### Port Perry in Ruins.

The people of Port Perry are mourning in ashes, if not in sackcloth, over the devastation caused by one of the most disastrous conflagrations that have occurred for years in this province.

About half past 12 o'clock on the morning of the 4th inst. fire broke out in the Mansion House stables, and in less than three hours the flames had devour- ed the entire business portion of the village, not a solitary store or office of any kind being left. Grocers, dry goods men, butchers, hardware merchants, printers, tinsmiths, livermen, harness- makers, doctors, lawyers and many others were burned out, nothing being left but one or two hotels and churches and dwelling houses outside the area swept by the fire. The total loss is estimated at \$345,000, on which there were insur- ances amounting to about \$155,000.

Fully three hundred heads of families are out of employment, and many per- sons in comfortable circumstances a few days ago are now completely ruined. The homeless inhabitants of the village are living in sheds put up to shelter them, and Mr. N. F. Paterson, Q. C., of Port Perry, went to Toronto last Tuesday, with the intention of applying to the Mayor of the city and the local Government for relief. Port Perry, it will be remembered, suffered severely from fire last November, when property to the value of \$120,000 was destroyed. It is rumored that a great many busi- ness men intend to leave the village, which is far from as prosperous as it used to be, and that comparatively few of the buildings burned will be replaced by new ones.

Smith and John Fell, Sr. Agreed, That Henry Haines be assessed for part of north half of south half of lot 1 con. 14, name having been omitted from assessment roll; also that John Cottin- gham be entered on roll as householder part of lot 5 east of Main street, Kin- mount.

### North Verulam.

(Correspondence of the Gazette.)

METEOR.—On the evening of the 3rd inst. a phenomenon of nature was seen in the appearance of a large meteor, passing apparently within a short distance of the earth and in a course from south-east to north-west. For about three minutes it created a light equal to the noonday. We may yet hear more of this strange aerial visitor.

CROPS.—The hay crop is very poor; fall wheat medium; spring wheat, barley, oats and rye are looking pretty well. Farmers consider the yield will be about three-fourths of last season. Pastures were getting badly burnt up, and the roots threatened to be almost an utter failure, but the recent heavy rains have improved their appearance wonderfully.

A CAPTURE.—Several owners of poultry yards have suffered losses by raids made upon their property by wild animals. Among those who have suffered is Mr. Curtis, and serious losses caused him at last to form a vigilance com- mittee which was in the end successful. Having put several intruders to flight, they resolved to capture the next. He came in the form of a striped-back animal, and the garrison prepared for action. A successful capture was made, but the captor found it more pleasant to keep at a respectful distance from such an animal, and will be more prudent in future.

PIC-NIC.—The extensive series of festi- vities some time ago commenced are still being held. The last was a picnic for St. Peter's Sunday school, held in Beatty's grove. The number of attend- ants, though not so great as at some former gatherings here, was very fair. At the entrance to the grounds was the children's banner, and over the passage leading to the tables was an arch con- structed of evergreen boughs, on which was the motto "Welcome." About 4 o'clock threatening signs of a thunder storm appeared, which caused a hurry among those attending the tables, but which passed with a slight sprinkling of rain. The evening closed with the usual sports. St. Peter's Sunday school has an attendance of about fifty-five. The teachers and their superintendent, Mr. Fred Hopkins, may fairly be congratulated on the success of the school.

### School Board Proceedings.

Fenelon Falls, July 2nd, 1884.

The Board held its regular monthly meeting, and all the members were present except Mr. Cunningham.

Moved by Mr. Greene, seconded by Mr. Swanton, That the following ac- counts be paid, and the chairman give his orders for the same: F. Sandford, for 5 black boards and 2 lots of window blind slats, \$18 75; L. Deyman, chairs and reading desk, \$10 20; Mr. Graham, balance quarter's salary, \$47 49; Miss McArthur, quarter's salary, \$81 25; Miss McMurchy, quarter's salary, \$56 25; Miss McDiarmid, quarter's salary, \$43 75; John McGee, quarter's salary, \$25 00; and that Miss Thompson's resignation be accepted, on the condition that she receive the sum of \$95 in full of all claims against the Board.—Carried.

Moved by Mr. Swanton, seconded by Mr. Greene, That Messrs. Cunningham, Naylor and Moffat be a committee to have what repairs are necessary done to the school-house during vacation.—O'd.

Moved by Mr. Moffat, seconded by Mr. Swanton, That the secretary be in- structed to advertise for a teacher for the middle or third division of the pub- lic school, Fenelon Falls, three inser- tions in the Weekly Globe, duties to commence after midsummer vacation; marked tenders to be addressed to the secretary.—Carried.

### Verulam Council.

Council met in the town hall, Bob- cayceon, on Saturday, July 5th, as ad- journed court of revision. Members all present. Minutes of last court read and confirmed.

Moved by Mr. Kennedy, seconded by Mr. Bredin, That the assessment roll as now revised be confirmed, and the clerk is hereby authorized to sign the same.—Carried.

Court of revision then closed.

The members then went into council. Minutes of last meeting read and con- firmed.

Moved by Mr. Lamb, seconded by Mr. Kennedy, That Thomas Byrnell and Joseph Davis be allowed until 1st October to remove their fences off line.—Carried.

Moved by Mr. Lamb, seconded by Mr. Kennedy, That twelve dollars be paid to Thomas Bick, gravel for 9th and 10th con. line.—Carried.

Nathan Nicholls was heard concern- ing the road now travelled through his land, and offered to give the land and make the road on the north side of his lot as good as the road now travelled, provided the council would pass a by-law closing the road now through his land.

Moved by Mr. Kennedy, seconded by Mr. Lithgow, that this council will take into consideration at its next meet- ing the advisability of passing a by-law to give effect to the above proposition, and, if satisfactory, to take the proper steps to have the same advertised.—Carried.

Moved by Mr. Lithgow, seconded by Mr. Bredin, That the following acc'ts be paid and orders drawn on the treas- urer for the same:—Wm. Humphrey, work on roads, \$15; James Long, do., \$35; Thomas Kennedy, do., \$27; Pat- rick Hartnett, do., \$17 50; John Ken- nedy, do., \$17 50; Morgan Johns, do., \$26; Thomas L. Davies, do., \$2; Andrew Knox, do., \$20; George Simpson, do., \$25; Thomas Courtney, do., \$20; Samuel Pogue, do., \$33; Thos. Keown, do., \$20; Samuel Keown, do., \$10; Robert Steele, do., \$10; Thomas Byr- nell, do., \$7 50; George Britton, to pay others work on road, 1883, \$6 75; Chas. Connor, do., \$40; Richard Law- son, do., \$60; Samuel White, contract building bridge, \$65; The Clerk, quar- ter's salary, \$25; Thomas Bick, gravel for 9th & 10th con. line, \$12.—Car'd.

On motion of Mr. Kennedy the coun- cil adjourned to Saturday, 30th Aug't.

### Landlordism in Scotland.

The Duke of Argyll, who left the Gladstone Government because it at- tempted to do justice to the Irish ten- ants, lately made a severe attack on Mr. Henry George's book, "Progress and Poverty," and Mr. George has pub- lished, in the Nineteenth Century, a vi- gorous reply, in the course of which he says:—

"Take Scotland, of which the Duke is one of the large proprietors. What there are the results of this private property in land? That wild beasts have supplanted human beings; that glens which once sent forth their thorns and fighting men are now tenanted by a couple of gamekeepers; that there is destitution and degradation that would shame savages; that little children are starved for want of proper nourishment; that women are compelled to do the work of animals; that young girls who ought to be fitting themselves for wife- hood and motherhood are chained to the machinery of factories or purling the streets; that while a few Scotsmen have castles and palaces, more than a third of the Scottish families live in one room each, and more than two-thirds in not more than two rooms each; that thousands of acres are kept as play- grounds for strangers, while the masses have not enough of their native soil to grow a flower, and are shut out even from moor and mountain; dare not take a trout from a loch or a salmon from the sea. There the Duke may find countrymen of his men and women, the equals in natural ability and in moral character of any poor or peevish in the land, tilling the ground with the crook and spade, cutting grain with the sickle, threshing it with the flail, win- nowing it by tossing it into the air, grinding it as their forefathers did a thousand years ago. He may see the smoke from the fire in the centre of the hut ascending as best it can through the thatch, that the precious heat, which cost so much labour to procure, may be economized to the utmost. Why, then, did he of a little girl in this country, barefooted, ragged and hungry, who, when they gave her bread, raised her eyes and clasped her hands and thanked our Father in Heaven for His bounty to her."

### Indian Troubles.

THE INDIANS IN COLORADO RISE AND ATTACK A CATTLE RANCH.

DENVER, July 7.—Wilson Carli- and Johnson's Cattle Camp in the west- ern part of Luptala County was attack- ed by the Indians on July 3rd. Chas. Cook and Andrew Lusk, employees of the Cattle Company, were badly wound- ed. Five Indians were killed and a number wounded. The whites had eleven horses killed and one hundred ste- len. Cowboys were driven off their camp, their outfits were burned and their provisions stolen. Two Wilsons and a boy ten years old rode 89 hours without food or rest, and arrived in Durango on Saturday night exhausted. The Utes for some time have been caus- ing trouble to cattle men, killing cattl- and stealing horses. One of the Wil- son men found several of their horse- men in the possession of Indians and un- der took to secure the same. An Indian attacked him with a knife and was killed. This precipitated the fight. 17,000 head of cattle are left at the mercy of the Indians. The Commandant at Ft. Lewis despatched a company of cavalry to drive the Indians back to their res- ervation. The Indians will probably reach the reservation well supplied with horses and cattle before the soldiers get within reach of them.

### Miraculous Escape.

The Globe of the 8th inst. says:—A little boy named Archie Thompson, a- bout eight years old, had a narrow es- cape from instant death yesterday. He was sitting in a buggy standing on the south side of King street near Yonge, to which was hitched a young and ner- vous horse. It happened that a young man was riding east on King street on a bicycle, and the horse, taking fright, turned around and started across the road, the bicycle crushing into the bug- gy. The horse started at a terrible pace eastward along King, throwing the boy under the wheels. One of the little fellow's legs became caught in a bent wheel and he was carried around with the wheel several times and then dash- ed against the shafts, where he hung on for dear life. The horse kept up a high rate of speed, and when in front of St. James's Cathedral the buggy col- lided with a lamp post, smashing one of the wheels and breaking the dash- board. Strange to say, however, the boy, although thrown violently to the ground, was unhurt, with the exception of a few scratches, and was running a- bout among the crowd of people who had rushed to the spot expecting to find him in the throes of death, as if nothing had happened. The horse belonged to Mr. Charles Windham.

### The Mischief of Treating.

The mischief of treating are univer- sally recognized. The custom does more, perhaps, than any other single in- fluence to lead young men into the hab- it of tipping. It does not have much effect upon soakers, who will take their drinks anyhow if they can get them, but the number of boys—students, ap- prentices, clerks—who are led away by it is past counting. It is evident that the evil cannot be cured by those who suffer from it most. The youth follow their elders, and it is vain to look to them to set examples. The reforms must come from the fathers and not from the sons. Jones and Brown senior must stop treating each other before they can blame the juniors for doing the same thing. Here is a temperance reform that all will approve. It involves no theory, no constitutional amendment, no voting, no platform, no pledges, no candidate; it simply needs a recognition of the fact on the whole the habit of social treating, as a separate question from the general habit of drinking, has nothing to recommend it and many things to condemn it. The custom is purely American, and has its origin

perhaps in a generous impulse; but it is well nigh unknown in Europe, and should everywhere pass out of existence. —Detroit Post.

### A Narrow Escape.

ROCKS ON A RAILROAD TRACK.

POOKEPSIE, July 7.—The Summit Steamboat express of the Ulster and Delaware road had a narrow escape from disaster after leaving Kingston last evening. On rounding a curve the engineer saw a mass of rocks partly covering the track. He applied the air brakes, pulled the reverse lever over and opened the throttle wide, stopping the train in less than its own length; but not before the rocks had stripped off all the steps from the left side of the train, and broken every cast iron journal box away from every truck, from the engine to the rear of the train. The trucks, how- ever, were not dislodged. There were several hundred business men on the train. A vote of thanks was given to the engineer.

### Storm in Illinois.

CHICAGO, July 6.—The dispatches from Central Illinois report a severe storm on Saturday. In Sangamon county several farm houses were badly dam- aged, and barns and outhouses carried away. The crops are ruined. Corn was beaten flat with the ground and whirled into ribbons, and wheat in the shock was blown away. In Macon county a dozen dwellings were wrecked. The wind lifted loaded cars off the track at Boodys station. The Madison Pres- byterian church and parsonage were se- verely destroyed. The loss in Macon county is estimated at \$200,000. Chris- tian county is said to have suffered very severely.
