We little thought her death so near.

ONE BIG APPETITE WAS ENOUGH

One day a man complained of not feeling fit, and, says the Detroit Free Press, a friend suggested that he take up exercise.

"There's horseback riding," said the friend. "It is one of the best forms of exercise on earth."

"I know," was the doubtful rejoinder, "but I am afraid I can't afford it!"

"Can't afford it!" exclaimed the other. "You already have a horse; and just think of the appetite it will give you!"

"Yes," responded the man, with a sigh, "and just think of the appetite it will give the horse!"

YOUR GROCER IS NOT A PROFITEER

Have a heart!

Your grocer is not a profiteer!

He is passing along to you reduced prices, as fast or faster than they come to him. Just because prices on many good things are still high, don't blame him. It is usually the poorest quality of everything that shows the greatest decline.

If he is as good a man as the average, your grocer is still doing his utmost to give you the best value for your money. But don't push him too hard. He is only human.

You don't know, but we do, that he is recommending goods that pay him less profit than other well known brands which he might easily persuade his customers to take if he cared to do so.

We know this because he pays us more for Red Rose Tea and sells it at less profit than other teas, so when he recommends you to buy Red Rose Tea, you will know it is because he believes it the best and he is willing to take a little less profit for the sake of giving you the best value he can.

We are publishing this because we believe the more our people know of the true facts concerning the profits made by those they deal with, the more generous they will be in their judgments.—T. H. Estabrooks Co., Ltd., Toronto, Ont.
