The Canadian Northern Railway will operate the first excursion trains for the West, leaving Toronto Union Depot at 10 p.m., August 23rd and 30th, and running through solid to Winnipeg.

The equipment will consist of electric lighted colonist cars and in addition, the Railway will continue last year's innovation of keeping a special car for the accommodation of single women and families, and of placing it in the train where the occupants will be separated from the other Passengers.

The territory served by the Canadian Northern Lines offers the widest choice of employment with high wages, but regardless of where you may locate, remember we give you the best service to Winnipeg, where you will re-purchase to final destination, no matter on what line it may be.

Housekeeping Is Not the Task It Used to Be

MODERN invention has done away with much of the hard work. For instance, the cleaning and polishing of hardwood floors, the dusting of moldings, the tops of high furniture, the stairs, under the radiator, etc. These back-breaking tasks are now made easy with the

O-Cedar Polish Mop

With it you can dust, clean and polish a hardwood floor in the time it formerly took you to get ready to do it.

Besides, you do not have to get down on your hands and knees to dust under the bed or other hard-to-get-at places, or to stand on a chair to dust the top of the high furniture. All of the hard work is now made easy with the O-Cedar Polish Mop. It gathers all the dust or dirt from everywhere and holds it. The mop is easily cleaned by washing and then renewed by ipsoing on a few drops of O-Cedar Polish.

Try It at Our Risk Try it two whole days at our risk and expense. If you do not find it satisfactory in every respect we will return your money. The price is only $1.50 and it will save hr price many times over in a short time.
