

The liquor men say an attempt to enforce a prohibitory law will result in a greater consumption of strong drink. If they believe what they say, why do they oppose such a law so desperately. See the point?

#### Turning Down the Doctors.

The marvellous cures of Catarrh of the nose are being much talked about. Thousands are daily recognizing the exceptional merit of this simple inhaler treatment, and instead of running to the doctor with their winter ills they protect themselves by Catarrh of the nose; it kills colds in the head in ten minutes, quickly relieves Catarrh, Bronchitis, Asthma, Lung Troubles, and cures even though all other remedies have failed. Catarrh of the nose is very safe, pleasant and convenient to use. Its best recommendation is its enormous sale; try it to-day. Price \$1, small size 25c, at druggists. Sold by W. H. Robson.

**THE CHRISTMAS DELINEATOR.**—The Christmas (December) number of the Delineator is also the thirtieth anniversary number. To do justice to this number, which for beauty and utility touches the highest mark, it would be necessary to publish the entire list of contents. It is sufficient to state that in it the best modern writers and artists are generously represented. The book contains over 230 pages, with 34 full-page illustrations, of which 20 are in two or more colors. The magnitude of this December number, for which 728 tons of paper and six tons of ink have been used, may be understood from the fact that 91 presses, running 14 hours a day, have been required to print it; the binding alone of the edition of 215,000 copies representing over 20,000 sections, which had to be gathered individually by human hands.

**REV. IRL R. HICKS' 1903 ALMANAC.**—To say that this splendid work of science and art is better than ever is putting it mildly. The demand for it is far beyond all previous years. To say that such results, reaching through thirty years, are not based upon sound sense and usefulness, is an insult to the intelligence of millions. Prof. Hicks, through this great almanac, and his famous family and scientific journal, "Word and Works," is doing a work for the whole people not approached by any other man or publication. A fair test will prove this to any reasonable person. Added to the most luminous course in astrology for 1903, forecasts of storms and weather are given, as never before, for every day in the year, all charmingly illustrated with nearly 22 engravings. The price of a single almanac, including postage and mailing, is thirty cents. Word and Works, with the almanac, is \$1 a year. Write to Word and Works Publishing Co., 2201 Locust street, St. Louis, Mo., and prove to yourself their great value.

Why do I wear "C. R. Co." rubbers? Because they fit properly and wear better than any other rubber shoe in the market. you cannot afford to be without a pair if you value your health.
