Warning

Last Sunday evening Markdale's main street was the scene of the worst rowdyism we have seen in years, and the like of which we don't want to ever see repeated. After having to listen to the vile cursing and witnessing the depraved actions of several persons, the residents of the area are agreed they will not tolerate a repetition again, and will lay charges if repeated. It might interest these hoodlums to know they are known to town authorities as well as residents.

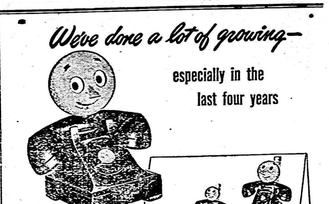
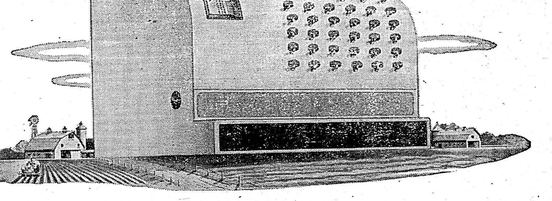
We've done a lot of growing—
especially in the last four years





HOW MUCH OF THIS MONEY WENT INTO YOUR POCKET?

We've passed another milestone in telephone history—in Ontario and Quebec we now have 1½ *million* telephones. Of these, 500,000 were added in the last four years. That's more telephones than we installed in our first 40 years!

And as we have grown, service has grown better. Your calls go through quickly, clearly. You can always count on your telephone. Yet up to now, despite rising costs on all sides, there has been no increase in the basic telephone rates established 22 years ago. Few things give you so much real value at such low cost as your telephone.

We've broken all records—but there are still orders we haven't been able to fill. We will keep right on working and building your telephone service a bigger bargain than ever—to continue to provide more and better service at the lowest possible cost.

THE BELL TELEPHONE COMPANY OF CANADA

That's a lot of money! It represents the gross income from farm products in Canada for 1948. It represents the earnings of Canada's biggest primary industry.

Is the share of this huge sum of money which came off *your* farm as much as it might be? In other words, is your farm producing to the full extent of its possibilities? Could it be made to produce more?

You can answer these questions for yourself best if you are in a position to know exactly how much you spend and how much you receive in each of your farm operations.

You can know these facts only if you have some reliable way of keeping track of your receipts and expenses. We don't mean anything complicated... just the opposite—something quite simple, such as our Farm Account Book.

A few minutes at this book every day or so and you will know just which operations of your farm are doing well, which only fair, which are falling behind. Then you can take the necessary steps to correct matters.

A copy of this book is yours for the asking. Call at our local office for a copy. While you are in, have a word with our manager. He will be glad to see you and to discuss any problems you may have in the operation of your farm.

DO YOU NEED
READY MONEY FOR SEED AND FERTILIZER THIS SPRING?

Drop in and talk over your financial requirements with your local B of M manager.

That's what thousands of go-ahead farmers do every year. It's a routine part of their farm financing, a tide-over arrangement till the proceeds from sales come in after the harvest.

And remember—when you ask for a loan at the B of M, you do not ask a favour.

You'll find your local B of M manager easy to talk to and anxious to be of service.

Will Plant Another Windbreak

1750 trees, pine, spruce and cedar from Midhurst Nurseries, arrived in the community last week and were heeled in by your scribe in readiness for planting in the Community Refor. station Plot on Windbreak. Mr. J. C. Jackson of Owen Sound, Zone Forester for Grey and Bruce who will supervise the planting has suggested that the work be done on Friday, April 22nd, when it is hoped to have the assistance of the teacher and pupils, as well as every able-bodied person in the section. The Municipality has purchased the land and will supply the wire and steel posts on the understanding that the community will plant the trees and erect the fence and it will take a real community effort to put the project across.

In his illustrated lecture in the Community Hall on Tuesday evening of last week, Mr. Jackson stated that he had inspected the windbreak planted last spring south of the school and said he was delighted with what he saw. He further stated that this was the first community project of its kind in the ministries of Grey and Bruce, and paid high tribute to the Community spirit displayed on that occasion. He said that he had never seen a group of people work with greater enthusiasm in a more co-operative spirit on any community project, and said that he didn't think that there was a tradition in Vandeleur, because, he added, as I came down into the school grounds I saw a monument to the Pioneers of the section, bearing a suitable inscription erected by their descendants.

A good program of moving pictures will be put on in the community hall on Monday evening, April 25th, by the Fieldman for the Federation of Agriculture. Everybody welcome.
