COUNTY GOOD ROADS COM. ON INSPECTION TOUR

Warden Chas. Holm of Normanby; Reeve J. A. Pringle, Keppel; Reeve W. L. Taylor, Osprey; Reeve Calder Egremont and Reeve Jacob Lembke, Sullivan, comprise the Good Roads Committee of the Grey County Council were on their regular spring inspection tour of the county roads last week.

The committee met at Hanover on Thursday morning, and, accompanied by County Engineer R. C. McKnight, County Road Superintendent John Johnston and Provincial District Engineer Haws, proceeded to look over the roads. They went from Hanover through to Durham and thence to Dundalk via Holstein, remaining Thursday night at Dundalk. On Friday morning they went into Osprey township, and up to Eugenia, through the Beaver Valley to Thornbury, Clarksburg, Meaford and on over to Owen Sound.

Reeve Pringle, who is chairman of the committee, stated that they found the roads generally in much better condition than for several years past. This they attributed to the remarkably fine weather this spring, the roads having dried up quicker than usual, although there were several small sections, notably one just east of Clarksburg, where the road heaved a great deal by the action of the frost which is in good shape at the present time.

The three road construction outfits belonging to the county have not been put into commission as yet this spring, but if the weather keeps good all of them will be in use about the middle of May, which is somewhat earlier than usual. They will start work where they left off last fall, in Osprey, Proton and Keppel townships.

There will be no large bridges erected this year, at least the committee have not seen any place where one is necessary. The bridge at Hanover, which was only nicely started last year, will have to be finished, and it is more than likely that a new top will have to be put on it, although this has not been definitely decided. The bridges at Durham and Thornbury are completed with the exception of the floors, which will be of concrete. Temporary plank floors were put down in them last fall, but with the frost menace eliminated the new concrete floors will be put down, in fact, a start has already been made in the case of the Thornbury bridge.

The taking over of the 20 foot strips through the towns of Hanover and Durham, regarding which there was so much controversy in the County Council sessions, may materialize this year, although Reeve Pringle sated that it was hardly likely there would be any permanent paving done in either place this year, but the strips will be prepared for paving at a later date.—Sun-Times.

GOLD IN FERGUS.

Chicken's Gizzard Yields Some of the Yellow Metal

There is apparently gold in Fergus. It has always been known as a Scotch town, and what the citizens have they hold. Last week Mr. Percy Campbell of Union street sold Mr. John Muir a bunch of his choice crate fattened chicks. Mr. Muir being a dealer, sold some of them to Mr. Wm. Chapman, our butcher. Mrs. Chapman desiring a change from the regular bill of fare, decided to expropriate one of these choice chicks. While Mrs. Chapman was preparing the chicken, she found the gizzard lined with several bright substances. So strong a resemblance did they bear to gold that R. J. Rutherford, the jeweller, was consulted. Two of the small pieces he pronounced as pure gold and the two others, resembling copper, were brass. The questions in the minds of the citizens now are—Is there gold in that section or was the mineral in the feed and where was it produced?—Fergus News-Record.

HYDRO BILLS ROUSE ALLISTON.

Last week people of this town, says the Alliston Herald, received their light bills for the two months and the water bills for the first quarter accompanied them. The amount involved has provoked an outcry against the enormous rate the Hydro charges for current in this town. One case is cited. The service charge item on one of the bills rendered in town last week is within 14c of the total bill for a month's current in a six room house in Toronto. In that city people living in houses of the same class as the average home in Alliston, get off with monthly light bills of $1 and $1.50, while the average bill of an Allistonian in a like house is $3 and $3.50. And when it comes to current for cooking, a $2 bill in Toronto is matched by a $4 in this town. The system of charging is said to be cost, and is declared to be eminently fair, because the source is a public utility. Yet Toronto, which uses a million two-cent postage stamps to a hundred used in Alliston, does not get its stamps any cheaper because the postal service is a public utility. This gross unfairness and persecution of the rural dweller by the imperiousness of the cities will be righted some day and it is not impossible that the city dweller will pay for all the persecution he has heaped upon the rural citizen.

Anyway, the modern husband never sees any switches parked on the bureau.

Jack Miner says wild geese are very easy to catch. Those who sell wild-cat stocks have the same report.
