The Service a Bank Renders

BANKING FIFTY YEARS

FROM the very moment production of a commodity is planned until, through the channels of commerce, it finds its way to the consumer it must be financed. In providing funds to finance production and distribution, banking renders one of its major services to the Community.

Mrs. H. V. Gaudin Passes

Word was received in town last Thursday that Mrs. H. V. Gaudin of Toronto, had passed away that morning. Mrs. Gaudin had suffered an operation three years ago, from which she had not fully recovered, though she was able to attend to light household duties and to attend church occasionally.

Mrs. Gaudin was the second daughter of Mr. and Mrs. John Breen, and was born in this township. She married her now sorrowing husband in January 1888, and went to New Hampshire, where he was manager of a large farm. In 1919 they moved to Toronto.

The funeral was held on Saturday to St. John's Cemetery, Norway.

The friends from a distance were her sisters, Mrs. John Wright, another sister Mrs. O. England and her son of Orillia; and her brother Mr. Wes. Breen and wife of Detroit.

Mrs. Gaudin was a life long member of the Methodist church, and taught a class in Sabbath school and was a member of the W.M.S.

The floral tributes were numerous and beautiful from friends both far and near.

Three daughters and three sons survive, namely Mrs: Will McCausland of Heathcote, Misses Lenora and Adelaide, and Errol, John and Esdale, all in Toronto.

Good Crowd at Chevrolet Chassis Demonstration

It is a rare occasion when the average motorist has an opportunity of having the functions of the many parts of an automobile chassis demonstrated by an expert, using a cut open motor and stripped chassis, yet such was the opportunity of about one hundred and fifty people who listened to the demonstration given in D McTavish & Son's show rooms on Monday night.

The lecturer, Mr. W. Myhres, who who came direct from the Chevrolet factory at Oshawa, was a delightful speaker and his talk ws very interesting nd convincing. He demonstrated the why and how of all the major motor car parts and explained in detail why the three-point motor suspension reduces the vibration, noise and why Chevrolet will flash from 5 o 25 miles in less than eight seconds. He also had several of the Chevrolet part on display and their solid construction and low price were a feature.

It was interesting to notice the large numbers who remained long after the lecture was over to look at the parts on exhibit and ask the expert's advice on many points in connection with the motor car.

Grain 57 Years Old

A few ounces of wheat 57 years of age was shown to The Advance the other day by Mr. W. J. Bellamy of town, who has it in his possession for a great number of years. It is of the usual size and fairly plump but the seed vitality has dropped out leaving a hole in the end of each each grain. This is about the only time we have ever heard of grain being preserved in this way.

Ansley, surviving executor of the estate of Wililam Kingston Flesher, deceased in and out of the unsold portions of lots 148 149, 150, range 1 S. T. and S. R. belonging to the Flesher estate in the village of Flesherton, in the county of Grey.—J. S. Wilson, Sheriff of Grey, Sheriff's office, Owen Sound, May 18th, 1926.

Barn Burned in Town

The barn belonging to Mr. Robert Waller in town was burned to the ground on Thursday evening of last week, the cause of the fire being unknown. It was not until the flames were breaking through the roof that the fire was discovered and an alarm sounded, but too much headway had been gained, it having started in the hay loft. Efforts were confined to save the frame barn belonging to Mr. Robt. Fisher, which was located about fifteen feet away, and after tearing down a chicken house between the two barns the chemical engine was used to excellent purpose in the fight. Dense quantities of black smoke gushed forth from the burning building caused by the quantity of hay in the mow.

Mrs. Silas Phillips has returned after spending the winter months with her son in Palmerton.

Are you building?

Shall you be building this year? If so, profit by the experience of those who save money when building. Even on a small job you'll probably be surprised to find how using Long Distance enables you to get lowest prices.

"We bought all the material for a $75,000 building by Long Distance—it is the cheapest way"—writes a contractor in a medium-sized town.

"We use Long Distance to get prices on materials before making estimates or contracts"—writes another.

The leaders in every branch of industry know. They've proved it, as you can.
