The lucky number draw for the Scout's Christmas Hamper was kindly arranged by members of the Lions' Club at the Community Christmas Tree on Saturday, Dec. 22nd. The hamper was won by Mrs. H. Dickie of Georgetown, and the Scouts wish to offer her their congratulations. The prize for selling the most tickets was won by Scout P. King, who sold approximately 140 tickets.

Regular weekly meetings will be resumed on the first Friday evening of January and there is a rumor of a Scout dinner to start the New Year right.

Personally, I wish to express my gratitude to the Troop Leader and the Scouts for the splendid spirit of willingness displayed in this year's toy shop. I wish to thank them for the many hours spent collecting and mending toys in the absence of their Scoutmaster; hours which could no doubt, have been spent in many other forms of entertainment. I assure them that their leader is proud of his Troop, as are all those who realize the sacrifice and labour which the Scouts have offered as their "1934 Good Turn."

AT 62—IN BED WITH RHEUMATISM

At 65 — Working Again

Why worry about rheumatism? This old fellow had it almost as bad as it could be. But he just found the right remedy, stuck to it, and now he's working again at 65 years of age.

Let him tell you all about it:—"For two years and a half," he writes, "I have suffered from rheumatism. For eighteen months I could not turn over in bed, nor help myself in any way. My legs and feet were swollen, and I could not sleep or get any rest until I started taking Kruschen Salts. After taking one bottle, I went about on two canes. I kept on taking it, as I found the pains were leaving me. I have taken six bottles, and now I have started work again. I am 65 years of age, and everybody that knows me says I am a wonder to get on, after what I was."—J. H.

Do you realize what causes rheumatism? Nothing but sharp-edged uric acid crystals which form as the result of sluggish eliminating organs. Kruschen Salts can always be counted upon to clear clear painful crystals from the system.

Mr. and Mrs. J. N. Featherstone, of London; Mrs. John Russell and daughter, Vera, of Toronto, and Mr. and Mrs. T. J. Fisher and family of Georgetown spent Christmas at the home of Mr. and Mrs. R. W. Fox.

Christmas morning jolly old Santa Claus visited the Gordon Home, Milton, and brought a generous share of yuletide cheer to the thirty little children there. A Christmas tree sparkled with decorations and loaded with good things for each child—oranges, candy and toys of all descriptions—as well as the members of the staff being remembered. A turkey dinner was served, with the full complinment of the season's delicacies. After the wonder and joy of the contents of the Christmas tree had been revealed a generous donation of splendid play room equipment was received from several Women's Institutes throughout the county, as well as from other organizations and private individuals.—Champion.

THE NEW FORD V-8 FOR 1935 ANNOUNCED BY LOCAL DEALER

The new Ford V-8 for 1935, presenting a new conception of beauty and comfort in the modern automobile, was announced today by A. E. Cripps, local Ford dealer.

Most striking feature of the new car is body lines which are distinctively modern and a definite departure from any previous Ford design. The new cars are approximately eight inches longer from bumper to bumper. Beds are as much as 5½ inches wider, and front seat leg room has been increased.

The car also embodies a combination of major engineering developments aimed at increasing riding comfort—which has been called the "center-poise" ride. These changes include moving the engine forward more than eight inches over the front axle, a longer front spring placed four inches forward, a straight instead of bowed rear spring, and a total "springbase" of 133 inches on the chassis of 112 inches wheelbase. The frame is placed lower, and 6.00 by 16-inch tires carrying less air pressure are fitted. There are four double-acting hydraulic shock absorbers. Passengers sit inside the wheelbase. The rear tread of the car is more than two inches wider.

Numerous chassis changes to give greater ease of control and added stability on the road have been made. Cross-steering, a stiffer frame, a new clutch requiring less pedal pressure, and new brakes calling for less effort to operate, all contribute to these results.

Two improvements have been made in the Ford V-8 engine, of which more than 1,300,000 are on the road. Directed-flow crankcase ventilation removes water vapor and other fumes from the engine. Aircraft type connecting rod bearings, of a copper-lead material used previously only on airplane engines, truck engines and expensive custom-built automobiles, are fitted.

One new type of body is presented, the touring sedan, with unusually sleek lines and embodying a fitted rear trunk compartment integral with the body. There are eleven body type listed. The following are available with deluxe equipment: Phaeton, roadster, 3-window coupe, cabriolet, Tudor sedan, Fordor sedan, Tudor touring sedan, Fordor touring sedan. The roadster and cabriolet have rumble seats.

A 5-window coupe and the Tudor and Fordor sedans are available without deluxe equipment.

All models are finished in a new baked enamel, which is claimed to retain its high gloss indefinitely, requiring only washing to restore the lustre. Fenders are colored to match the hood and body in all types. Interior appointments are entirely new. Front and rear appearance conforms with advanced ideas of streamlining.

One of the oldest houses in Trafalgar township, the home of Chas. Ryan on the Dundas Highway at Postville, was destroyed by fire Saturday night as the Brooks fire brigade hastened to the scene over slight miles of icy roads. Arriving at the fire too late to save the house, an old log structure that had been clap-boarded, the firemen emptied two wells in a successful attempt to prevent the flames from spreading to a driving shed close to the house and from there to a barn.
