Yours respectfully, Optical Goods, offers many special attractions to those in search

of anything in these lines. In goods suitable for Wedding or Birthday presents the stock is so varied and complete as to suit all tastes and all pockets.

In Staples, such as Clocks and ordinary Table Silverware, the same variety of styles and prices will be found, and in all cases the goods are the cheapest because they are the best obtainable.

As to Watches. We are doing our best to provide the public with timekeepers of superior accuracy, at reasonable prices. Our trade in watches has attained such proportions that we can afford to sell at a closer margin of profit, and furnish watches of a superior quality at prices usually obtained for goods much inferior. Our "MIDLAND" watch cannot be surpassed in any of the qualities which go to secure reliability, durability, accuracy and beauty. We carry a splendid assortment of Ladies' Solid Gold and Filled

Gold Watches. Spectacle wearers in general are Z. YEREX
having their glasses perfectly fitted. Many do not find out until too late that their eyes have been permanently injured by wearing spectacles which—although of good quality, perhaps—are not adapted to their eyes. It would be about as sensible for a sick person to try to effect a course by not aware of the importance of 1889 person to try to effect a cure by tasting drugs indiscriminately un-til he found something to please his taste, as to select spectacles as is generally done. The wise and economical way is to have your eyes reared and fitted by a

OAKWOOD

Owing to changes we purpose making in our Oakwood business we require to reduce our stock very largely by December 1st, as d in order to do so, we'll give you a lift in the right direction, if you will permit us to help you in the upward path so to speak, the path of plenty and prosperity. Do you want to rise in the world? Do you want to be well heeled? Remember economy is the parent of prosperity, and become a practical economist by trading with us. The heavy profits which some merchants make, like the interest on borrowed money, eat up the earnings and prevent saving. We make no such pr fits and those who trade with us will find their savings increase with every trade. An honest profit on an honest price is our idea of price and profit making. Big prices and big profits are not honest, we have nothing to do with them. We will save you also on the goods we supply, good grade goods go farther than low grade, even at a higher price they are cheapest in the long run. We give good grade articles on the same level as low grade that makes them cheapest in actual cash, as well as cheapest in actual value. It takes us to make bargains, we are old hands at it, we know how to buy and that is how we have the secret of selling,

Groceries, Boots and Shoes, Dry Goods and Clothing, at less than other people pay for them.
