# Sacre-Coeur Church to host World Day of Prayer

The annual World Day of Prayer will be held at Sacre-Coeur Church, 39 Guelph Street, Georgetown on Friday, March 3rd at 7:30 p.m. The Word Day of Prayer is sponsored by the Women's Inter-Church Council of Canada.

Soyez des nôtres pour la Journée Mondiale de la Prière, vendredi le 3 mars a 19:30.

The theme of the service is Signs of the Times, written by the women of South Africa who are facing many challenges as they work towards transformation. Participants attending will not only be learning more about this country, but will also be joining Christians in more than 170 countries around the world who will gather together to pause and pray affirming their faith.

All women and men of faith are invited to come and join in this event of ecumenical prayer and solidarity. For further information, call Margaret Teasdale at 905-877-1052.

## Tooth Chatter

by ALEX TRENTON DENTURIST

**ADJUSTING TO NEW DENTURES**

**FEEL**

At first your new dentures might feel very large in your mouth. You may even experience a gag reaction. This is normal in the beginning. In time, with a little patience and practice, you will adjust naturally to this initial fullness and barely notice it in your mouth.

**SPEECH**

Many new denture wearers have difficulty at first with their speech. Words containing "S" sounds can be a problem. Practicing speech aloud with your new dentures in place will help restore your normal speaking quality. Try reading aloud from a book or magazine in front of the mirror. This will help you to get used to the new speaking position of your tongue and new denture. This will also give you more confidence. Also, before you speak, it is helpful to first bite and swallow. This will "set" the dentures in position and improve clarity.

**EXCESS SALIVA**

When you first receive your new dentures, you will probably notice an increase in the flow of saliva in your mouth. This is a normal response to the unfamiliar new denture. On the average, most people swallow about 600 times a day. For the first few days after receiving your new teeth, you should try to swallow more frequently. After a few days have passed, your mouth will become used to the denture, and saliva flow will return to normal.
