A quiet life, plenty of sleep and good plain food are helpful to young folks preparing for examinations.

The secret of health is the eating of onions. But the trouble is to keep it a secret.

A Pennyslavania man, after an absence of 40 years, has returned home to pay his debts. And no doubt a good many of the old boys would be glad to see him.

An automobile expert has figured it out that the average car, when travelling at fifteen miles per hour, uses one-half horse-power to overcome the resistance of the atmosphere. When the speed is increased to thirty miles an hour, the air resistance is ten horsepower to overcome it.

Over 300 Have Already Secured Driver's License

The garages in town have been kept busy the past couple of weeks issuing the new drivers' licenses and well over three hundred have already complied with the new regulations.

A feature of the new regulations is the stipulation that every such person must fill in his or her own application. These application blanks may be secured free gratis at any garage, or from the Chief of Police, and must be filled out before a permit will be granted, which costs $1.00. A reasonable time is being allowed for drivers to secure their license, but all drivers must secure one.

Experienced drivers—that is those who have driven a car for more than six months and at least 500 miles, can get their permit for $1 by filling out particulars of driving experience, physical fitness, etc., and by satisfactorily answering all the questions on the application form. To the inexperienced or "green" driver, an instruction permit, costing $1, and good for sixty days, will be issued. If in that period, such driver passes the prescribed test, he will be granted the ful license without any additional cost. If, however, an examination is not taken, he will be compelled to take out another instruction permit.

BASEBALL NOTES

Dundalk again showed their superiority over Kimberley in a League game in Dundalk on Monday afternoon when they "took-in" the boys from the Beaver Valley to the close score of 10-9. The game was real good, but Dundalk had the end on their visitors.

The defeat on Monday was Kimberley second to Dundalk in one week, having gone under to Mel Thompson's shoots in Markdale by a one-sided score on the Twelfth. It leaves the Kimberley aggregation with one win and two defeats.

Dundalk heads the League with three wins and no losses, and have shown unexpected strength this year.

At first it was expected by the most optimistic fans that Kimberley would have an easy time in the League, but first guesses seem to be away off.

The Flesherton team plays Kimberley in Flesherton this Thursday afternoon at 4 p.m., when they hope to get into the win column by defeating them. It will be a crucial game for Kimberley also, and both teams will be out battling to come out ahead.

In the last game with Dundalk Gus Morrison, the young Flesherton pitcher held Dundalk scoreless until the seventh inning by excellent pitching. With practice which he has received since he should make good in the game on Thursday. A big crowd is expected for this game and the fans are asured of a snappy game.

Last week The Advance inadvertently missed including the name of Stuart Ellis of Kimberley as one of the successful Entrance candidates at that centre. In the examination list of form one of the high school, Harold Turner received second class honors in history and geography and first class in art and agriculture, while Evelyn Turner received first class honors in history and art and second class in agriculture.

If called upon to change a tire or make a minor car repair while on the highway, one should remember to pull entirely off the road. If this is not possible at the place where the difficulty occurs, it is the part of wisdom to drive on for a short distance to find a better spot. Working on the left side of the car on a well travelled highway is exceptionally dangerous even in the daytime. At night, it may amount to foolhardiness.
