so long can the simplicity and prejudice of the ignorant be made available to the mischievous and designing. It was not my intention to become the champion of any system of medicine. I believe in throwing the profession open and letting each and every system rest upon its own merits. The public have as good a right to choose in regard to physic as in matters of religion. The clever and the learned have nothing to fear from such a course. It is only the *legal quack*, who is entrenched behind the law, that suffers, as it is by that means the despicable wretch is enabled to live upon the public. I saw what I believed an unfair attack, and while I noticed it, I pointed out what others considered objections to the Doctor's infallible system, and the objection rests upon what is called the scientificadministration of calomel. The authors I have quoted do not say but that drug may be given sometimes with advantage, possibly Homœopathically or Eclectically: it is only when it is given *Allopathically* that Dr. Chapman condemns it in the manner he does. That theory is believed to be unscientific; it now remains for Calomel to shew us that it is, and that his mode of administering calomel is in accordance with the system. If he should differ from the standard medical authority I shall take some notice of it, as he will not pretend to be wise above what is written.

TORONTO MARKETS.

JANUARY 4th, 1870.

The market can scarcely be said to have recovered from the lethargy of the last few days. There was only one or two loads of spring wheat on the market, which were bought at 82c. Barley may still be quoted at from 55c to 57c, but there was none offering. No oats on the market, and not much wanted except for local purposes, for which 36c might be paid. A few loads of Pease were sold at 54c and 56c. Flour not so firm as yesterday. $3.80 asked for No. 1 super, without buyers. A sale of 300 bbls. bright No. 1 was effected at the above figure. A small choice lot of dressed hogs on street market, averaging over 200 lbs., sold for $8 70. Hay was in fair supply and sold at from $9 to $11. Straw rather scarce selling from $6 to $7. A few barrels of choice apples brought as high as $2 50. Common from $1 50 to $1 75.

BY-LAW No. 155.

A BY-LAW to aid and assist the TORONTO AND NIPISSING RAILWAY COMPANY, by giving sixty thousand dollars to the Company by way of bonus, and to issue debentures therefor, and to authorize the levying of a special rate for the payment of the debentures and interest.

WHEREAS, by the Act of the first session of the Legislature of the Province of Ontario, passed in the thirty-first year of Her Majesty's reign, incorporating the Toronto and Nipissing Railway Company, it is provided as follows: "And it shall further be lawful for any Municipality or Municipalities through any part of which, or near which, the Railway or works of the said Company shall pass, or be situated, to aid and assist the said Company by loaning or guaranteeing, or giving, money by way of bonus or other means to the Company, or issuing Municipal Bonds to or in aid of the Company, and otherwise, in such manner, and to such extent, as such Municipalities, or any of them, shall think expedient; provided always, that no such aid, loan, bonus or guarantee shall be given except after the passing of by-law for the purpose, and the adoption of such by-laws by the ratepayers, as provided in the Railway Act."

AND WHEREAS, by the seventy-seventh section of the Railway Act, chapter sixty-six of the Consolidated Statutes of the late Province of Canada, it is provided that no Municipal Corporation shall subscribe for stock, or incur any debt or liability, under the said Railway Act, or the Special Act, unless and until a By-law to that effect has been duly made and adopted, with the consent first had of a majority of the qualified electors of the Municipality in the manner determined by the By-law, after public advertisement thereof containing a copy of the proposed By-law, inserted at least four times in each newspaper printed within the limit of the Municipality, or if none be printed therein, then in some one or more newspapers printed in the nearest city or town thereto, and circulated therein, and also put up in at least four of the most public places in each Municipality.

That the said debentures shal l bear interest a and after the rate of six per cent. per annum from the date thereof, which interest shall be payable half-yearly on the First day of September and March in each year, at the Ontario Bank in Lindsay
