Plan to Spend Forty Millions For Highways

Dominion Government Approves of Plans to Spend this Amount on Highways

INCLUDES HIGHWAY FROM TORONTO TO BARNIA

Plans that provide for the expenditure of $40,000,000 to improve the highways of Ontario and Quebec are among those which have just been approved by the Government under the operation of the Federal Highways Act.

The total outlay contemplated in Ontario is $23,200,000, of which the Dominion Government will contribute $5,800,000, the Province $12,000,000 and the municipalities $5,400,000. Quebec's projected outlay is $17,000,000, of which the Dominion Government will put up $5,000,000 and the Province and municipalities the balance.

The Ontario plan provides for the following main highways:

Windsor to the Quebec boundary at Cotean, via Chatham, London, Brantford, Hamilton, Toronto, Belleville and Kingston, with branches from Hamilton to Niagara Falls, and from Prescott to Ottawa.

Fort Erie, through Simcoe and St. Thomas to Windsor.

Toronto to Barnia, via Brampton, Guelph and Stratford.

Toronto to Muskoka.

Ottawa to Pembroke.

Ottawa to Point Fortune, connecting with the road to Montreal.

Ottawa to Kingston, via Perth and the Rideau Lakes.

The plans of Quebec which have been approved are for first-class highways:

Hull to Montreal.

Montreal to Levis.

Levis to Rimouski.

Riviere du Loup to Edmundston, connecting with the St. John Valley highway.

Montreal to Sherbrooke, via Granby and Magog.

Montreal to Malone, N. Y., via Chateauguay and Huntingdon.

Montreal through the Laurentians to Mont Laurier.

The present year will see work well advanced on many of these roads.

Why We Need More Money!

Last year our rates for service were increased by ten per cent.

That was the first general increase in telephone rates in over twenty-five years.

To-day the general level of commodity prices is three hundred and fifty per cent over what it was twenty-five years ago.

Our operating expenses in 1919 had increased 99 per cent over 1915, while gross revenue was only 49 per cent greater.

Wages absorbed over 56 per cent of our revenue last year, and our wage bill this year will be at least 35 per cent higher than in 1919!

It is apparent that if we are to continue to pay good wages, and so ensure good service, and at the same time pay such a return to investors as will attract new capital to enable us to extend our plant, we must earn more money!

We must accomplish both of these things, else service to our present patrons will suffer and new applicants for service cannot be accommodated!

Increased rates are the only source from which such further revenue can come!
