THANKSGIVING DAY.

This day is the one set apart by the authorities of our country to be observed as a day of general thanksgiving to Almighty God for the harvest and other blessings with which Canada has been favored this year. Let us all assume a truly thankful spirit

Thanksgiving has been called the Christmas of the American continent, but it is really of quite different origin and purpose. It is not a religious festival connected with any incident in the history of the church, although there are appropriate religious observances, but it is a day of Thanksgiving for a successful year, for bountiful crops and general prosperity. It comes when all the harvests have been garnered, when the farmer can return thanks that he has done so well, and that there is enough for him and his family and all those dependent on him through the winter

In our well loved Canada we have ample reason for thanksgiving. Out of our abundance let us remember in a practical manner, those less fortunate.

"Let every heart rejoice, from east to western ocean
Throughout the fair domain of our beloved land,
From lofty altars raise with reverent devotion,
Your voice to God who scattereth the bounties of His hand"

NOTES AND COMMENTS

The Canadian Copyright Association and publishers have forwarded to the Minister of Justice a series of suggestions as to the modifications of the copyright act of 1889, which would be acceptable to them, and which would constitute satisfactory concessions to the British authors and publishers.

The *World's* Ottawa correspondent says "The general impression here is that the desire manifested in many quarters for the entrance into Dominion politics of Chief Justice Meredith is likely to be met by his acceptance of a seat in the Government at no distant date. Current report has it that the Hon Mr Daly will be appointed to Judgeship in Manitoba, his portfolio going to Sir C. H Tupper, while the portfolio of Justice will be assumed by Mr. Meredith

The Grand Trunk Railway Company has adopted the block system, by which no freight or passenger train will be allowed to leave a telegraph station after a passenger train until the passenger train is reported at the next telegraph station. No freight train will be allowed to leave a telegraph station until it has ample time to reach the next telegraph station before a passenger train is due to leave the first station. This change will reduce the possibility of collision to a minimum

Six of the leading powers of Europe are insisting on a settlement of the Armenian question and their warships are assembling in the vicinity of the Turkish capital. If a naval demonstration eventuates it is hardly likely that powder and shot will be used for destructive purposes, but merely to show his Sultanic Majesty that a painful fate awaits him if he does not at once adopt the proposed scheme of reform. Procrastination and evasion can no longer be tolerated

Lord Aberdeen is an important property owner in the far west He has spent a large sum of money on his Coldstream estate, and now expects a profitable return on his investment. His interest in Canada are therefore likely to be permanent. Should he not accept some other important office in the Imperial service, he might, on the expiration of his term as her Majesty's representative in the Dominion, render the country valuable services in some other capacity. That he might become a member of the Dominion Cabinet, or even Premier, is not beyond the bounds of possibility *Mail and Empire*

Some revelation of the British Government's policy is found in a statement made by Sir Robert Peel in a speech delivered by him at Tamworth. He declared that he had learned from exclusive and authorized sources that the Government intended to consolidate and take over all mortgages on land by loaning money to landlords at 3 per cent thus enabling them to save 2 per cent as most landlords have been obliged to raise loans at 5 per cent. The scheme, according to Sir Robert, has the support of several of the Ministers. The Westminster *Gazette* describes the measure as a landlord's Cabinet bill. Such a bill would certainly be the salvation of many land owners whose properties are heavily mortgaged, but it would require the Government's full majority of 150 to put it through the House of Commons.

An Order in Council has been passed granting a subsidy of $25,000 to the Beaver Line Steamship Co. for a fortnightly service during the coming winter between St. John and Liverpool. The contract stipulates that preference is to be given to all freight coming from the western provinces, and that the United States. Another condition is that the steamships shall be able to carry each trip on an average 400 head of cattle, or the equivalent thereof of horses and sheep. As the design of the Government is to make the service this winter a test of the possibilities of the route, and is therefore of an experimental character, it was not thought well to enter into a contract for a longer term of years. The first steamer of the new service, the *Lake Superior*, will leave Liverpool for St. John on Saturday of this week, and St. John for Liverpool on Dec. 11.

ONTARIO'S CROPS.

Heavy Falling Off in Hay Extraordinary Corn and Potato Crops Grains All Well Up to the Average.

TORONTO, Ont., Nov. 18. A crop bulletin, issued by the Ontario Agricultural Department, reports a falling off in the hay crop of 1895 to the extent of 1,700,000 tons below 1891, representing a loss greater than the entire wheat crop of the province. There has been a shortage of straw also. The corn crop, however, has been extraordinarily large and in many cases will help to make up for the loss of coarser fodder. The grain crops have turned out better than was at one time anticipated, all being well up to the average. Fall wheat has turned out fair; spring wheat, about the average, corn, away above the average, barley, fair in quantity, oats, an extraordinary crop; peas, fair, potatoes, an exceptionally large crop; roots, fair, clover seed, almost a failure; buckwheat, under the average beans, very good

COAL IN NEWFOUNDLAND

Important Discoveries of Coal Deposits in the Ancient Colony.

ST. JOHN'S, NFLD., Nov 18 Statistics of surprising importance are presented in connection with the newly discovered coal deposits. They cover a total area of twelve by six miles and consist of three distinct troughs, one of which is ten miles long and a mile wide. The deposits are within forty miles of the water and are quite adjacent to shipping, passing through the St Lawrence river. It is expected that the deposits will greatly improve the colony's future It is estimated that the quantity of coal in the trough is nearly twelve million tons, and the others are supposed to be equally rich The find will do much to extricate the colony from its present embarrassments if it can be worked advantageously

On Sunday morning at St James Cathedral, Toronto, Canon DeMoulin preached a powerful sermon in denunciation of race track gambling, which is obtaining a footing in Canada. Ruin and devastation were pictured as the certain consequences of the introduction of this vice, and a stirring appeal was made to all to fight it to the end.

LITERATURE IN CANADA

The Advancement of Art and Literature produced by our Own People.

There are cynics who say that there is no public opinion in Canada, no literature. At a dinner given recently by the publishers of Toronto to Mr. Hall Caine, the great novelist, this question was discussed, and a leading publisher remarked that literature would never make rapid advance in this country. He asserted it is difficult for Canadians to read the works of a Canadian author. This statement, however, is not true with regard to *Toronto Saturday Night*, which has as large a circulation as any newspaper of its class in America. Its Christmas Number, which will be issued Dec. 14, is the eighth in a series of art numbers. It will be accompanied this year by five supplements, a coloured supplement, the largest, a reproduction of a painting by a Canadian artist, done specially for *Saturday Night*, 21 x 14 inches in size. Its titles are "A Champ on the Exploree," and depicts him and a flotilla of war canoes entering the mouth of a river on Lake Huron The picture has been praised by the Historical Association as the most interesting and artistic attempt ever made to carry us back to the old days when Canada was little more than a geographical term. The other four pictures are done in sixteen colors, and the book itself, consisting of over forty pages, contains the best prize stories in the *Saturday Night* competition. Following is a list of contents:

First prize. "A Recognition at Lost Lake" by William Blue and H Cameron Illustrations by J. P. Lynes

Second prize. "Bob Short's Baby" by W A Fraser Illustrations from photographs

3rd prize. "A Matter of Sentiment" by John M. Gray Illustrations by F. M. Scott, Charles Ruggles, Walter Nelson to J. Jones Illustrations by the Author

"Jim Lancy's Pay" by F. J. Sheppard Illustrated

"Down the Soldier" by Warren H Warner Illustrations by A. R. Ritchie

"Santos" Story by Mrs Alberti Illustrated

"Handicapped" Story by Jessie Alberta Clark Illustration by Carl Ahrens Alice A. and Beatrice Sullivan

"Sir Lome" Story by D. [illegible]

"Hawkins' Hero" Sketch by Alexander McLachlan

"The Lance of the Wind" Drawing poem by William Cooper Illustrated by J. W. Bengough

"Life of Champlain" by George Stewart, M.A., D.C.L.

"Sea Lane's Child" poem by Evelyn Durand

"A Song" poem by Gertrude Hallett

The price of the number, postpaid to any address, in a protected tube to protect it from damage in the mails, is 50 cents, and in point of literary excellence and the quantity and quality of the supplements it far excels anything offered by foreign holiday publications. Mr James L Hughes, Inspector of Schools for Toronto, has said that the Christmas Number should be framed and hung in every schoolroom in Canada, and school teachers everywhere should take an interest in bringing it before the public. Teachers and young people can do a good work by sending for a Christmas Number of *Saturday Night*, and a better work by acting as agent for it and inducing their neighbors to send for it as well. A liberal commission is allowed. Address the Sheppard Publishing Company, Limited, Adelaide Street west, Toronto. The price of the regular edition of *Saturday Night*, which undoubtedly stands alone as Canada's most interesting and thoroughly high-class illustrated weekly, is $2 per year.

FRIENDLY ADVICE.

IS THE MEANS OF RENEWED HEALTH TO A SUFFERER.

Dr. Williams' Pink Pills Succeed Where Doctors Had Failed for Thirty Years—The Sufferer One of Northumberland Co's Best Known Men.

From the Trenton Advocate

Mr. John Frost's case is a most remarkable one. He is one of the best known residents in the county of Northumberland, being a retired farmer of great ample means, and having financial dealings with hundreds throughout the township. We have known him intimately for over ten years. From him we gleaned the following facts in February last: "I was born in England and at twelve years of age arrived in Canada, with my parents, who settled in Prince Edward County and remained there for three years. We then moved to Rawdon township in the neighboring county of Hastings. For thirty years I was a resident of Rawdon, three years I resided in Seymour township and I am at present, and have been for the past ten years a resident of Murray township For thirty years I have been a martyr to rheumatism. During that time I have been treated by scores of doctors and found partial relief from but one. I have during the same period tried innumerable

Getting into my rig was agonizing.

remedies, but all failed to cure me Scarcely a month passes that I am not laid up, and frequently I am confined to bed six or eight weeks, unable to move hand or foot and suffering untold agonies. Two well known doctors told me one time that I would have to have an arm taken off to save my life. I tell you I have been a great sufferer in my time and I would give anything to find relief. My business causes me a great deal of driving and getting in and out of my rig is agony.

Knowing his story to be true and anxious that Dr. Williams' Pink Pills should have a severe test, we prevailed on Mr. Frost, much against his will, to give them a trial. He got six boxes and commenced to use them. At the start he smiled at our confidence in the pills. We saw him after he had used the first box and he admitted some relief and said he believed there was something in the remedy. He continued their use and by the time he had finished the six boxes he was as sound and proud a man as could be found in five counties A couple of months have passed since the cure was effected and we deferred giving a history of the case in order that we could see for a certainty that the cure was permanent We see him several times a week actively attending to his business and at all times loud in his praise of Pink Pills All who know Mr Frost know that his word is as good as his bond Yesterday we said to him, "Now Mr Frost, do you really feel that you are cured of rheumatism? Do you feel any twinges of the old trouble at all?" He replied, "I am cured The Pink Pills have thoroughly routed the disease out of my system and I feel a new man The use of the pills has given me new life and I am telling everyone I meet about the cure Such is the case, and having known Mr Frost for years the sufferer he was and seeing him now active and almost youthful again, the rapid change from suffering to health seems almost a miracle However we are not at all surprised, for on all sides we hear of cures effected by the use of Pink Pills. The druggists remark their rapid sale and the satisfaction they give their customers

A VETERAN 105 YEARS OLD.

OTTAWA, Nov. 18 The Minister of Militia has had presented to him a claim on behalf of John Hall, of Owen Sound, for a pension as one of the veterans of 1812. Hall is 105 years of age, and his story is authenticated by some of the most reliable citizens in Owen Sound He was taken prisoner in one of the engagements in the war of 1812, and was practically in slavery for a period of 13 years, having been carried away to the Southern States by the commanding officer of the regiment which captured him When Hall returned to Canada in 1825 he did not know that pensions had been granted to those who had served in the war and it is only quite recently that he and his friends became aware of the fact His story is a most romantic one and would form a fit theme for a novelist Mr Dickey will have the matter thoroughly investigated with a view to recommending him to the Imperial authorities for a pension

THE HOLMES MURDER CASE

PHILADELPHIA, Nov 20 Decision was reserved in the application made before the court at Philadelphia for a new trial for H H Holmes, the murderer of the Pietzel family In making the application Lawyer Shoemaker presented an affidavit which the District Attorney immediately proved to be fraudulent, and Mr Shoemaker was placed under arrest. It is not likely that a new trial will be granted

THE FARMERS' PAPER.

Since its first issue the Toronto Weekly *Globe* has been noted for its deep and enduring interest in the welfare of the Canadian farmer. What pertains to the advancement of that portion of the community has been kept steadily in the forefront, and the agricultural press of the country have not been slow to recognize its manly independence and forceful utterances on their behalf in the great struggles of the past. To-day it is as truly the farmers' friend as at any time in its career, and as a newspaper it is better than ever. Every page is brimful of good reading. The special departments for the practical farmer and the home circle are always delightfully entertaining and instructive. In enterprise as a news gatherer it has no successful rival

Hood's Cured After Others Failed

Scrofula in the Neck—Bunches All Gone Now.

Sangerville, Maine.

C. I. Hood & Co., Lowell, Mass.:

"Gentlemen—I feel that I cannot say enough in favor of Hood's Sarsaparilla. For five years I have been troubled with scrofula in my neck and throat. Several kinds of medicines which I took did not do me any good, and when I commenced to take Hood's Sarsaparilla there were large bunches on my neck so sore that I could not bear the slightest touch. When I had taken one bottle of this medicine, the soreness had gone, and before I had finished the second the lumps had entirely disappeared." BLANCHE ATWOOD, Sangerville, Maine.
