EXPENDITURES ARE RAISING ON SHEEP KILLED BY DOGS IN ARTEMESIA TOWNSHIP

The menace to sheep breeders of dogs running at large at night throughout the township still continues, without abating any, since the by-law was passed prohibiting dogs from running at large between seven p.m. and six a.m. Already the claims for sheep killed and worried by dogs has amounted to nearly three hundred dollars more than the whole of last year. Up to October 1st the council of the Township of Artemesia has paid out in sheep claims $868.75, and the total for the whole year of 1926 only amounted to $590.75, and we understand that there are several claims already to be dealt with at the next council meeting.

The by-law prohibiting the dogs running at large after night seems to be regarded by dog owners in the township with indifference as very few take the trouble of seeing that their dogs are closed in. At nomination time in various discussions we hear reference made of a councillor spending a few dollars here and there where the speaker thought the expenditure was not called for; or a piece of work that was not up to much; and blamed the council thereby adding to the tax burden unnecessarily. Now, if the tax payers working with the council in keeping the tax rate down, no better way could be found than complying with the Dog By-Law, as passed by the council.

Mattress Talk

I suppose some of you have been buying cotton goods and are made aware that prices are due for a big advance, owing to the cotton crop being flooded last spring. It is estimated that the cotton crop will 75% higher this fall. As the wholesalers buy their supplies in the fall, mattresses are raising in price very rapidly. We have been trying to look after your needs in this line and have a good stock at the old price for the next two weeks only. We expect new orders in at that time, so if in need of a mattress get busy. Our prices range from $7.50 up to $24.00.
