Spectacles, and have complete apparatus for testing the sight. No matter how good or perfect GLASSES may be, they cannot be satisfactory unless suited to the wearer. In order to secure the best results, to preserve the sight, to prevent so far as possible all hurtful strain upon the visual nerves and muscles, the lenses should be perfectly adapted to the

This cannot be done without a knowledge of the principles in-volved. We have made a special study of this subject for several years, and offer advantages as to the scientific fitting of Spectacles that are not obtainable outside of the larger cities.

About those "MIDLAND" Watches. Have you seen them? The railroader's watch. Watch which being the best for railway purposes where accuracy is IMPERATIVE, is the best for everybody who uses a watch. Come and see them and when you require a watch get a "MIDLAYD" and be happy ever after. We siways keep in stock a very complete assertment of Lecies' and Gentlemen's Gold, Gold filled, and Silver Watcher at watch.

## OAKWOOD

Owing to changes we purpose making in our Oakwood business we require to reduce our stock very largely by December 1st, and in order to do so, we'll give you a lift in the right direction, if you will permit us to help you in the upward path so to speak, the path of plenty and prosperity. Do you want to rise in the world? Do you want to be well heeled? Remember economy is the parent of prosperity, and become a practical economist by trading with us. The heavy profits which some merchants make, like the interest on borrowed money, eat up the earnings and prevent saving. We make no such profits and those who trade with us will find their savings increase with every trade. An honest profit on an honest price is our idea of price and profit making. Big prices and big profits are not honest, we have nothing to do with them. We will save you also on the goods we supply, good grade goods go farther than low grade, even at a higher price they are cheapest in the long run. We give good grade articles on the same level as low grade that makes them cheapest in actual cash, as well as cheapest in actual value. It takes us to make bargains, we are old hands at it, we know how to buy and that is how we have the secret of selling.

Groceries, Boots and Shoes, Dry Goods and Clothing, at less than other people pay for them.
