Cars Collided on Road 2 Miles East of Town

BOTH CARS BADLY DAMAGED BUT OCCUPANTS WERE NOT HARDLY INJURED

A bad accident occurred on Friday evening of last week when two cars collided at the top of the Genoe hill, two miles east of town. One car was driven by Mr. George Johnston, Rock Mills, and the other by Mr. Russell Irwin of Proton Station. Both cars were badly damaged in the melee.

The accident occurred at about ten o'clock at night while Mr. Johnston was on his way home and it is supposed that the lights from the cars blinded the drivers for the moment and the wheels of both cars locked. Both wheels were stripped from the Johnston car, the fenders, radius rods and axle badly bent. The Irwin car car turned over onto its side by the impact, one of the occupants being thrown out. He was saved from serious injury when the door of the car came open and prevented it from falling on top of him. This car also had a wheel taken off and other damage done besides. Both cars were coups of the same model. Repairs were made at a local garage on Saturday.

Come to the Priceville Presbyterian church garden party on the public shcool grounds on Friday, August 5th. Hear the Brunswick Trio of London, Prof. Kyle and other entertainers. Admission 50c. and 25c.

What is your biggest asset?

The young people have the right idea about the importance of keeping up one's friends. Their modern point of view is that your friends are your biggest asset.

Keeping them up becomes a very simple matter when you can so easily call them by Long Distance. The service was never so quick, and to Interurban towns (within a radius of say 25 miles) the rate is particularly low.

The finest kind of a habit is to have one day each week for calling up a friend or friends by Long Distance. The benefits are often quite startling.
