Expensive Day's Hunting

The few deer which remain in Simcoe County, which is closed to hunters the year around, are going to be given full protection, if such is at all possible, according to Game Warden McGregor and his assistants. On Saturday, Nov. 9th near Angus, where the snow in the bush was reported a foot deep, the overseers came across James Davidson, his brother, William and John Latimer, all of Angus. They carried a 40-82 Winchester, 32 Remington and a 30-30 Savage respectively. The guns were seized and the men halted before Magistrate Jeffs, each paying $22.50 representing a fine of $20 and costs. They had been in the bush but a short time when the officers noticed their auto parked by the roadside. They were charged with illegal hunting in Sunnidale and Essa.

St. Vincent Barn Was Burned With Stock

Fire destroyed the barn and contents early Friday morning at the farm of Mr. Hartley Lambe, 3rd line St. Vincent. The farm is under lease to Mr. Geo. Rice. The fire broke out about 4.30 o'clock and Mr. Rice knew nothing of it until the reflection of the flames on his bedroom window woke him up. The fire had gained such headway that nothing could be done to save the building. Some of the live stock including hens were saved, but the season's crop three horses one cow and one pig perished in the fire. The pump house and henhouse were also destroyed but the hard work of the neighbors saved the drive shed. The barn was a substantial structure 30 by 68 on a stone foundation. It is partially covered by insurance as were the contents.—Meaford Mirror.

GOOD MORNING!

There once was a driver named Morning.
Who refused to heed any warning;
He drove on the track
Without looking back—
So they're mourning this morning for Morning.

Would You Pump 100 Gallons of Water for One Cent?

ADVISORY SERVICE

NO one could hire you for such work at such a price—yet how many tons of water do you pump—how many miles do you walk between your house and the hand pump each year?

A Duro Water System will relieve you of all this drudgery. It will work for you year after year at the rate of only one cent per 100 gallons of water pumped!

Is it worth while to endure the drudgery of the hand pump and pail when a Duro Water System will work for so little? It's first cost is low—lower now than ever before. Convenient terms can be had.
