Discipline is a great master. A disciplined worker usually earns and receive promotion.

Earth worms sing, according to the naturalists. Those we used in fish-recently must have scared away the trout by humming one of their lays.

If scientists could devise a method of teaching potato bugs to fill up on weeds, instead of the succulent "shaws," the ravages of one pest could be alleviated.

The wolf came at last. People have kept singing that they had none of them till a tropical storm came along in Jamaica and blew down 25,000 banana trees.

It is easy to be seen that another U.S. presidential election is approaching. President Coolidge is going to Dakota for his summer holidays and Republican politicians are beginning to hold up the Tammany organization as an example of all that is bad.

Some caretakers of Toronto public schools get more pay than teachers. This doubtless arises from the fact that in Toronto the municipal officials are appointed for their strength A caretaker must be a strong man—politically.

The season for killing by the didn't-know-it-was-loaded artists, has opened by the killing of a seven year-old boy by hired man who playfully turned a loaded gun on his victim. The weapon should not have been carelessly left around in the first instance but no one is warranted in pointing a fire-arm of any kind loaded or unloaded, on a human being.

In the County of Kent, the Council of Chatham Township is offering a prize of $2 to every rural school pupil on which he or she locates the sow thistle for the first time. Prosecution of the owner of the property will follow. There are townships up this way, where a small reward for discovery of thistles would soon cause municipal bankruptcy. How are we off for the sow variety, neighbors-Get after all of the species.

Forty thousand men are to receive a short season of training in the militia camps of Canada this summer. The 22nd Brigade, which includes the Grey County Regiment, the Algoma Rifles, the Northern Pioneers, and the Simcoe Foresters will assemble at Owen Sound next month. While we all hope for a long period of peace, the nation does well to see to it that its defensive forces have some measure of preparation and though the annual period of drill is very short, it is better than nothing. Employeers of labour will no doubt co-operate to make it as easy as possible for the citizen soldiery to do their duty in this regard.

One gratifying feature of the celebrations in this, the Sixtieth Anniversary of Canadian Confederation, is the heavy increase shown in trained nurses. Sixty years ago trained nurses were almost unknown in Canada. Now in every great centre well-equipped hospitals are turning out large numbers of certificated nurses, very many of whom have chosen the vocation because of their desire to be increasingly serviceable to the afflicted.

It is a good thing at this season of the year, says The Craig Banner, to remind young people not to destroy the insectrivorous birds which render such countless and invaluable services to the farmer and the world at large. In many parts of the country insects have caused grievous damage for some years, both to the forests and the harvests. More attention, therefore, should be paid to the preservation of the birds which aid in the destruction of insects which attack crops and growing timber.

It is possible that the managers of Ontario prisons have short memories, otherwise it is doubtful if they would have taken "Bob" Cook from Orangeville to Toronto's jail prison over the Don. In that place of detention, not so very long ago, a notorious condemned murderer was supplied with a night watchman who went asleep at his post. The window in the cell was eighteen feet from the ground, but as if to aid a resourceful inmate a table was placed in the cell, upon which the prisoner mounted and crawled out. "Bob" Cook would no doubt heartily welcome such consideration at the hands of his detainers

Hanover's municipal forest is getting along well we are informed. When the 35,000 pine trees recently planted on the hilside from where Hanover gets its water supply get their growth, the town will have a very respectable wood—surrounding the Ruhl Lake reservoir. The example of our neighbors should not be lost sight of by other communities. There should be no waste lands left without trees. They may not prove an early crop but they grow while you sleep and generations to come will rise up to call thoseb lessed who are enterprising and energetic enough to plant trees that are to be had from the authorities for the asking.

OSPREY COUNCIL

The Municipal Council of the Township of Osprey met in a second sitting of the Court of Revision on Saturday, June 11. After the business of the court had been disposed of a session of council was held. Communications were read as follows:

The employer's Liability Assurance Corp. re Treasurer's Bonds. The County Treasurer, re arrears of taxes on Lot 2, Con. 6.

James Essex presented a petition requesting the opening of the 30th sideroad. The deputation was assured that the petition would receive due consideration.

The Clerk was instructed to write J. H. McQuarrie again re Coutt's drain.

The clerk was instructed to write all parties interested in the Wetherall drain, advising date of next meeting.

Edwards - Grummett—That the County Treasurer be authorized to erase all taxes now charged against Lot 2, Con. 6

Morrison - Edwards—That the entire Council and the Clerk be a committee to arrange for a Community Service to be held on July 3rd to commemorate Canada's Diamond Jubilee.

Council adjourned to reassemble at Singhampton on July 9th at 10 a.m.

ARTEMESIA COUNCIL

Artemesia Council met on June 4th as a Court of Revision on assessment of 1927. The members were all present, the Reeve presided. After each had made the required oath as such member, the Court opened.

Wm. Cargoe's appeal was dismissed; Geo. Clark's assessment was reduced $50; Archie Stewart' assessment was reduced $100; Oliver Turner's assessment on Eugenia property was reduced $50; W. E. Betts' assessment was reduced $50.

The Court then adjourned.

After such adjournment the Council met for general business. The minutes of last meeting were read and confirmed.

By-law 6, to authorize loan for current expenditure was introduced and passed.

Last week the Flesherton Advance commenced its forty-seventh year of publication and ended its thirty-ninth year under the management of the present editor and publisher, W. H. Thurston. The Post congratulates Mr. Thurston on the anniversary and wishes him and his bright, newsy journal many happy returns of the day.—Hanover Post.

The Flesherton Advance has just entered on the 47th year of its career. Of these years 39 have been under the supervision of the present editor, Mr. W. H. Thurston, who has our congratulations on producing for so long a period such a newsy and influential paper, and our best wishes for his future health and happiness. — Mount Forest Confederate.

ATTACKED BY BULL IN LIVE STOCK CAR

Mr. William Tomilinson a local drover while loading cattle at the stock yards happened with an accident, which might have proven fatal.

A Jersey Bull had broken loose in one of the cars, and Mr. Tomilson rushed in and endeavored to keep it from running out, as a result the bull knocked him down dislocating his right arm and badly strained the ligaments. As the man was in a helpless condition, some of the other drovers beat the animal off and managed to get him out of the car. Mr. Jasper Stuart at once drove the injured man to Dr. Bennett's office where he was treated.

Mr. Tomilison was no doubt badly shaken up after his experience, but is getting along as well as can be expected.—Meaford Mirror.

Messrs. T. J. Skales & Co. have placed in their front window a clock that is new in its way, and the latest thing in clocks. It is of French manufacture. It is run by electricity from a battery. It will start itself and will run for five years without winding or renewal of battery. It is very accurate and will not vary more than a minute in a month. What a lot of worry will be lifted when we don't have to wind our clocks every night, or even every week!—Mt. Forest Confederate.

Built for Endurance

BEHIND the beauty of Chevrolet there is an abundance of strength and stamina, just as there is a great store of surplus power. The rugged channel steel frame, the husky banjo-type rear axle, the powerful valve-in-head engine and every detail of construction combine to defy the ravages of wear and tear, of hills and ruts, of mud and sand, of extremes of climate and of hard, continuous usage.

As Chevrolet has been designed for beauty, powered for performance, planned for economy — so Chevrolet has been BUILT FOR ENDURANCE.

And this — the most Beautiful, the most Powerful and the most Rugged Chevrolet in Chevrolet History — is selling at new, low prices, the lowest for which Chevrolet has ever been sold in Canada.
