Several newspapers in New York have been indicted for advertising places for the sale of lottery tickets.

A monster ironclad, 14,000 tons register, and with armour three feet thick, was launched in Italy Thursday in the presence of the King. She is the most powerful iron-clad ever constructed.

Accounts from the West of Ireland report an alarming state of affairs there, and it is declared that several well-known landlords are marked for assassination on the first opportunity.

A report comes from Fort Ellice, N. W. T., of the outbreak of war between the Salteaux, Stoney, and Mandrill Indian tribes, and that a number have been killed on both sides. There is a prospect of the war being transferred to United States territory.

It looks odd to see our Government building a tariff wall against the United States to keep trade out, while offering a bonus of $50,000 to a company to bring Brazilian trade in, especially as the United States and not Brazil, is Canada's natural market.—*Telegram.*

Of the last lots of Mormons embarking from Liverpool and Glasgow for Utah, 1,500 have been Welsh miners. It is a striking fact that the Mormons have never yet got a recruit in Ireland, and have hardly yet got one anywhere who was a member of the Protestant Episcopal or Roman Catholic churches.

According to recent statistics, taking 1,000 well-to-do persons and 1,000 poor persons, after five years there remained alive of the prosperous 943, of the poor only 655. After fifty years there remained of the prosperous 557, of the poor 283; at seventy years of age there remained 225 of the prosperous and of the poor 65.

Moody and Sankey have of late labored separately, and stories of a disagreement between them have been told. These have generally related to the profit on the extensive sale of Sankey's hymn books. But the two evangelists are to be paired again next winter for a revival campaign in San Francisco, where preparations are making for a powerful on-slaught on sin.

One of the most useful agents for the prevention and cure of the horse distemper now prevalent is India curry powder. A dose of a teaspoonful on the tongue of the animal morning and night keeps it in good health and condition. If well, it wards off the disease; or if ill, it restores the appetite and tones up the system so that the patient is readily enabled to overcome the debility of the disease. The *Sun* published this prescription eight years ago as from an East Indian cavalry officer. I tried it in my stable on seven horses with entire success. In every instance it restored the lost appetite of the sick, and with a diet of scalded oats, apples, or carrots, or rutabagas, and cleansing of the nostrils by frequent washings with castile soap and tepid water, the disease soon abated. Others, to my knowledge, who pursued the same course of treatment, met with equal success, the recovery being rapid and permanent in every case.

New York, October 5th As Mrs. Rachel Dederick, of Cairo, Greene county, N. Y., was crossing a field of blackberry brush she was stopped by a queer sound. Her acquaintance with snakes soon satisfied her that the noise was the whistle of a black snake known as racer, and she started on a run. The snake soon overtook her, and immediately began coiling itself about her body. With only a small tin pail as a weapon of defence, she fought desperately, but at a disadvantage, and the coils were drawn tighter until the snake got one around her neck and throat and she fainted. Her husband, having heard her screams, hurried to her relief, and found her unconscious on the ground. He killed the snake and carried his wife home, but she carried for days a blue mark about her throat. The snake was as large around as a man's wrist and nearly twelve feet long.

Andrew Wishart and Nicholas Simpson yesterday sold their two-thirds interest in the Oro Fino gold mine, Strawberry Gulch, to the well-known capitalists of this city for $75,000, $10,000 down and the balance in a short time. This, in our opinion, is one of the most promising mines in the Hills. Gen. G. E. Cunningham owns the remaining portion of the mine. A run has been made of the ore from this mine on the Sunday mill that cleared up $12.40 per ton. In all probability there will soon be a first-class mill put up in Strawberry, and it will be the forerunner of several others.—*Deadwood City Times.*

The Andrew Wishart mentioned in the foregoing paragraph is the second son of Kenneth Wishart, Esq., of West Flamboro'. He has been engaged in prospecting and mining for ten or twelve years, and his many friends in this locality will be pleased to know that he has struck a fortune.—*True Banner.*

## NORTHWEST INDIAN BATTLE.

SANGUINARY ENCOUNTER—MANY CANADIANS KILLED.

WINNIPEG, Oct. 7.—Later details from the Northwest would seem to indicate that a severer struggle than at first supposed has taken place between the Canadian and American Indians. The trouble took place at Missouri Coteau, a range of hills extending from the international boundary in a northwesterly direction towards Old Wire's Lake. The Canadians were from Ocean Man's and White Bear's bands near Moose Mountain, seventy miles' northwest of Fort Ellice, where they went down to the international boundary in pursuit of buffalo. The Americans, comprising Handan and Gros Ventres, from Montana, opened fire upon the Canadian Indians with Winchester repeating rifles. The fight was kept up all day, all the male Canadian Indians being killed, as well as a number of women and children. One American Indian was found dead after the combat. On their retreat he was scalped, and a war dance took place over it at Fort Ellice.

Charles Cluthe's Pat'd Spiral Truss Pad has been the result of many years' study and material experience. Its perfect adaptability for Rupture is proven by the thousands now in use. Among its many advantages are, a gentle, constant and even pressure; it gives to the motion of the body without friction; complete ventilation (as shown in engraving); a clamping pressure which does not open (as all oval pads) but closes the aperture of Hernia, hence only one-third pressure is required. It is this latter feature that has made this truss so eminently successful and proved a Radical Cure of from 50 to 70 per cent. of cases treated. This Truss cured persons of over 50 years of age. Only one belt round the waist, *no leg strap* and no springs required for its use.

Apparatus for straightening Spinal Curvature, Hip Disease, Bow Leg, Wry Neck, Club Foot, etc., made on most scientific principles.

I will be at J. H. McCollom's Drug Store, Milton, on Wednesday, Oct. 13th for consultation from 11 to 12 a. m. & from 4 to 6 p. m.

A full stock of my Trusses are kept constantly on hand by Mr. McCollom. Give him a call.

**The Most Valuable Gifts—Restoration of the Health.**

During the past ten years the Great Shoshonees Remedy has faithfully redeemed every promise and guarantee made to the public. Alarming and apparently hopeless cases of Lung Diseases, Dyspepsia, Liver Complaints, Afflictions of the Kidney and Chronic Complaints of every description, including Scrofula and Skin Diseases of lifelong duration, have been permanently removed and eradicated. Those who volunteered their testimony to the efficacy of the Remedy, are not bogus people in unheard-of localities of foreign countries but respectable citizens of this country, easy of access and open to question, upon whose verbal recommendations we are willing to rest the reputation of the Great Shoshonees Remedy. If you are afflicted, do not delay until medicine may be powerless to aid you. No injurious effects can possibly follow the use of these Indian Remedies, as they contain no minerals, by which the fate of the invalid is so often sealed under the form of some temporary sedative or stimulant. These Indian Remedies are widely knew and still possess the public confidence, after the lapse of sufficient time to test their efficacy.

The Shoshonees Vegetable Sugar-Coated Pills have won for themselves the most favorable reputation of any pill before the public. Their efficacy has been fully proved as a remedy for biliousness, Sick Headache and inactivities of the stomach. Price of the Remedy in pint bottles, $1; Pills, 25 cents a box. Sold by all medicine dealers.

## ☞ READ THIS!

JUST WHAT all horsemen should know and have is a large bottle of **Kennedy's Lightning Remedy.** A book of 32 pages goes with each bottle that teaches the art of cyphering shorthand; this book also instructs any man how to cure heaves in horses; remove a wart from a horse; to cure colic without medicine; to physic a horse; to make condition powders; to cure bone spavin, curb, splint, ringbone, sweeny, or to remove a pipe where a running sore is formed, and to cure founder; all to be done without the use of the burning irons or knife, and not put the horse out of use, as you can work him every day or turn him out to grass. I will forward it to any address upon receipt of $1.00.

You will only hear one sentiment, and that is, that a bottle of Kennedy's Lightning Remedy is worth a hundred of any other preparation for curing everything.

I can cure any bog spavin or thoroughpin on a horse in 5 minutes.

## CATARRH
CONSTITUTIONAL
Catarrh Remedy
CURES CATARRH.
Thousands Applaud Its Wonderful Cures.

**Hear what a Reverend Gentleman says of the Constitutional Remedy.**

To J. B. HARDING, Esq.,
BROCKVILLE, ONT.

DEAR SIR.—It is now two years since your "Constitutional Catarrh Remedy" was introduced to me. I have waited this long to see if the cure would remain permanent before doing this, my duty, to you as at first the happy effects seemed to me to be "too good to be true."

I was afflicted in my head for years before I suspected it to be Catarrh. In reading your circular I saw my case described in many particulars. The inward "drop" from the head had become very disagreeable, and a choking sensation often preventing me from lying long, I would feel like smothering and be compelled to sit up in the bed. My health and spirits were seriously affected. When your Agent came to Walkertown in August, 1876, I secured three bottles. Before I had used a quarter of the contents of one bottle I found decided relief, and when I had used two bottles and a third, I quit taking it, feeling quite cured of that ailment, and have not used any since until of late I have taken some for a cold in my head.

A sense of duty to sufferers from that loathsome disease, Catarrh, prompts me to send you this Certificate, unsolicited, with leave to make what use of it you may see proper.

Yours truly,
W. TINDALL, Methodist Minister.
