

A Boon to Stock-raisers

To Know How to Cure Colic, Distemper, Colds, Swellings, etc., Saves Thousands Each Year.

Of Practical Interest to Horsemen.

It is a matter of vital importance to every farmer, horse-owner, and stock-raiser to know exactly what to do when one of his animals is taken suddenly sick.

The letter of Mr. Frank G. Fullerton, which we print below, gives information of inestimable value, and tells of his experience in curing ailing stock during the past thirty-eight years.

SAVED \$1,000 BY NERVILINE

"Several years ago when my horse took colic I used to give them Cayenne Pepper in hot milk, but in a few cases only did I help, and because I had no means at hand I lost several valuable animals. Some one told me of the success Mr. Wendling, of Brockville, Ont., had in his racing stables with 'Nerviline,' so I laid in a supply. It wasn't very long before Nerviline saved the life of a valuable stallion of mine, which was worth at least \$1,000.00. This horse was taken with colic, and would have died had it not been for Nerviline. I have used Nerviline for reducing swellings, for taking out distemper lumps, and easing a bad cough, and always found it worked well. I recommend every man who owns horses or cattle to keep Nerviline on hand."

In Between.

Not many companions of Richard Brinsley Sheridan cared to engage the dramatist in an encounter of wit. The royal dukes in the following story were more courageous, but not more successful, than most of the playwright's friends.

Two royal dukes, friends of Sheridan, were walking in St. James's Street, when they happened to meet the dramatist.

"I say, Sherry," said one of the dukes, "we have just been discussing whether you are a greater fool or rogue. What is your opinion, my boy?"

Sheridan smiled, took each by an arm, and instantly replied: "Why, faith, your royal highness, I believe I am between both."

LIQUID SULPHUR

is prescribed and used by leading nurses in Toronto as an anti-septic. LIQUID SULPHUR by virtue of being simply pure SULPHUR liquified is one of Nature's own remedies for skin troubles. It is simple, costs very little, but is most effective in its results. ECZEMA disappears when LIQUID SULPHUR is given a fair trial.

For sale all druggists. Price 50 Cents per bottle.

Cause of the Trouble.

The church choir had resigned, and the parson asked what was the cause of the trouble. "Well," replied one of the officers, "you have yourself to blame. You know you said: 'Providence having seen fit to afflict all our choir with bad colds, let us join in singing 'Praise God from whom all blessings flow.'"

WOMEN NEED GIN PILLS

For Weak Backs and Headaches.

Miss Ethel Balcombe, of Port Dufferin, N.S., writes: "I was troubled with Kidney Disease for several years. My back was weak. I had terrible headaches and was so restless that I could not sleep at night. At last a friend told me about GIN PILLS. I at once got a box and after taking them, I felt better—after taking three boxes, I was cured."

50c. a box, 6 for \$2.50. Sample free if you write National Drug and Chemical Co. of Canada, Limited, Toronto.

SIR HUGH'S EARLY DAYS.

The present distinction of Sir Hugh Graham as a newspaper proprietor, with a fortune said to be several millions to his personal credit, stands in strange contrast to the circumstances of his early years. Those who have followed his business career from the beginning describe the heart-rending months when the first edition of the

Regularity

of the bowels is an absolute necessity for good health. Unless the waste matter from the food which collects there is got rid of at least once a day, it decays and poisons the whole body, causing biliousness, indigestion and sick headaches. Salts and other harsh mineral purgatives irritate the delicate lining of the bowels. Dr. Morse's Indian Root Pills—entirely vegetable—regulate the bowels effectively without weakening, sickening or griping. Use

Dr. Morse's Indian Root Pills

Montreal Star were run off in a cellar. The press was none too satisfactory in its performances, and breakdowns were frequent. So pinched were Mr. Graham's finances in those days that he was unable to afford a steam boiler of his own, and arranged with his next door neighbor to run a pipe through the wall and supply him enough to keep an old steam engine moving at

Sir Hugh Graham.

press time. The small payment for the steam often fell behind, and, it is said, Mr. Graham day after day would watch the coppers coming in from the newsboys until they grew into an amount sufficient to pay for the steam when he carefully wrapped them in his handkerchief and bore them off to the hungry neighbor.

KEEP BABY HEALTHY.

To keep the baby healthy his little stomach should be kept sweet and his bowels working regularly. Nine-tenths of the maladies which afflict little ones are caused by some derangement of the stomach or bowels. Baby's Own Tablets are the ideal medicine for little ones. They sweeten the stomach; regulate the bowels; break up colds; make teething easy; dispel worms and cure constipation and indigestion. Concerning them Mrs. S. Shannon, Urney, N.B., says: "I have used Baby's Own Tablets for my two little ones and think they are just what children need. I would not be without them." Sold by all medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

To Date.

Peter, Peter, punkin eater, Bought and used a carpet beater. Now the doctor's down the street, Beating microbes out of Pete.

A druggist can obtain an imitation of MINARD'S LINIMENT from a Toronto house at a very low price, and have it labeled his own product. This greasy imitation is the poorest one we have yet seen of the many that every Tom, Dick and Harry has tried to introduce. Ask for MINARD'S and you will get it.

Not Doing His Share.

The big sister decided the children could not sit up until mother came home. Tommy did not care; Willie cried lustily. When the sister retired he cried still more loudly. She waited for a few moments at the foot of the stairs to hear if he became quiet. At last he stopped, and this was what the sister heard: "Tommy, you cry a bit now; I'm tired!"

The glory of life is to love, not to be loved; to give, not to get; to serve, not to be served.

Minard's Liniment Cures Diphtheria.

Why He Failed.

Weary Willie—Lady, I wuz wunst a prosperous merchant, I had a luxurious home, an honorable name, an' ten bloomin' an' highly educated daughters.

Mrs. Weirman—What brought you to poverty?

Weary Willie—My daughters insisted on marrying highly educated men and I had ter support ten families.

Medical Advice.

"Doctor, how can I prevent my husband from talking in his sleep?" "Well, you might try giving him few opportunities in the daytime."

Just So.

Dentist—The teeth in this case were all taken from prominent literary men.

Visitor—Extracts from popular authors, so to speak.

ECZEMA ON FACE, SCALP AND HANDS

Came Off in Scales. Itched Badly. Had to Tie Hands. Little Watery Pimples. Cuticura Soap and Ointment Completely Cured.

1307 Davenport Road, Toronto, Ont.—"My eczema first started when I was a baby, on my face and scalp. It seemed dry and when I scratched it, it came off in scales. It itched very badly and I was obliged to have my hands tied up so as to prevent scratching my face. Little white watery pimples came on my hands and face and I had to stay home from school for nearly two weeks. It caused my face and hands to look badly. The eczema took a very bad form, appearing on my face in little watery ulcers so bad that I could hardly bear to be touched. My hair being naturally very thick I found to be getting thinner and wondered what could cause it to fall out."

"My mother tried — and — and spent no end of money trying to get me better but it did no good. At last a friend recommended Cuticura Soap and Ointment and my mother used them. We applied the Cuticura Ointment to my face, head and hands and washed with the Cuticura Soap and the eczema began to disappear. Before six months had passed I was completely cured." (Signed) Miss Constance Jane, May 29, 1913.

Cuticura Soap and Ointment do so much for pimples, blackheads, red, rough skins, itching, scaly scalp, dandruff, dry, thin and falling hair, chapped hands and shapeless nails, that it is almost criminal not to use them. A single set is often sufficient. Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere. For a liberal free sample of each, with 82-p. book, send post-card to Potter Drug & Chem. Corp., Dept. D, Boston, U.S.A.

STARTLING WAR NEWS.

Regulations for Correspondents Were Severe.

During the earlier stages of the Balkan war, when the correspondents, forbidden by the Bulgarian government to proceed to the front, were detained in Sofia, time passed in ennui and despondency. Hotel life disgusted men who were ready for the hardships of a campaign. Away at the front, says Philip Gibbs in "The Balkan War," men were killing each other in heaps. The Red Cross was very busy. But to Sofia the news came only on the wings of rumor, and very tardily.

I began to doubt whether it was worth while to go to the theatre of war. For to a journalist it is only an additional exasperation to see things which he cannot describe, and by official orders we were forbidden to describe anything. I read the regulations for war correspondents, and their severity was appalling. We were forbidden to describe the disposition of troops, to give the names of generals, the names and numbers of the wounded; the success or failure of Bulgarian troops, the state of the soldiers' health, the condition of the climate. I put a polite question to the censor:

"Will you tell me, sir, if there is anything about which we shall be allowed to write?"

He thought deeply for a moment, and then answered, with great gravity:

"There is much interest in Bulgarian literature."

"Perhaps I may also be permitted to describe the song of the birds?" I inquired.

"By all means," said the censor.

DEATH REPORTED.

An old offender that hung on for years. Nothing touched his stony heart but Putnam's Corn Extractor and out he came, root, stem and branch. All corns cured just as quickly when Putnam's is used; try it, 25c. at all dealers.

It was in the cyclone season and a bad storm having come up in the night Mrs. Hall roused her family and they hurried into their clothes, preparatory to retiring to the cellar. The thirteen-year-old daughter, who was just beginning to be particular as to what she wore, hastened—before dressing—into her youngest aunt's room, and, although half-crying, inquired anxiously, "Aunt Nellie, would you wear your hobble skirt if you were me?"

GIRLS' FARMING COLONY.

Will Come From England, Ireland and Scotland.

Henry Howes, of Bushby Park, Bristol, England, who is organizing the Women's Co-operative Farming Society, Ltd., of Canada, under the Industrial and Provident Societies Act of England, says in a letter to George M. Hall, Industrial Commissioner for the municipality of Edmonton, Alberta, that he will establish a co-operative farming colony within fifty miles of that city.

Girls and women from England, Ireland and Scotland will be located on the land and care for milch cows, poultry and pet stock and produce gardens.

The plan was suggested to Mr. Howes on a recent tour of Western Canada, when he visited a farm of eighty acres, managed by a half dozen young women from England and Scotland. One of the members, a college trained girl, had charge of the greenhouse.

Another did the housework and one looked after the poultry and outside work. A Scotch girl opened a district store in the city and an English typist did all the clerical work. The sixth member of the colony attended to the cows, bees and rabbits.

The scheme worked out satisfactorily until Dan Cupid made his appearance with his bow and quiver of arrows, carrying off four of the women, who became wives of farmers. The weddings took place within two weeks. The remaining two stayed a month, doing all the work, when they too fell victims. The farm was sold and the profits divided equally among the six women.

Many Reasons Why Liquid Cough Mixtures Can't Cure Bronchitis

But the Healing Fumes of Catarrhoxone, Which are Breathed to the Furthest Recesses of the Bronchial Tubes, Bring Quick Relief and Sure Cure.

Every sufferer from coughs, colds, bronchitis and all throat and chest ailments needs a soothing, healing medicine which goes direct to the breathing organs in the chest and lungs attacks the trouble at the source, disperses the germs of disease, and cures the ailment thoroughly. And this medicine is "Catarrhoxone."

The germ-killing balsamic vapor mixes with the breath, descends through the throat, down the bronchial tubes, and finally reaches the deepest air cells in the lungs. All parts are soothed with rich, pure, medicinal essences whereas with a syrup the affected parts could not be reached, and harm would result through burning the stomach with drugs.

"I have been a chronic sufferer from catarrh in the nose and throat for over eight years. I think I have spent four hundred dollars trying to get relief. I have spent but six dollars on Catarrhoxone, and have been completely cured, and, in fact, have been well for some time. Catarrhoxone is the only medicine I have been able to find that would not only give temporary relief but will always cure permanently. Yours sincerely, (Signed) WILLIAM RAGAN, Brockville, Ont.

For absolute, permanent cure, use Catarrhoxone. Two months' outfit costs \$1.00; smaller size, 50c., at all storekeepers and druggists, or The Catarrhoxone Company, Buffalo, N.Y., and Kingston, Canada.

Quick Work.

"You seem to have a badly discolored eye." "Yes. A man rested his fist there for only a fraction of a second, yet look at the damage he did!"

Angry Diner—"Hello, you waiter! Where is that ox-tail soup?" Waiter—"Coming, sir—half a minute." Angry Diner—"Confound you! How slow you are!" Waiter—"Not my fault, sir. Ox-tail always behind."

Minard's Liniment Cures Garget in Cows.

Third Place.

It was a cold day in December, and the superintendent of a charitable institution was examining a number of poor children as to their claims for more comfortable clothing. Margaret was under examination. She was pinned up quite securely in a thin shawl.

"Have you any clothes at home?" she was asked kindly.

"No'm."

"What have you got on?"

"Please, this is me aunt's shawl, an' me dress is next, an' then comes I."
