Doubling the Arguments for Saving

ALL that can be said in the favor of opening a savings account in the Standard Bank may be repeated with greater emphasis as regards a joint savings account. Joint accounts are primarily for covenience of depositors, but where two people are bound together by common interests, the moral, as well as the practical value of working together, planning their financial betterment with the aid of a joint bank account is clearly evident. The Standard Bank solicits your joint savings account.

HAS BEEN SPRING WEATHER

Caterpillars Have Been Found

The past few days have been very mild being much like spring again. In fact there are signs that spring really has come. On Monday, Mr. Jack Stewart of the west back line was in the Advance office, and told us of finding a caterpillar which was crawling on a stone at the side of the road. He took it home and it is now living in a window of his house. In fact many believe that with the hard weather we have experiencd during the past couple of months that spring will come earlier than ever this year.

THE COW CAME BACK

The Mildmay Gazette says: A very amusing story is told concerning a Carrick farmer who started out to deal an aged cow that had given fair service during a long period of years and was now becoming hard to milk that it was almost necessary to use a gasoline tractor to extract any lacteal fluid from her. This farmer who for convenience sake, we shall call No. 1, set out the other day to do a little trading. Calling on a neighbor, Farmer No. 2, he managed to deal off the bovine on an aged horse, and returned home well satisfied. Farmr No. 2 also, a good hand at dealing, passed the old cow on to Farmer No. 3, who knew how to rejuvenate old cows, and make them look young again. He took the antiquated bovine, cut off her horns, and was soon ready to meet all comers who might be looking for a chance to improve their stock. It happened that Farmer No. 1 had two more old cows that he wanted to get rid of, and meeting No. 3 the other day he stumped him for a deal. Both being anxious to make an advantageous dicker, Farmer No. 1 traded his two cows for one from Farmer No. 3, getting a little "boot" on the deal. Returning home in triumph with his youthful looking cow, he lost no time in trying her milking qualities. He found it pretty tough going, in fact, just as tough as the old cow he used to own. Then he began to entertain suspicions, and a close investigation revealed the melancholy fact that he had traded back the old stager that he had fondly hoped to have seen the last of a couple of weeks previous.

Mrs. Rod. Stewart was taken to the Owen Sound hospital last week and an X-Ray examination was made of her hip and it was found to be broken. Last week we mentioned that she had fallen while in the woodshed at her home here, and it was thought that her hip was broken in the fall. Mrs. Stewart is improving nicely, but will be confined to the hospital for several weeks yet.

Dr. G. Almond, the noted eyesight specialist of Toronto, will be at the Park House, Flesherton on Thursday January 28th. and at Revere House Markdale on Wednesday, Jan. 27th.

AGNES DENIES SHE WILL ENTER CABINET

In commenting on a report published in Toronto on Saturday, that she might become minister of labor in a reconstructed Liberal cabinet, Miss Agnes Mcphail, Progresive M. P. for South Grey, displayed the economy of words for which she is noted. Her comment was the one word: "Bunk."

Miss Macphail did not take much stock in the rumors of a co-operation or coalition government. Her attitude was that of a member of a cabinet. She was still a watchful critic. With her, vigilance was the price of safety against political back sliding.
