W. H. THURSTON, - Editor

DISCOURAGE WARS.

In this discussion about wars and preparedness for wars, while we ought to take reasonable care to provide means for defence should we ever have to face such an issue as was presented by Germany in 1914—which God forbid—we should be united in discouraging warfare among old and young. We should strive by every means in our power to instil into the minds of our fellows a love of peace—a determination to uphold our rulers in working to have all international questions settled by peaceable means, and to bring into disrepute those nations that are ready to resort to the sword in order to achieve their ends. This should be the determination of all peace-loving men because it is a right and honorable course, and also because we have all learned that, win or lose, all peoples suffer by war. We in Canada know what we suffered in loss of life on the battlefield, and in the terrible mutilation of so many of the flower of our young manhood, to say nothing of the sufferings of the thousands of widows and orphans. There is also the material loss sustained, for which our people now are paying and with which generations yet unborn will continue to be burdened. When we complain of our tax burdens, we are apt to put all the blame on governments; and to forget just how much our burdens have been increased directly and indirectly by the war. How many people, for example, know that since the first year of the war the Canadian taxpayer has paid over a billion dollars in taxes to carry on the war and to provide for pensions to victims of the conflict, and we must continue paying for generations to come. Let no one encourage, by word or deed, farther resort to arms to settle international disputes, but let all work to outlaw war and those who advocate it. We all know how easy it has been in the past to counsel blood letting as a means of arbitrament; but surely we have had enough of this anti-Christian system.

THE BEAUTIFUL VALLEY

The Advance man enjoyed a trip to Meaford on Saturday afternoon last by way of Kimberley, and once again feasted our eyes with the beauties of the Beaver Valley, as seen from the road a few miles north of Eugenia. Fog clouds were low, touching the earth and the west side of the valley could not be seen from the high road, just before the dip into the valley. As we proceeded down the grade a panorama opened before our eyes and we were able to view a country under a diffused light from the sun shining through the fog, the clouds were gone from the valley and it seemed as though the promised land had just opened up for us to view. As we continued on to Kimberley we found that the leaves on the trees were out and about one quarter grown, the wild plum blossoms were blooming in all their beauty and the apple trees, also, would soon be casting a sweet aroma from their blooms, that would almost make one content with the world. The growth in the valley is considerably ahead of that in this locality, as buds on the trees are only now breaking. Two miles north of Kimberley on the Epping road is the old home of the editor of this g.f.j. and we enjoyed a short time of recalling our many old friends and bringing back old occurrences of our boyhood days spent there. The Kimberley valley cast a spell over us that we will never forget.

EDITORIAL NOTES

Mr. W. T. Jackman, proprietor of the Chilliwack, B.C., Progress, died there recently. Mr. Jackman was born in Owen Sound and was the first printer's "devil" at Dundalk, when the late Joseph Townshend founded the Dundalk Guide in the early days of that village. The writer of this item was also engaged with Jackman in the mechanical department of that journal. The Guide only existed a few months then staff and plant removed to Durham. Afterwards for some years Mr. Jackman worked on the Markdale Standard under the late C. W. Rutledge. In 1891 he migrated to B. C., and started the Progress at Chilliwack, and prospered. His wife was a Miss Caesar of Markdale. He leaves his widow and two sons—Clarence in Seattle and Percy in Olympia, Washington.

* * *

The need of a decent policy by the government on the locating of men on the farms fromEuropean countries is becoming more apparent as time goes on. To take a man from Englanr and dump him on a farm in Canada without any suitable instruction should not continue. A couple of weeks ago two young men got onto a train at a station twenty miles south of Flesherton, disgusted with farming in that locality; another boy got on the same train at a station a few miles further on in the same frame of mind. What is needed is a school of instruction for these young men to become accustomed with the various activities and methods on a Canadian farm. It seemed that the young men could not suit their employers and gave up their position. We cannot expect a young man to make much of a success unless he learns the correct methods of working the land.

ARTEMESIA COUNCIL

Council met on May 7th, the Reeve in the chair. Minutes of last meeting were read and adopted. The following communications were read: Jas. Oliver, applying for bonus for wire fence; H. R. McLean, applying for bonus for wire fence; T. S. Cooper, re check to school fairs; Globe Indemnity Co., enclosing checks for damage to cars for C. E. Dalton $15, and Weber and Wickens $12; Fred Taylor, affidavit of having had two lambs killed by dogs, valued by Mr. W. J. Love. By-law 801, granting bonus of 25c per rod to parties erecting wire fences at places where snow drifts badly, was read a third time and passed.

Reports of Commissioners were presented as follows: H. Corbett, expended $58.30; J. Davis, expended $12.50; R. Purvis, expended $36.00. The following payments were ordered: F. Taylor, lambs killed, $20.00; H. Genoe, refund statute labor, $4.00; R. Purvis, committee on valley road, $4; J. A. Hogarth, three days' committee work, $12.00; J. Davis, commission $1.25, and two days' committee work, $8.00; R. Purvis, overseeing work with grader, $14.00; W. J. McMillan, overcommittee work $6.00, operating grader $26.00; H. Corbett, committee work, $10.00, and commission $5.80.

McMullen—Davis—That H. R. McLean be granted 25c. per rod for 40 rods of wire fence at lot 1, con. 2, S. D. R.—Carried.

Corbett—Davis—That a resolution passed by this Council on Feb. 5 last setting team wages for 1927 be renewed and the pay for man and team be 50c per hour.—Carried.

Corbett—Davis—That a grant of $100 be made and expended on town line A. and P. from the Toronto Line to base line, upon condition that Proton council grant and expend an equal amount at same place.—Carried.

Council adjourned.

IN MEMORIAM

HANLEY — In loving memory of my dear husband, who passed away May 20th, 1923.

Nothing can ever take away
The love a heart holds dear;
Fond memories linger every day.
That keeps thee ever near.
—Maggie Hanley.

IN MEMORIAM

BLACKBURN—In loving memory of my dear husband, Joseph Blackburn, who passed away May 19, 1925.
—Ella.

IN MEMORIAM

GENOE — In memory of our dear husband and father, John James Genoe, who departed this life on May 14th, 1921.

Some day, some time, our eyes shall see
The face we loved so well;
Some day, some time, our hands shall clasp
And never say farewell.
—Wife and Family.

CARD OF THANKS

Mrs. Wm. Williamson takes this opportunity to thank the friends and neighbors for their kindness and sympathy shown during her recent bereavement.

The city of Owen Sound has taken over the plant of the Malleable Iron Co. of that place, as the Company is at present $62,000 in arrears to the city.

Change Your Attic

into a comfortable den, radio room, playroom or extra sleeping quarters by erecting ceilings and partitions of Gyproc. Gyproc will make your attic fire-resistant, warm in winter and cool in summer.

Write for free booklet—"My Home." It will tell you how Gyproc, Rocboard Gypsum Insulating Sheathing and Insulex will reduce your fuel bill from 20 to 40%. 153

A Greater Canada

THE Bank of Toronto for more than seventy years (1855 to 1926) has been building on the conviction of a consistent growth in the Dominion of Canada and an increasing and abundant prosperity for her people. Today, as never before, this bank subscribes unreservedly to the doctrine of sound optimism in the destiny of the country, affirming that today there are more impressive signs of the coming tide of prosperity than at any period since the war.

The Bank of Toronto seeks to serve the people of Canada with the same spirit that actuated those pioneer bankers who founded this institution even before Canada became a Dominion.

Become associated with the Bank of Toronto in your financial transactions as Canada's Greatest Half Century dawns. Consult any of our managers or their staffs and feel assured that all are actuated primarily with whom they deal.

Neptunite Varnishes

Lowe Brothers Neptunite Varnishes are ideal for either exterior or interior use.

They have the distinction of being the only varnishes that have successfully withstood the heat from a Hot Iron on their surface. They will not turn white, crack under the hammer test or show heel marks. Ice and snow or rain have no effect on them.

They produce a remarkably beautiful finish; they wear longer and cost less than most good varnish.

Neptunite Varnish-Stain

Is a high grade varnish stain. It varnishes and stains in one easy operation. The stain colors are non-fading. Neptunite Varnish Stain has splendid wearing qualities and gives a fine mirror-like gloss. Easy to use. Dries quick—has a surface like glass that is free from stickiness and dusts off easily.

Mellotone Flat Wall Paint

For interior decoration; it is a liquid paint, ready for use. Mellotone combines the delicacy of a water paint with all the durable elements of a lead and oil paint.

It is very economical and easy to apply. It can be washed with soap and water; is color fast and covers 900 square feet to the gallon.

House Paint

Lowe Brothers "High Standard" Liquid Paint covers fully half as much more than a so-called cheap paint. More than this, "High Standard" is so easy to apply and lasts so long that it is conceded by hundreds of users to be the most economical paint per square foot sold.

It comes in a splendid range of beautiful colors and produces a high gloss finish that wears off evenly, leaving the surface in splendid condition for repainting. Try it when next you paint.

Auto-Gloss

There is no need to drive a shabby car when any amateur can refinish his car in a few hours with Lowe Brothers Auto-Gloss.

Auto-Gloss produces a finish of remarkable beauty and depth. It flows out evenly, and leaves no brush marks or overlappings. It is permanent and impervious to the weather.

We will be very glad to supply you with literature telling you how to restore the finish to your car. You will be surprised to learn how easy it is.

D. McKillop Flesherton, Ont.
