WHAT TOMMY CAUGHT.

Little Tommy Tompkins
Was so very slow
He wouldn't seem to catch a thing,
Wherever he might go.
He couldn't catch a tortoise,
He couldn't catch a ride
Upon the very slowest cart,
No matter how he tried.
He couldn't catch the measles,
If that had been his wish;
And though he had the finest bait
He couldn't catch a fish.
But pape saw him teasing
His baby brother Ben,
And you can just make up your mind
That he caught something then!

—*Central Presbyterian.*

Sleeplessness.

You can't sleep in the calmest and stillest night, if your stomach is weak, circulation poor and digestion bad.

Hood's Sarsaparilla strengthens the stomach, improves the circulation, perfects digestion, and brings about that condition in which sleep is regular and refreshing.

It does not do this in a day, but it does it—has done it in thousands of cases.

Half the world is on the wrong scent in the pursuit of happiness. They think it consists in having and getting, and in being served by others. It consists in giving and in serving others.—Professor Drummond.

Ordinary Corn Cures are Dangerous.

Because they contain acids, but Putnam's Corn Extractor is purely vegetable in composition. It is perfectly painless, safe, and sure to cure.

Just in proportion as you gain a victory over the evil which you have become aware of in yourself will your spiritual eyes be purged for a brighter perception of the Holy One.—Channing.

There is no form of kidney trouble, from backache down to Bright's disease, that Doan's Kidney Pills will not relieve or cure.

If you are troubled with any kind of kidney complaint, use Doan's Pills.

CASTORIA

For Infants and Children.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

Men of character are the conscience of the society to which they belong.—Emerson.

Attention in the world of homeopathic medicine has been its very source of progress; as in politics and religion—the difficulties of opinions and the individuality of men have been parent to the disagreement by which the standard of these bodies have been elevated. So with most of our famous preparations—foremost in illustration of which truth stands the world-famous remedy to general debility and anguor, "Quinine Wine,"—and which when obtainable in its genuine strength, is a miraculous creator of appetite, vitality and stimulant, to the general fertility of the system. Quinine Wine, and its improvement, has, from the first discovery of the great virtues of Quinine as a medical agent, been one of the most thoroughly discussed remedies ever offered to the public. It is one of the great tonics and and natural life-living stimulants which the medical profession have been compell to recognize and prescribe. Messrs. Northrop and Lyman, of Toronto, have given to the preparation of their pure Quinine Wine the great care due to its importance, and the standard excellence of the article which they offer to the public comes into the market purged of all the defects which skilled observation and scientific opinion are pointed out in the less perfect preparations of the latter.

Thrift of time will repay you in after life with an unusury of profit beyond your most sanguine dreams.—W. E. Gladstone.

FOOD MEDICINE

Scott's emulsion of cod-liver oil is equally food and medicine.

A little of it sets the stomach at work on some easy food—that is medicine.

How does it "set the stomach at work?" By making strength: by creating strength: by turning the oil into body and life—that is food.

We'll send you a little to try, if you like.
SCOTT & BOWNE, Chemists, Toronto.

AN AWKWARD QUESTION.

A good story is told of one of the dignitaries of the Scottish Church. Before he became known to fame he was minister of a remote parish in Perthshire, and was not considered a particularly attractive preacher. At his suggestion extensive alterations were made in the transept of his church, and these had the effect of sweeping away considerable seating accommodation. One day after the alterations had been effected, he visited the church to see how it looked.

"What do you think of the improvements, John?" he asked of the beadle.

"Improvements!" exclaimed John in disdain. "They're no improvements at a'. Whaur are ye goin' to put the folk?"

"Oh," said the minister, "we have abundance of room, John, considering the size of the congregation?"

"That's a' very weel the noo," returned the beadle, "but what will ye do when we get a popular meenister?"

HOLED AND CORNERED.

Wife—I mended the hole in your trousers pocket last night after you had gone to bed, John, dear. Now, am I not a thoughtful wife?

Husband (dubiously)—Well-e-y-e-s, you are thoughtful enough, my dear, but how the mischief did you discover that there was a hole in my pocket?—*Exchange.*

HEALTHY BABIES.

Watchful Mothers Can Keep Their Babies Healthy, Rosy-Cheeked and Happy.

Nothing in the world is such a comfort and joy as a healthy, hearty, rosy-cheeked, happy baby.

Babies can be kept in perfect health only by having at hand and administering when needed some purely vegetable, harmless remedy, and of all this class of medicines Baby's Own Tablets are conceded to be the best.

For constipation, colic, diarrhoea, simple fevers, sour stomachs, teething babies, indigestion and sleeplessness, these tablets are a really wonderful cure. You can give them to the smallest baby without the slighest fear. Dissolved in water, they will be taken readily. They contain absolutely not a particle of opiate or other injurious drugs. They are small, sweet lozenges that any baby will take without objection, and their action is prompt and pleasant. They will tone up the whole system and make the little one as hearty and free from infantile disorders as any mother could wish.

Mrs. Walter Brown, Milby, Que., says: "I have never used any medicine for baby that did him so much good as Baby's Own Tablets. I would not be without them." This is the verdict of all mothers who have used these tablets.

They cost 25 cents a box. All druggists sell them or they may be secured by sending the price direct and the tablets will be forwarded prepaid. The Dr. Williams' Medicine Co., Dept. T., Brockville, Ont.

The real use of all knowledge is this: that we should dedicate the reason which was given us by God to the use and advantage of man.—Lord Bacon.

Hay Fever Germs are Now Floating About.

They are in the air everywhere, too minute to see, but just waiting for a chance to get into your lungs. Then they will play havoc with your breathing apparatus, and you'll wonder what to do. Catarrhozone cures every time, and absolutely prevents the disease from returning. GROWING A GRANDMOTHER.

He was a little man, only three years old, but very brave and uncomplaining. The family had gone to a new country in the far West, the mamma, this little man, and the sister, a little older. It was a very new country, very different from the city in the East where they had left many friends, relatives, and nearest of all a dear old grandmother. The mamma was so busy in her new home that she had little time for the babies except to see that they were clean and well fed. So they were lonesome, as mamma found out one day in a way that brought the tears to her eyes.

The little three-year-old had been very busy and very quiet making a big hole in the ground with such earnestness of purpose that she went to see what was being done.

The hole was completed when she reached the spot, and in it had been placed something that she took out and examined with wondering curiosity. It was the strangest thing to go into a hole in the ground—an old daguerreotype, a picture of the dear grandmamma at home.

"Why, baby," exclaimed mamma, "what are you doing with this?"

"I fought," said the little man, with a quivering lip and all the pent up lonliness and homesickness in his voice, "I fought, maybe, if I planted is nuuczzer grandma would grow."—*Christian Work.*
