GRAY STREAKS

Why let all your neighbors and friends think you must be twenty years older than you are? Yet it's impossible to look young with the color of 70 years in the hair. It's sad to see young persons look prematurely old in this way. Sad because it's all unnecessary; for gray hair may always be restored to its natural color by using—

Ayer's Hair Vigor

For over half a century this has been the standard hair preparation. It is an elegant dressing; stops falling of the hair; makes the hair grow; and cleanses the scalp from dandruff.

THE TENDRIL'S FAITH.

Under the snow in the dark and cold
A pale little tendril was humming;
Sweetly it sang 'neath the frozen mould
Of the beautiful days that were coming.

"How foolish your song!" said a lump of clay,
"What is there, I ask, to prove them?
Just look at these walls between you and the day!
How can you have power to remove them?"

But under the ice and under the snow
The pale little sprout kept singing:
"I cannot tell how, but I know, I know,
I know what the days are bringing.

Birds and blossoms and buzzing bees,
Blue, blue skies above me;
Bloom on the meadow and buds on the trees,
And the great, glad sun to love me."

Then a pebble spoke up. "You are quite absurd,"
It said, "with your song's insistence;
For I never saw a tree or a bird,
So of course there are none in existence."

But "I know, I know," the tendril cried
In beautiful, sweet unreason.
Till, lo! from its prison, gloried,
It burst in the glad spring season.

—*Ella Wheeler Wilcox.*

WHY? THE ANSWER.

The Washington *Star* says: "Lord Kitchener's recent victory was won for him by an army of teetotallers, who made phenomenal forced marches through the desert, under a burning sun, and in a climate famed to kill or prematurely age the unacclimated. But it is said, There has never been a British campaign occasioning so little sickness and profiting by so much endurance." In connection with this, some one asks, "Why cannot we treat our soldiers as well as the British treat theirs, and have an army of teetotalers?" Because the liquor league rules the politicians, from President McKinley down, and at its dictation the army canteen continues to beset and ruin our army boys, in spite of the law enacted by Congress abolishing it.—*Religious Telescope.*

OUR NEW COMMANDER.

OTTAWA, June 2.—At a meeting of the Cabinet to-day, Col. Richard Hebden O'Grady Haley, C. B., aide of Distinguished Service Order, was appointed Major General commanding Canadian militia to succeed General Hutton. Colonel Haley is sixty years of age, and is on retired pay. He was born in 1858. His name was submitted by the Imperial authorities to the Canadian Government.

THE FAT IN

the food supplies warmth and strength; without it the digestion, the muscles, the nerves and the brain are weak, and general debility follows. But fat is hard to digest and is disliked by many. **Scott's Emulsion** supplies the fat in a form pleasant to take and easy to digest. It strengthens the nerves and muscles, invigorates mind and body, and builds up the entire system.

TEMPERANCE IN THE BRITISH ARMY.

The fight on drink in the British army is one of peculiar interest at this time, as the same men who have been leading the army temperance movement for years are the very men who are in charge of affairs in South Africa.

Of Lord Roberts, Kipling in his poem "Bobs" makes the admiring British soldier say:

"E's a little down on drink,
Chaplin Bobs;
But that keeps us out of clink—
Don't it, Bobs?
So we will not complain
Thin' o' water on the brain,
If 's leads us straight again—
Blue-light Bobs."

It was Lord Roberts himself who put the Army Temperance Association on its feet in India thirty years ago and was its executive officer as long as he remained in that country. When Lord Roberts was recalled from India, General Sir George White, the hero of Ladysmith, became his successor, both as commander of the Indian army and as executive of the Army Temperance Association.

A partial list of the British generals who are now in the public eye, and who at the same time have been active in the organization of this association are: Lord Wolseley, commander-in-chief; Field Marshal Lord Roberts, Gen. Sir George White, Gen. Lord Methuen, Gen. Sir Charles Warren, Gen. J. Kelly-Kenny, Gen. Sir F. W. Gatacre, Gen. Sir R. H. Buller.

The list of vice-presidents of this association comprises seventy-three of the leading generals of the British army. The late Gen. W. P. Symons was an officer of the Indian association.

At the annual meeting in March last General White presided and in his address said:

"I would like, here from this platform, and in the presence of the secretary of War, to thank you men for the efforts you have made in this cause, and for the attacks you have made on the army's besetting sin—drink."

On the same occasion, Lord Lansdowne, secretary of state for war, made a vigorous address in behalf of the association's work.

In India, the association is as much a part of the army equipment as the ammunition wagons. The government furnishes tents, furniture, transportation free, and supplies at cost.

WATCH THE SKIN AND EYES!

They Are Unfailing Thermometers of Health.

The skin and eyes are two unfailing thermometers of health. If the skin has spots, eruptions, an unhealthy pallor or a yellow appearance, and the eyes a glazed look, with yellowish whites, it is high time to purify and cleanse the blood and regulate the liver and kidneys. Paine's Celery Compound makes pure, bright red blood and relieves the liver and kidneys of the strain that is brought upon them whenever impure blood is pouring through their substance.

It has been fully proved by eminent medical men that Paine's Celery Compound supplies that needed and appropriate food that overworked nerves are too feeble to exact from ordinary food taken into the stomach. Paine's Celery Compound increases the appetite and puts the digestive organs into shape to pass the food over to the blood in such a perfectly prepared condition that the change into nerve, brain and tissue substance is easily and fully brought about without waste of nervous energy or wear upon the liver, kidneys or stomach.

In a word, Paine's Celery Compound builds up the weak, wasting and diseased body; it gives all the conditions of health that guarantee a long and happy life. No other remedy in the world has ever done such a true and noble work for suffering humanity.

Make trial of one bottle, dear reader; it will convince you that you have found what you most need to make you well and strong.

If an artery is cut, compress it between the wound and the heart; if a vein is cut compress beyond.

MR. R. A. STEDMAN.

DEPUTY-WARDEN ONTARIO REFORMATORY FOR BOYS.

Was Cured of a Severe Case of Rheumatism by Dr. Arnold's English Toxin Pills. This Case Only One of Many in This District.

Penetanguishene.

Of the many Government Officials in Ontario, not one is better, nor more favorably known than is Mr. R. A. Stedman, Deputy-Warden of the Ontario Reformatory for boys at Penetanguishene. Mr. Stedman has held his responsible post for many years, giving the utmost satisfaction to all concerned. He is known as an upright, faithful and conscientious official, and in private life is as highly respected as in public.

For a long time past Mr. Stedman has been a victim to that most painful disease—Rheumatism; his arms, legs, back and shoulders being principally affected. Everyone who has suffered with rheumatism will know what Mr. Stedman has endured. Words cannot describe the torment he went through. His family physician did all he could for him, but gave him only temporary relief—cure seemed a thing beyond reach.

One day, however, Mr. Thomas, gardening instructor to the institution, advised him to try Dr. Arnold's English Toxin Pills. "You know how bad I was with the same complaint," said Mr. Harford, "and they cured me. Now I know that if they could cure me, they will cure you. Try a box and see if I am not right."

Mr. Stedman did try Dr. Arnold's English Toxin Pills. As a consequence he is now sound and well in every nerve, muscle and limb, free from aches and pains, and able to attend to his duties every day.

This is only one of the many cases in this town and vicinity in which Dr. Arnold's English Toxin Pills have proved their superiority over all other medicines for the cure of Rheumatism. They have cured every case in which they have been used according to directions.

Dr. Arnold's English Toxin Pills are sold by all druggists, large box 75c., or sent postpaid on receipt of price by The Arnold Chemical Co., Limited, Canada Life Building, 44 King St. West, Toronto.

A SARNIA LADY

Tells How Milburn's Heart and Nerve Pills Cured Her Nervous Troubles and Strengthened Her Weak System.

Milburn's Heart and Nerve Pills are an inestimable boon to anyone suffering from any disease or derangement of the heart or nerves or whose blood is thin and watery.

Mrs. E. Horning, of 115 George Street, Sarnia, Ont., is one of those whose experience with this remedy is well worth considering.

It is as follows:—"I am pleased to recommend Milburn's Heart and Nerve Pills to anyone suffering from nerve trouble, no matter how severe or of how long standing.

"For years my nerves have been in a terribly weak condition, but Milburn's Heart and Nerve Pills, which I got at Geary's Pharmacy, have strengthened them greatly and invigorated my system, leaving me no excuse for not making known their virtues.

"I cannot refrain from recommending these pills to all sufferers as a splendid cure for nervousness and weakness."

A Dressmaker's Duties

Are Such as to Cause Backache

A Toronto Dressmaker has Found a Positive Cure and Gladly Tells About It.

Those who follow the arduous occupation of dressmaking or sewing have troubles of their own.

Running sewing machines all day long, handling over work that requires the greatest of care, those are the things that have made many a woman exclaim, "every time I take a stitch with my needle it seems as though I am piercing my own back."

But those who suffer from backache, headache, pain in the side or any derangement of the kidneys will be glad to know that there is a remedy that never fails even in the worst cases.

It is Doan's Kidney Pills.

Mrs. P. Coyler, the well-known dressmaker, 224 Bathurst St., Toronto, Ont., gave the following statement of her experience with it:

"For some time I suffered a good deal from weak back, a tired feeling, and pains and aches in various parts of my body. Since I have used Doan's Kidney Pills the pains have left me, my back has got stronger and the kidney troubles have been corrected.

"That tired, dull, drowsy feeling that used to come on me has now gone, and I am happy to say I have not felt so well in years as at present."

Doan's Kidney Pills cure backache, lame or weak back, Bright's disease, diabetes, dropsy, mist before the eyes, loss of memory, rheumatism, gravel and urinary troubles of young or old. The Doan Kidney Pill Co., Toronto, Ont.

The Old Reliable Remedy for Diarrhœa and Dysentery.

Grandma Cured. Mrs. Thos. Sherlock, Arnprior, Ont., recently wrote: "My little girl, three years of age, was taken very bad with diarrhœa, and we thought we were going to lose her, when I remembered that my grandmother always used Dr. Fowler's Extract of Wild Strawberry, and often said that it saved her life. I got a bottle and gave it to my child, and after the third dose she began to get better and slept well that night. She improved right along and was soon completely cured."

Several species of moths never eat after attaining a perfect state.

There never was, and never will be, a universal panacea, in one remedy, for all ills to which flesh is heir—the very nature of many curatives being such that were the germs of other and differently seated diseases rooted in the system of the patient—what would relieve one ill, in turn would aggravate the other. We have, however, in Quinine Wine, when obtained in a sound unadulterated state, a remedy for many and grievous ills. By its gradual judicious use, the frailest systems are led into convalescence and strength, by the influence which Quinine exerts on Nature's own restoratives. It relieves the drooping spirits of those with whom a chronic state of morbid despondence and lack of interest in life is a disease, and, by tranquillizing the nerves, disposes to sound and refreshing sleep, imparts vigor to the action of the blood, which, being stimulated, courses throughout the veins, strengthening the healthy animal functions of the system, thereby making activity a necessary result, strengthening the frame, and giving life to the digestive organs, which naturally demand increased substance—result, improved appetite. Northrop & Lyman, of Toronto, have given to the public their Quinine Wine at the usual rate, and, unaged by the opinion of scientists, this wine approaches nearest perfection of any in the market. All druggists sell it.

A sound discretion is not so much indicated by never making a mistake as by never repeating it.

As an all-round family remedy, one that always should be in the house for an emergency, Dr. Petty's Pills discount anything in the market. They are so small a child can take them with ease—yet one's a dose.

LIFE, AT ITS WORST.

A clergyman once told this marvellous story: "Thirty years ago two young men started to attend Park Theatre, New York, to see a play which made religion ridiculous and hypocritical. They had been brought up in Christian families. They started for the theatre, to see that vile play, and their early convictions came back upon them. They felt that it was not right to go, but still they went. They came to the door of the theatre. One of the young men stopped and started for home, but returned and came up to the door, but had not the courage to go in. He again started for home, and went home. The other young man went in. He went from one degree of temptation to another. Caught in the whirl of frivolity and sin he sank lower and lower. He lost his business position, he lost his morals. He lost his soul. He died a dreadful death, not one star of mercy shining on it. I stand before you to-day," said the minister, "to thank God that for twenty years I have been permitted to preach the gospel. I am the other young man."—*The Christian Life.*

THE APPLE AS FOOD.

Dr. Wilson says that the apple is such common fruit that few persons are familiar with its remarkable efficacious medicinal properties. Everybody ought to know that the very best thing they can do is to eat an apple just before going to bed. The apple is excellent brain food, because it has more phosphoric acid, in an easily digested shape, than any other fruit known. It excites the action of the liver, promotes sound and healthy sleep, and disinfects the mouth. It also agglutinates the surplus acids of the stomach, helps the kidney secretion, and prevents calculus growth, while it obviates indigestion, and is one of the best preventives of disease of the throat. Next to lemon and orange it is also the best antidote for the craving of persons addicted to the alcohol and opium habit.—*Popular Science.*

Bob McCready.

Above is a splendid portrait of Bob McCready, one of the best football players in Canada. He is a member of the Ottawa University team, and has been in all of its championship matches. He is a splendid specimen of robust Canadian manhood, but, strong as he is, he has known what it is to suffer from dyspepsia. So seriously afflicted was he at the opening of the past (1899) season, that he was not able to go out with his team. Pains in the back and sides, intermittent headache, and the awful pangs he suffered after eating, the result of an impaired digestion, warned him that he was in no condition to play football, the hardest of all games. Besides, he lacked the energy to carry him through a campaign. He consulted his physician, but that gentleman gave him no relief. "At this stage," he writes, "I was advised to try Dr. Petty's Pills, the new remedy that one of my friends assured me was wonderful in its effects. I was sceptical, but he sounded their praises so persistently that I was at length induced to try them. The very first dose drove the pain away, and at the end of a week I rejoined my team, and I have come through one of our hardest seasons in the best form that I have ever been in. Dr. Petty's Pills are alone to thank for my fine condition. They are the best medicine I have ever taken. They make one so strong and so full of energy. I, for one, shall never take any others when I feel in need of a strengthener." Such is the recommendation of this well known athlete, and such will be the experience of everyone who tries this wonderful remedy. If your druggist cannot supply you, write to us, enclosing twice 50 cents a bottle, six bottles for $2.50. Address The Dr. Petty Medicine Co., Ottawa, Canada.
