F. T. HILL & Co., Limited, Markdale

Varieties of Fall Turnips.

There is a limited acreage of fall turnips grown in Ontario each year. Roots of this class usually yield more per acre than the Swede turnips, but they do not keep so late into the winter. Other names for fall turnips are Soft turnips and White Flesh turnips.

Two varieties of fall turnips have been grown under test at the College in each of the past seventeen years, and the following gives the average annual results in tons per acre of tops and of roots for each of the varieties: Red Top White Globe, 4.0 and 26.8, and Cow Horn, 5.7 and 19.7. In 1918, the Red Top White Globe gave 21.2 and the Cow Horn 15.5 tons of roots per acre. In comparison with these in the test of the past year the Sutton's Purple Top Mammoth gave 20.8, the Sutton's Imperial Green Globe, 18.8, and Kelway's Green Globe, 16 tons per acre.

Buttermilk for Chicks.

Chicks fed buttermilk until they are 48 to 72 hours old will give them a better send off than water alone. When the chicks are first placed in the brooder they should be given all the fresh buttermilk they care for. It is better than water because it gives the chicks more strength and allows the digestive system to get in better working order.

The Home Orchard.

The ideal home orchard should contains several kinds of fruit, represented in many cases by a considerable number of varieties ripening one after another over a long period. Large yields, good shipping quality, and attractiveness in appearance all may be made secondary to high dessert quality or special excellence for cooking purposes.

Articles to be Sold by Private Sale

To be sold at once.
DR. A. TURNBULL

will sell by private sale the following: Kitchen Cabinet, Kitchen Table and Chairs, Folding Couch, Linoleum, Electric Toaster, 2 Verandah Chairs, 4 Burner Oil Stove, Lawn Mower, Rake, Hoe, Shovel, Ash Sifter, Watering Can, Wash board, Copper Boiler, 1 Quebec Heater, Electric Heater, Axe, Clothes Horse, 3 Hanging Pots, Flower Pots, 5 gal Coal Oil Can, Cupboard, Axminster Rug, 9 by 12, Quantity of quart sealers and stove pipes.

Rates on ocean going vessels have been reduced 10 to 20 per cent. Must be a case of being afraid of competition from airplanes and long distance swimmers.

Big Crowd at the Rural School Fair on Thursday

One of the best fairs yet held by the Rural School Fairs Association was that in Flesherton on Thursday of last week at the Agricultural grounds. The exhibits in the hall were more numerous than other years and the quality of vegetables and flowers were especially good. The main outside attraction was the parade of the schools. Rock Mills wining first prize under the direction of Mrs. F. J. Sceley, the teacher, who had the children excellently trained,, their marching and school yells creating considerable comment. The Eugenia school came second, with Port Law third and Springhill fourth. Races for children of all ages and for the trustees of the township were indulged in and prize ribbons were awarded to the winners.

In the hall the larget exhibit was in the potatoe section. Thirty entries were made in the Dooley potatoe class wah Merle Allen of Springhill taking frst prize. Clifford Allen, also of Springhill won first in the half bushel of potatoes from the home garden, twenty - two other entries being in the class.

There were several classes of prizes awarded that were not in agreement with, but on securing the judges and finding their reasons, enlightened us on why the award was made. The judges are glad to make explanation and to assist the exhibitors in any way.

Master Billie Patton of the Flesherton school, we believe, has a good chance of securing the silver cup for the highest number of points at the Fair. his total winnings amounted to $3.50.

We hope to print the list of winners at the school fair in next week's issue.

Airplane at the Fair

Final arrangements have now been made to have one of the best fairs in Flesherton on Thursday and Friday in the history of the local Association. An airplane will be in attendance on Friday to take passengers for rides. This is an ideal chance to see a plane at close range and experience the thrill of coasting in the air. The entries are coming in fast and the prospects are for a record-breaking exhibit in the hall. The special attractions ensure a good time for all, both in the afternon and in the evening.

Inspector Huff Resigned

At the school fair held here on Thursday last, Dr Samuel Huff, inspector for East Grey, intimated that he had handed in his resignation to the Department of Education, to take effect at the end of the year. Dr. Huff has been Inspector in this part of Grey county for a great number of years; he is not now a young man, and realizes that it is getting more difficult to carry on his duties.

DIED

McGEE—At Vandeleur, on Tuesday, September 20th, 1927, John James McGee, aged 67 years and 5 months. The funeral is to take place Thursday, September 22nd. Service at 2.30. Interment will take place in Meaford Road cemetery.

IMPROVEMENT AT FACTORY

The appearance of the east wall of the Durham Furniture Company building has ben very much improved by a large sign indicating the business of the company and what it manufactures. Heretofore, in approaching the C. N. R. station it was rather dificult for a stranger to know exactly what the big bulding housed. To all appearances it might have been either the headquarters of the International Bible Students or one of the recently opened Government Control breweries. However that's all settled now. It is a furniture factory.

USE THE LIGHTS NOW

The London Advertiser points out that, although the new law requiring lights on horse-drawn vehicles does take effect until te first of October, there is nothing to prevent the use of such lights in the meantime. The new law provides that "every vehicle other than motor vehicle, a bicycle, or a tricycle, when on a highway after dusk and before dawn shall larry in a conspicuous position on the left side thereof a lighted lamp showing white to the front and red to the rear." This law does not rome into effect for a few week yet but in the meantime lives may be saved or serious injury avoided if drivers of all vehicles will take the precaution of using lights when driving at night.

Being old fashioned is not a crime; it is merely a joke to the young.

Energy used on the golf course every afternoon would furnish power enough to mow 70,000 lawns, beat 60,000 rugs and wash 187,254 dishes.

A London young lady is said to hold the record. She has never been late or tardy from school in 14 years. There's a girl who will make some man a good alarm clock.

Furniture fo Sale

I am ofering for private sale considerable furniture consisting of the following:
Quebec Range,2 Dining Room Table Chairs, 2 Dressers, Floor Lamps, Wall Electric Fixtures, Chesterfield, Several Easy Chairs, Electric Washer Batty Bros make, 1 rug.
