## The Young Folks.

### MY BROTHER JACK.

A ragged hat and mended jacket,
A shout, a whistle, and noisy racket,
A rough brown hand, and a heart most tender,
And whatever he is, I'm a brave defender.

Oh, Jack, my jewel, my own, my brother,
That never, never was such another,
For boys are many and brothers are plenty,
But I would not give up my Jack for twenty.

He does not coax me, he does not pet me,
And I never kiss him for he won't let me,
But if I'm afraid, ah! his strong arm holds me
Close to his side, and he never scolds me.

What care I for the bramble hedges,
The muddy roads and the tangled sedges,
Or rain or snow? If we're but together,
Always for me it is sunny weather

Oh, Jack, my comrade, my boy, my treasure,
My partner in each grief and pleasure,
There is none on earth I would place above him,
But he does not dream of how much I love him.

### ITEMS ABOUT ROYALTY.

Corsets have not been worn by Queen Victoria in over twenty years.

The King of Portugal has the most costly crown in the world. The gold and jewels of which it is composed are valued at $6,500,000.

The iron cage as a prison was invented in France by the Bishop of Verdun in the time of Louis XI., and the bishop himself was the first prisoner to be placed in it.

The Sultan of Turkey nearly always dines alone. Tables, plates, knives and forks are eschewed. He uses only a spoon and his fingers, thus fishing out the food from little saucepans placed on the floor.

The Sultan of Turkey is a monomaniac on the subject of carriages. He has been steadily engaged in making a collection of such vehicles for the past twenty years and now has nearly 500 of all makes and kinds.

The Czarina of Russia has joined the noble army of typewriters. She has mastered the technique of the machine, and many of the Czar's memoranda on State affairs are her work, merely signed with initial, A.

During the thirteenth century the Chinese emperors made money from the inner bark of the mulberry tree, cutting it into round pieces and stamping it. To counterfeit or refuse to accept it as a legal tender was punishable by death.

The navigation of the Dead Sea is the latest step in oriental progress. The sultan has sent two sailing boats there, one for freight and the other for passengers. Abdul Hamid is going to try and make money out of the salt bitumen and sulphur of the lake.

Princess Maud, of Wales, who is more like her father than any other of the Prince of Wales' children, inherits the parental love of humor. She is an inveterate punster as well, and she and her father make a merry pair when they are in a joking mood.

### BANANA COOKERY

The banana seems a tame and tasteless fruit to many palates, but it can be treated in such a way as to become a rare delicacy. Banana fritters, for instance, are not to be despised, and banana shortcake is a dish before which the glories of ambrosia pale.

To make this delicious shortcake, mix a pint of flour, a large teaspoon of baking powder, and a third of a cup of shortening. Moisten with milk. While this is baking slice bananas in proportion of three to one orange, grate a little lemon peel and mix with a cup of sugar. When the cake is baked, split it and fill with the fruit. Heap enough cream stuff to pile over the top of the cake.

Fried bananas also have a flavor which the raw fruit entirely lacks. They should be pared and split in two. A pan of melted butter should be on the stove, and into this the bananas are plunged. When they are brown on both sides they should be spread for a few minutes on absorbent paper to rid them of the grease, sprinkled with powdered sugar and served.

Banana cake is made by placing sliced bananas between layers of cake prepared by the ordinary rule for jelly cake.

Banana fritters are made by dropping little slices of banana half an inch thick, into ordinary fritter batter, frying in boiling lard, draining and serving hot with powdered sugar.

### HUMAN LABOR AT GREAT ALTITUDES.

Investigation among the workmen on the Peruvian Central railroad has brought some curious facts to light concerning the capabilities of men to labor in rarified atmosphere. The line starts at Lima, in latitude 12 degrees, and the highest point reached by the road is at the tunnel of Galera, which is 15,645 feet above sea level. From deductions made by the investigators, it appears that the men were able to perform a fair "sea level" day's work at any place along the route where the altitude was not greater than 8,000 or 10,000 feet, providing they had gradually worked up to that height from lower levels. At altitudes above 10,000 feet and under 12,000 the amount of work performed by each man showed a falling off from one fourth to one third, and at from 13,000 to 15,000 feet 100 men could do no more work that 50 would at sea level. St. Louis *Republic*.

Biliousness and Liver Complaint, Headache, etc., are cured by Burdock Pills.

The size of a horse's stomach is small in proportion to that of his frame.

There are so many cough medicines in the market, that it is sometimes difficult to tell which to buy, but if we had a cough, a cold, or any affliction of the throat or lungs we would try Bickle's Anti Consumptive Syrup. Those who have used it think it is far ahead of all other preparations recommended for such complaints. The folk like it as it is as pleasant as syrup.

and Manly Vigor, Nervous Debility, Paralysis, or Palsy, Organic Weakness and wasting Drains upon the system, resulting in dullness of mental Faculties, Impaired Memory, Low Spirits, Morose or Irritable Temper, fear of impending calamity, and a thousand and one derangements of both body and mind result from pernicious secret practices, often indulged in by the young, through ignorance of their ruinous consequences. To reach, reclaim and restore such unfortunates to health and happiness, is the aim of an association of medical gentlemen who have prepared a book, written in plain but chaste language, treating of the nature, symptoms and curability, by home treatment, of such diseases. The World's Dispensary Medical Association, Proprietors of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., will, on receipt of this notice, with 10 cents (in stamps for postage) mail, sealed in plain envelope, a copy of this useful book. It should be read by every young man, parent and guardian in the land.

### AGAINST DAT PAPER.

At a conference of colored preachers in Indiana a report was brought up which criticised, in a general way, the pastors who had not taken proper interest in Sunday schools. Instantly a brother was on his feet.

"Bishop," he cried, "I'se 'gainst dat paper; it feels on dis whole conference."

The bishop replied that the brother was because, he said, that the report would hurt no preacher who was doing his duty. Instantly, however, a second objector was on his feet.

"I'se 'posed to that 'port, too, bishop."

"State your objections," said the chair.

"Bishop," answered the objector, "de man dat don't hab fleas on don't want to be put in de bog and stuk up wid de man what had the fleas on him."

This settled the question, and dat paper went back to the committee to be modified to suit the occasion.

They are sold at all drug stores at 25 cents a box or 5 boxes for a dollar.
