W. H. THURSTON, - Editor

WILL WE ALL FLY

In view of recent achievements in the air the question is asked. Will the time ever come when human flying will be perfectly safe? Who knows? Think of the advances which have been made since Barnum brought Donaldson around with his show, and that was less than 50 years ago. It is within the bound of possibility that our successors on this planet may forsake "fliyers" for individual planes and go careering around the sky to their heart's content. Our forfathers were really asked to accept on faith propositions almost as unlikely, to the great alarm of many flier fellows. For example less than a hundred years ago the school board of the town of Lancaster, Ohio, were requested by an organization of "advanced readers" to permit the use of the school room in which to consider the then momentous question of whether or not railways were practicable or desirable. The reply of the sapient educations is illuminating "you are welcome" they told the applicants to use the schoolroom to debate all proper questions in, but such thing as railroads and telegraphs are impossibilities and rank infidelity. There is nothing in the word of God about them. If God had desired that his intelligent creatures should travel at the frightful rate of fifteen miles an hour by steam he would have foretold it through his Holy prophets. It is a device of Satin to lead immortal souls down to Hell. There is however, not much greater absurdity in this declaration of these wise school managers than is to be found in the constitutions of our Twentieth century cities of their fellows who believe in progress. The Canadians of 2027 may be a nation of fliers and may have much hilarity over the skeptism of their forefathers.

EDITORIAL NOTES

We recently printed extracts from songs of Bolshevist character, as sung by revolutionary socialists in Great Britain; but even more extraordinary ballads are burned to account by lawless men in Ireland. For example, two men had quoted against them a lallad found in their possession on their arrest in Lungan County, the refrain which ran:-

We are the boys from Banbrook Hill
We never worked andnever will;
We'll rob and stale and go to jail,—
We will, we will.

It was stated in court that the prisoners made their living by robbery and having regard to the ballad they were sent to prison for six months.

* * *

It is well to remember that if we do not make progress in life we must make room for some able fellow who will.

* * *

The Prince of Wales, speaking in Calgary caused much hilarity by confessing that he had learned to know that the difference between "rawnche" and "ranch" was the difference between a farm that paid and a farm that did not pay. Namely he added, amid much laughter, that he made no confession which class his possession was in.

WON GUESSING CONTEST

During the large mid-summer sale at Haw's store, Ceylon, which closed on Saturday, a guessing contest was conducted with several bottles of beans and the winner was to receive a bag of sugar as a prize. Mrs. John Stewart of West Back Line, Artem. was the lucky winner with a guess of 4388 beans in the bottle, the total number amounting to 6348. Large crowds took advantage of the low prices and the sale was very successful.

Extra Fair Specials

Specials which came too late to be printed in Prize Lists of Flesherton Fall Fair.

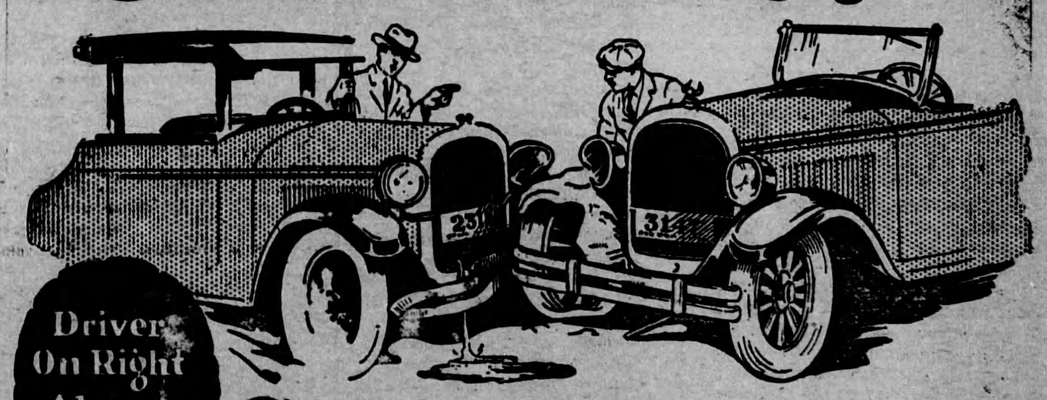
Crash!!



Driver On Right Always Has Right Of Way

Somebody Disobeyed the rules

Of course it's always the other chap who is in the wrong—but that doesn't lessen the damage to the innocent party's car—or person.

Motoring could be so much more pleasurable . . . so much safer . . . if we would only observe even the ordinary well known rules of the road.

Let's get out the little old rule book, and brush up on regulations. And what's more, let's begin to observe them as we never did before . . .

And soon life will be more pleasurable . . . and safer . . . for motorist and pedestrian alike.
