THE FORTUNES.

FROM HEINE.

Good Fortune is a fickle fair;
From place to place she loves to stray:
Back from your brow she sweeps your hair,
Kisses you quick, and springs away.

But Dame Misfortune, sad and slow,
Comes to your house and down she sits;
She says she's in no haste to go,
She stays beside your bed end knits.

A Hint.—He that would enjoy the fruit must not gather the flower.

A negro Baptist of the South said to his Methodist master:—

'You've read the Bible, I suppose?'

'Yes.'

'Well, you've read in it of one John de Baptist, haven't you?'

'Yes.'

'Well, you never saw nofin' about John de Metodist, did you?'

'No.'

'Well, den, you see dere's Baptist in de Bible, but dere aint no Mefodist, and de Bible's on my side, Massa.'

The friends of prosperity are birds that come to be fed, and fly away as soon as the crumbs give out.

A debator severely questioned as to the reason of his not paying a just debt replied: 'Solomon was a very wise man, and Samson a very strong one, but neither of 'em could pay their debts without money.'

A countryman recently came to town to purchase an article of household necessity, and in passing a music shop observed 'All sorts of wind instruments for sale here.' He forthwith stepped in and asked for a pair of bellows.

Don't Punish the Romps.—A celebrated female writer thus pleads the cause of little girls: 'I plead that she be not punished as a romp, if she keenly enjoys those active sports which city gentility prescribes. I plead that to make her accomplished, do not chain her to the piano, till the spinal column, which should consolidate the frame, starts aside like a broken reed—nor bow over her book, till the vital energy, which ought to pervade the whole frame, mounts into the brain, and kindles the brain fever.'

Keep out of debt, out of quarrels, out of law, out of politics, out of idleness, out of thin-soled shoes, out of damp clothes out of the reach of brandy and water, out of public office, out of matrimony, unless you are in love, and keep clear of the monstrous sin of cheating the Printer of his just dues.

CARROTS FOR HORSES BETTER THAN MEDICINE.—So says a correspondent of the 'Country Gentleman'—and he is right. We know a Right Reverend Doctor of Divinity who fed short-horn carrots to his horse, but was obliged to desist b cause they made him so frisky that he was afraid to let the ladies drive him. They are the best "condition balls" that can be used.

HEMLOCK BARK FOR DRAINS.—George Campbell, of Westminister, Vt., writes as follows in the "Ohio Farmer":—"Among the various materials that we see recommended for the construction of drains, I do not recollect of ever noticeing that of hemlock bark. In sections of country where the hemlock tree abounds, this is one of the cheapest and most durable materials to be found—Hemlock timber, cut in February or March, will peel in May, or as soon as we have a few warm days. June, however, is the best time to peel bark, and any one that is intending to do much at the business, would do best to cut his timber in June.

The bark for drains should be cut about four feet in length, and from twelve to fifteen inches in width, and spread out in the sun with the flesh side up, and it will roll up in a few days and be ready for use. If the bark is too thick for the action of the sun to do the work of rolling, a round pole of the size you want the drain can be used, and the bark pressed around and left to dry. It is as durable as tile, and not half as expensive. Try it."

FIRST PRIZE

WHEELER & WILSON

AND

SINGER

PREMIUM

SEWING MACHINES.

THE ONLY PRIZE awarded for Family Sewing Machines by the Judges at the Provincial Exhibition, held in London, Sept. 24th, 25th, 26th and 27th, 1861, was given to R. M. WANZER & CO'S Wheeler & Wilson.

The first Extra Prize was also given for their No's. 1 & 2 Singers Manufacturing Machines.

Prizes of a similar character were also awarded Wanzer & Co's Wheeler & Wilson and Wanzer & Co's Singer Machines over all others, by the Board of Arts and Manufactures, at the Mechanic's Institute, Toronto.

They also took First Extra Prizes at the several County Agricultural Fairs—at Hamilton, Paris, Galt, St. Thomas, Beamsville, Whitby, Cobourg, Bowmanville; in fact, in every place where they have been exhibited.

Wanzer & Co's Wheeler & Wilson, and Wanzer & Co's Singer, EXCEL any Machines that were ever manufactured in the United States or Canada.

Some parties from the States have been importing some fine looking, externally Wheeler & Wilson Machines, and claim to have received some prizes on them, which we will exchange for by them paying $25 cash, difference, thus saving the owner of the imported Machines the annoyance and expense of continually sending their machines to the States for repairs. The fact is out—as good Sewing Machines are being built and sold in Canada by

R. M. WANZER & CO.,

As ever were manufactured in the United States.

All genuine Wanzer & Co's Sewing Machines bear the stamp of R. M. Wanzer & Co Hamilton, on the plate.

The following are a few of the statements of those who have purchased and tested the ROGERS MACHINE.

HAMILTON, Aug. 22, 1861.

We, the undersigned, having used Rogers' Machine for about five months, would pronounce it a well built machine, the best material having been used in its construction and in performance of the work, perfectly satisfactory.

F. G. BECKETT & Co,
Machinists & Engineers.

I have had one of Rogers' Sewing Machines in my family for several months, doing all kinds of work, from making a fine lawn dress to making shirts, coats, and pants for myself and family, sewing with all kinds of thread. I am well satisfied with the Machine, and I would not dispense with it on any account. It is simple in construction, and not liable to get out of repair. I believe with care it will last a lifetime, and do for the next generation too. I can safely recommend the Rogers' Machine.

JOHN GRAY.
Dundas, Sept. 5, 1861.

We, the undersigned, having thoroughly tested the Rogers' Machine, have found it to be a first class article for Family use—In every respect equal, and in some superior, to any sold in the Province; and we heartily recommend it to the patronage and encouragement of the Canadian public.

TACKABURY'S NEW COPPER-PLATE MAP CANADA WEST.

MESSRS. TACKABURY'S BROTHERS, Map Publishers, of this city, have sent to this office an engraved proof sheet of a section of the large Copper-Plate Topographical Map of this Province, now in course of preparation by them. We are well satisfied with the artistic skill displayed in the execution of the engraving, which, to say the least, is fully equal to any engraved map we have ever seen, either in this country or Europe. Every intelligent person who examines these beautiful specimens will at once be convinced of the great superiority of this class of work, to maps lithographed or engraved on stone. This map is a complete survey of the country, showing each concession and lot, with their numbers—the towns, villages, post-offices, telegraph offices, railway stations, steamboat landings, &c., &c., with the general statistics of the Province. It is satisfactory to know that the publishers have met with that success in the canvass for subscribers, which renders the enterprize a complete success. They expect to have the map complete and ready to supply to subscribers during the coming winter.—*London Free Press.*

CAMPBELL'S

Mailing Machine.

This Machine is an indispensible appendage to the Newspaper Proprietors, and has been pronounced by the many publishers who have it in to be the greatest labour saving machine connected with their business. It is so simple in its construction, that a child can work it, and can make up a mail of several thousands without making a mistake.

The following are some of the notices in reference to its merits:—

Of the numerous addressing machines which the wants of the press have caused to be produced, we give the preference to that of Mr. Campbell, of Georgetown, C. W. It combines all the requisites of a good machine. It is simple of construction and operation, a boy being able to use it after a quarter of an hours practice; it takes up little room and is not liable to get out of order, and lastly though not lastly, it is cheap, only costing thirty dollars, out and out, no annual payment being demanded for liberty to use it. We have had one in our office for several weeks and find it a very great convenience indeed, as it enables a boy to make up our mail in one fifth of the time which used to occupy a man and boy to do it. Our experience justifies us, therefore, in recommending this useful machine to our contemporaries.—"Kingston Herald and Advertiser."

CAMPBELL'S MAILING APPARATUS.—The information that a desideratum so long and so extensively desired, has at length been found, meets found with grateful echo to many a newspaper publisher. They have in this invention a simple—for simple it is—and cheap substitute, in the form of compensation, for a great deal of valuable time and irksome labour. Nor is it its least recommendation that it is equally adapted to be wrought detached from all other machinery, or affixed to the engine of the steam press. A boy of twelve years of age can easily work it, when there is no motive power to apply to it. "Owen Sound Comet.

The Machines are for sale at Georgetown, C. W., by the Patentee, at from 50 to $60.

All orders punctually attended to.

We would here state that we are now prepared to supply all kinds of Nursery Stock on as good terms and at as low prices as any other Nursery in the Canadas or the United States.

All orders entrusted to us or our duly authorized agents, will meet with careful and prompt attention.

NOTICE.

If asked what was the best medicine for cleansing the blood, and for Bilious Complaints, Sick Headache, Costiveness, &c., we should say BRIGGS' INDIAN VEGETABLE LIFE PILLS.

MATHEWS' VENETIAN LIQUID HAIR DYE.

☞ This celebrated Dye was first prepared in 1815; since that time it has been Used by Thousands, and in no instance has it failed to give perfect satisfaction.

The Venetian Dye

Is the cheapest in the world. Its price is only Fifty cents, and each bottle contains Double the Quantity of Dye contained in those usually sold for One Dollar.

THE VENETIAN DYE

Is the safest composition of its class. It is warranted not to injure the hair, or the scalp in the slightest degree.

THE VENETIAN DYE

Works with rapidity and certainty. It causes no annoyance or trouble to those who use it.

THE VENETIAN DYE

Produces any shade that may be desired—one that will not fade, crock, nor wash out; one that is as permanent as the hair itself.

THE VENETIAN DYE

Does not in any manner, interfere with the natural softness of the hair; it neither scorches nor dries it.

THE VENETIAN DYE

Is the best, cheapest, safest, and most convenient, most successful, and most permanent Dye ever used.

THE VENETIAN DYE

Having gained an extended reputation, the public are Cautioned against purchasing any prepared in the same style, under the same or different name, as they are mere imitations, and liable to do injury.

For sale by all Druggists. Prepared only by

A. I. MATHEWS,
Buffalo, N. Y., and Fort Erie, C. W.

☞ Sold in Georgetown by Thos. Ruston.

LAW RESPECTING NEWSPAPERS.

1. Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions.

2. If Subscribers order the discontinuance of their Periodicals the Publisher may send them until all arrears are paid; and subscribers are responsible for all the numbers sent.

3. If Subscribers neglect or refuse to take their Periodicals from the office to which they are directed, they are held responsible till they have settled their Bill, and ordered their Periodicals to be discontinued. Sending numbers back or leaving them in the office, is not such notice of discontinuance as the Law requires.

If subscribers remove to other places without informing the Publishers, and their Periodicals are sent to the former direction, they are responsible.
