DANGER IN DELAY

Kidney Diseases Are Too Dangerous for Milton People to Neglect.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy, Booth's Kidney Pills, which have cured people right here in Milton.

Mr. Geo. Morley, of Milton, Ont., says:—"After having tried many advertised pills for inflammation of the bladder that caused me to suffer with severe pains in this region, without receiving relief I commenced the use of Booth's Kidney Pills obtained at Higinbotham's Drug Store. This remedy was highly recommended for troubles of the kidneys and bladder and I have found by using nearly two packages that it is all that it is represented to be. for I have been greatly benefitted by its use. It has done me the most good of anything tried, so that I can with gratefulness and pleasure recommend it to others."

WHITEWASHING COAL.

Not Done For the Sake of Neatness, but to Prevent Thefts.

Persons who have been somewhat astonished by having whitewashed coal delivered to them will be interested to know that the whitewashing is not done to improve the appearance or to increase the burning qualities. The treatment neither improves nor harms the fuel.

It is a detective scheme on the part of the railroads to locate and to prevent theft of the coal as it is hauled from the mines to the consumer. These depredations amount to thousands of tons annually, and the railroads are the sufferers, as it is up to them to deliver as many tons at their destination, often a thousand miles away, as were weighed in when the car was turned over for transportation.

Two or three tons may be removed from a carload containing forty tons without attracting attention to its decreased quantity until the car is again placed on the scales. To locate the loss, says Popular Mechanics, limewater is sprayed over a carload of coal. In a short time the water has evaporated, leaving a load of white coal. Then removal of any coal leaves a big black spot, which is quickly noticed by inspectors and station agents and the leak found and stopped.

A QUESTION OF BAIT.

Should the Beggar Leave Few or Many Cents In His Hat?

"One thing that I've never been able to settle in my mind to my own satisfaction," said a street beggar whose specialty is sitting on a step and holding out his hat to passersby, "is the question of how many pennies it is wise to have in the hat for people to see as they go by. Of course you understand there are two theories on this. Working on one you leave there only a few, just three or four pennies scattered around irregular, but pretty far apart, and on the other you leave in the hat a lot of pennies.

"Of course the idea of the first plan is to make people when they see how little you've got want to chip in and help, and the idea of the other plan is to stir people up to generosity by showing them how generous others have been, and there's a heap to be said for that. There's lots of people that give because other people have given—because they like to go with the crowd.

"I've tried both plans and had good days with lean bait and bad days with a full bait in the hat, and then I've had good days with a full bait and bad days with a lean bait. All you can do is, if one plan doesn't work well, try the other. You never can tell."

More bread and Better bread
—And the Reason for it

A STRONG FLOUR can only be made from strong wheat. Manitoba hard wheat is acknowledged the strongest in the world—and that is the kind used for Purity Flour.

But that's not all. Every grain of this wheat contains both high-grade and low-grade properties. In separating the high-grade parts from the low-grade the Western Canada Flour Mills put the hard wheat through a process so exacting that not a single low-grade part has the remotest chance of getting in with the high-grade.

Of course this special process is more expensive to operate but it means a lot to Purity flour users—that's why we use it.

It means that Purity Flour is made entirely of the highest-grade flour parts of the strongest wheat in the world.

It means a high-class, strong flour and therefore yields "more bread and better bread."

Purity may cost a little more than some flours, but results prove it the cheapest and most economical after all.

THE JEWISH SABBATH.

Its Influence on the Habits of the Hebrew Children.

The Hebrew Sabbath, including its complicated preparations, is rich and impressive material for a child's imagination. On Thursday evening the mother already prepares dough, goes to market, cleans the fish, etc., says the American Hebrew.

In the morning comes the baking of "chales" (bread). How bewitching for a child to watch the mother making different shapes of dough, smearing it with egg and decorating it with braids of different shapes and forms. A Jewish child gets the first lesson in modeling by making make believe "chales."

In the evening the mother prepares to meet the Sabbath. The child partakes in the household occupations and therefore gets habits of industry, order and regard for the rights and ideas of others and the fundamental habit of subordinating his activities to the general interest of the household.

This is especially true in regard to Jewish households where everything seems to be prescribed by law. Before darkness sets in on Friday the housewife lights in the dining room extra candles or a special lamp in honor of Sabbath and reads the blessing.

Quite often a child not yet able to talk will cover its face with its little palms, imitating the gestures of the devoted mother. The returning from the synagogue, the appreciative greeting "Good Sabbath," the Kiddush, the blessing over wine, the special menu and the holiday spirit of all who participate have undoubtedly a soothing, beneficent influence upon the child. After supper the time is spent in resting.

A Queer Deception.

Wanted.—By a lonely, childless couple, a baby to adopt; good home and kind treatment. X. Y. Z.

A mother of seven, reading the above advertisement, almost choked.

"How sad!" she said. "How touching! I am very sorry for the poor, lonely pair. I do hope they get a nice baby."

But her husband, a detective, grunted.

"That advertisement," he said, "comes ten to one, from a baby farm. Whenever you see an advertisement like that you can be reasonably sure that it is some money making dodge. Were you to answer it you'd find that you would be expected to pay $2 or $3 a week board for the adopted babe.

"Babies are very, very plentiful. There is no need to advertise for them unless you want them for money making purposes—unless, like a baby farmer, you handle them in wholesale lots commercially."—New Orleans Times-Democrat.

Mails at Gowganda.

The amount of mail handled at the postoffices at Elk City and Gowganda would surprise anyone who is not aware that these places are the centres to which men scattered over many miles of territory come for news from the loved ones at home.

For several weeks past the mails for Gowganda have been delivered to Long Pointe Lake, 12 miles east of Gowganda. From this point men pack the mail sacks on their backs over the road cut, which is now being stumped and prepared for the graders. Four big sacks of mail were brought in the other morning. As no second-class matter is being packed through this means that the sacks were filled to the top with letters. There must have been thousands of them, and the postal staff were engaged for hours in sorting them. This was no easy task as the postoffice is located in a little building scarcely larger than a packing case.

RADIANT HAIR

New York Society Women's Hair Matched Only by Parisians.

While much attention is given to choicest gowns by New York society women, the turbulent fad just now is the care of the hair.

For many years the clever women of Paris have been famed for the magnificent beauty of their hair.

"Glorious hair," a Virginian calls it; "so radiant and luxuriant that it not only attracts but fascinates and compels unstinted admiration."

But now that the elite of New York, ever anxious to improve their beauty, have learned that Parisian Sage, a remarkable and almost marvelous hair nourisher and beautifier, is almost entirely responsible for the charming hair of the ladies of France, the demand for it has become enormous.

Parisian Sage is now sold all over Canada and in Milton by Higginbotham Drug Co., who are glad to guarantee it to eradicate dandruff, stop falling hair and itching scalp in two weeks or money back. Large bottle 50 cents.

Make Each Animal Worth 25% Over Its Cost
On ⅓ of a Cent a Day

Nobody ever heard of "stock food" curing the bots or colic, making hens lay in winter, increasing the yield of milk five pounds per cow a day, or restoring run-down animals to plumpness and vigor.

When you feed "stock food" to your cow, horse, swine or poultry, you are merely feeding them what you are growing on your own farm.

Your animals do need not *more* feed, but something to help their bodies get all the good out of the feed you give them so they can get fat and stay fat all year round; also to prevent disease, cure disease and keep them up to the best possible condition. No "stock food" can do all these things. ROYAL PURPLE STOCK SPECIFIC can and does. It is

Not a "Stock Food" But a "Conditioner"

ROYAL PURPLE STOCK SPECIFIC contains no grain, nor farm products. It increases yield of milk from three to five pounds per cow per day before the Specific has been used two weeks. It makes the milk richer and adds flesh faster than any other preparation known. Young calves fed with ROYAL PURPLE are as large at six weeks old as they would be when fed with ordinary materials at ten weeks.

ROYAL PURPLE STOCK SPECIFIC builds up run-down animals and restores them to plumpness almost magically. Cures bots, colic, worms, skin diseases and debility permanently.

Dan McEwan, the horseman, says: "I have used ROYAL PURPLE STOCK SPECIFIC persistently in the feeding of 'The Eel,' 2.02¼, largest winner of any pacer on Grand Circuit in 1908, and Henry Winters,' 2.09¾, brother of Allen Winters, winner of $36,000 in trotting stakes in 1908. These horses have never been off their feed since I commenced using Royal Purple Specific almost a year ago, and I will always have it in my stables."

Royal Purple
STOCK AND POULTRY SPECIFICS

One 50c. package of ROYAL PURPLE STOCK SPECIFIC will last one animal seventy days, which is a little over two-thirds of a cent a day. Most stock foods in fifty cent packages last but fifty days and are given three times a day. ROYAL PURPLE STOCK SPECIFIC is given but once a day, and lasts half again as long. A $1.50 pail containing four times the amount of the fifty cent package will last 280 days. ROYAL PURPLE will increase the value of your stock 25%. It is an astonishingly quick fattener, stimulating the appetite and the relish for food, assisting nature to digest and turn feed into flesh. As a hog fattener it is a leader. It will save many times its cost in veterinary bills. ROYAL PURPLE POULTRY SPECIFIC is our other Specific for poultry, not for stock. One 50 cent package will last twenty-five hens 70 days, or a pail costing $1.50 will last twenty-five hens 280 days, which is four times more material for only three times the cost. It makes a "laying machine" out of your hens; summer and winter, prevents fowls losing flesh at moulting time, and cures mouldy chickens. Every package of ROYAL PURPLE STOCK SPECIFIC or POULTRY SPECIFIC is guaranteed.

Just use ROYAL PURPLE on one of your animals and any other preparation on another animal in the same condition: after comparing results you will say ROYAL PURPLE has them all beat to death, or else back comes your money. FREE—Ask your merchant or write us for our valuable 32-page booklet on cattle and poultry diseases, containing also cooking receipts and full particulars about ROYAL PURPLE STOCK and POULTRY SPECIFICS.

If you cannot get Royal Purple Specifics from merchants or agents we will supply you direct, express prepaid, on receipt of $1.50 a pail for either Poultry or Stock Specifics.

Managing a Servant.

One housewife declares that at last she has solved the servant problem. "Formerly I had untold trouble with my maids," she said. "They'd do well for awhile, and then they'd deteriorate so that I simply couldn't keep them. So I hit on this plan: When I noticed a falling off in the last maid's work I went into the kitchen and told her that, in addition to her fixed wages, she should have 50 cents extra every week that she did well. When she was only fairly good I'd give her a quarter, but on the weeks when she displeased me she'd get nothing. Nine weeks out of ten she gets her half dollar. It pleases her immensely, and I find the plan well worth while in the better service it secures me."

The Poet's Woe.

"I have always been a reader of your poetry," began Mrs. Gushe.

"I am glad," replied Algernon Charles Mystic, "that some one understands me."

"Oh, but that is what I have been hoping to meet you for. I wanted you to explain."

McClure's Magazine.

The contents of the January number of McClure's include the first installment of Xavier Paoli's "Recollections of Kings and Queens of Europe," memories of Elizabeth of Austria; "The Story of Eugene Aseff; in unmasking of Russia's secret police system, by David Soskill; "The Ferrar Trial," an account of the court martial and execution of Ferrar, the Spanish radical, by Percival Gibbon, and "Billions of Treasure," in which John E. Lathrop and George Kibbe Turner ask whether the mineral wealth of Alaska shall enrich the Guggenheim trust or the United States treasury. Besides these important articles there are complete stories by Clara E. Laughlin, David Henry Day, and Stella Wynne Herron, a play "What the Public Wants," by Arnold Bennett, and poems by Amanda Matthews, Mahlon Leonard Fisher and Theodosia Garrison.

The Day of Rest.

"And now," said Mr. Fishbeck of Billville, "let us be thankful for one day of rest and get ready for church."

"Yes," said his wife, "run out and chop some wood and milk the cows and light the fire and make the coffee and wash the children while I bang my hair!"

HEAR WHY WE SPEAK FOR Zam-Buk
THE GREAT HERBAL BALM

INJURED FOOT CURED.

"I speak for Zam-Buk because it cured me of a terribly bad foot," says Mrs. Alice Berryman of 19 John St. North, Hamilton. She adds: "The injury was caused by a wagon wheel, and the sore was on my right foot. It became very inflamed and swollen and so painful that I fainted away. In spite of treatment, the wound got no better and the foot became more and more swollen, until it was several times its usual size. The flesh was terribly bruised and black. I used and it was quite impossible for me to walk. My husband's mother at last brought me a box of Zam-Buk. This was applied to the foot and it was surprising how soon I found relief from the severe pain. A further supply of Zam-Buk was obtained and I persevered in using this balm alone. In a couple of days the swelling had gone down considerably, the discoloration was less distinct and the pain was banished. In four days I could go about as usual; the bruised and injured foot had been thoroughly cured by the timely use of Zam-Buk."

Did you ever ask yourself: "How is that Zam-Buk is so popular? It is because it is superior and different to other salves. In contrast them! Most salves are nine-tenths animal oil or fat. Zam-Buk hasn't a trace of animal fat in it. Most salves contain mineral coloring matter. Zam-Buk is absolutely without! Many salves contain poisonous astringents. Zam-Buk doesn't.

Zam-Buk is actually more powerfully antiseptic than crude carbolic acid. Yet it stops instead of causing pain and smarting when put on a wound.

It heals more quickly than any known substance, abscesses, ulcers, eczema, blood-poisoning, cuts, scalp sores, chaps and all skin injuries and diseases. All druggists and stores sell at 50c a box or Zam-Buk Co., Toronto, for price, send 1c stamp for trial box.

POISONED FINGER HEALED.

Mrs. Frank St. Denis of 305 Thompson St., Winnipeg, speaks for Zam-Buk because it cured her of a poisoned finger, which had caused her days of agony. Hear her experience. She says:

"One morning, while washing, I felt a slight pain in the end of my finger. This gradually got more acute until by the evening of the next day the end of the finger had become swollen and hard and so blue I became alarmed.

"The pain from it was almost too much to bear. It made me turn quite sick! Poultices of first one kind and then another were applied, but seemed to give me no relief. My daughter-in-law, who had had some previous experience with Zam-Buk obtained a box for me. I anointed the sore place liberally with this balm, and in a few hours, the throbbing aching pains were subdued."

Further applications of Zam-Buk gave me more ease, so that I could get a little sleep. In a few days the nail came off, but after that Zam-Buk seemed to reduce the inflammation quickly. I continued its use until in the end it had brought about a complete cure.

BANK OF HAMILTON

LET THIS BE YOUR NEW YEAR'S RESOLVE—

"To Begin 1910 With a Savings Account in the Bank of Hamilton."

THERE is something about the thought of a New Year that stimulates us to take a fresh grasp on Life—to resolve that, in some respect, we shall "do better" in the twelve months ahead of us than we have during the twelve that are gone.

THERE is one respect in which most of us might well improve our habits—we need to learn the lesson of "Thrift." And the very A B C of Thrift is the SAVINGS ACCOUNT.

THE *amount* is not important—but the fact of *commencing to save.* A New Year's Resolution such as this may prove the pivot on which shall swing the Success of your later life. Or, if you are already "on in years," it may mean a competence for you in the time of your incapacity for work.

THE deposit of a small sum in the Bank of Hamilton is such an easy thing to resolve upon, and so simple to accomplish. Just go to the Branch in your vicinity, ask for the Manager, and you will become the possessor of a "Pass Book" in which shall be recorded *your first deposit*—a sum that, however small, will provide you the needed incentive to save—and on which interest will immediately commence to accumulate.
