So far this year, Long Distance calling is almost 10 per cent. heavier than in 1943, when toll calls set an *all-time high*.

So it is obvious why we must all continue to avoid needless Long Distance calls. Otherwise, pressing war business may be seriously delayed. And such delays can cost lives!

Please make only *necessary* calls.

The Buffalo Goes to War

BUFFALO which roamed the plains of Western Canada in the days of the pioneer settlers are now a factor in the war effort of the United Nations. At many points along the lines of the Canadian National Railways salvage dumps, as shown above, have been established to which farmers bring the skulls and bones of buffalo as well as moose and elk antlers, some of them long since turned up by their ploughshares. Bones are valuable in making ammunition.

Scrap iron and steel from discarded farm machines are also hauled to the railway sidings by farmers and their families to be delivered to the Government scrap depots. This youngster, at right, is busy in the war salvage job at Borradaile in Alberta.

CANADA YEAR BOOK NOW AVAILABLE TO PUBLIC

The 1943-44 edition of the Canada Year Book is now available for distribution and will be supplied to the public at a price of $2.00 a copy. Teachers, university students and ministers may obtain paper-bound copies at $1.00 each. Applications for copies should be made to The Dominion Statistician, Dominion Bureau of Statistics, Ottawa.

On grounds of economy, the 1943 edition of the Year Book was not published so the present volume covers developments over a two-year period.
