "I have two girls in my home and they miss days in bed every month. Three boxes of Lydia E. Pinkham's Vegetable Compound have done more than anything else for them in the home. It has saved your good name. My friends and have given it to my 16-year-old girl." Mrs. A. M., R.R. 2, Pinewood, Ont.
