The Canadian Champion

MILTON, Feb. 8, 1912.

The first session of the thirteenth Legislature of Ontario was opened at Toronto yesterday by the Lieut. Governor.

The Minneapolis mills pay thirteen cents more for a bushel of wheat than the buyers at Emerson, Man. Their loss through the defeat of reciprocity has raised the ire of the western Canadian farmers. The Manitoba Grain Growers' Association has unaminously reaffirmed the Ottawa platform and passed a special resolution demanding reciprocity.

Winston Churchill, First Lord of the Admiralty, left London last night for Belfast, where he and John Redmond, the Nationalist leader, will speak on home rule to-day. No serious trouble is anticipated. The Unionists realise that to carry out their threat of rioting would be a mistake which would strengthen the Government's position on the home rule question.

Last week the Banner published the annual reports of the Y. M. C. A. of Dundas. The figures of the financial report are instructive, showing on what a large scale the association works. Other reports show a membership of 152, with flourishing gymnasium classes, basket ball, rugby, paper chases, and other sports for the young men and boys, besides religious and general instruction. The following figures are from the finance report:

Receipts.	
Subscriptions	$1,180.63
Membership fees	243.00
Lockers	14.75
Sundries	215.12
	$1,652.50
Expenditure	
Overdraft	$ 74.81
Heat and Light	561.81
Repairs	23.10
Salaries	825.00
Office expenses	73.50
Educational work	55.81
Religious work	35.05
Physical work	87.15
Insurance	60.00
Sundries	154.00
Bal. on hand	12.18
	$1,652.50

The establishment of a Y.M.C.A. in Milton would do a world of good in supplying what has long been badly needed, healthy sports for the young men and boys, combined with religious and general training. Now is the time to establish it. In January, 1911, Milton ratepayers carried a proposal that the town should give the necessary maintenance guarantee for the erection of a Carnegie free library, and though nothing more was done last year, the town council is considering action next spring. There should be little difficulty about the maintenance of the proposed library, and none at all if the basement of the building be fitted for a gymnasium and training quarters for the Y.M.C.A., if the Carnegie commission does not object. This would mean the establishment of a Milton branch of that organization and the receipt from it of a rental which could be applied on maintenance.

CONFIDENCE

We Back up Our Statements With Our Personal Reputation and Money.

We are so positive that we can relieve constipation, no matter how chronic it may be, that we offer to furnish the medicine free of all cost if we fail.

We think that it is worse than useless to attempt to cure constipation with cathartic drugs. Cathartics may do much harm. They may cause a reaction, irritate and weaken the bowels, and make constipation more chronic.

Constipation is often accompanied and may be caused by weakness of the nerves and muscles of the large intestine or colon. To expect a cure you must therefore tone up and strengthen those parts and restore them to healthier activity.

The discovery of the active principle of our remedy involved the labor of skilful research chemists. This remedy produces results such as are expected from the best of the best-known intestinal tonics, and it is particularly prompt in its results.

We want you to try Rexall Orderlies on our guarantee. They are exceedingly pleasant to take and are ideal for children. They apparently act directly on the nerves and muscles of the bowels, having, it would seem, a neutral action on other organs or glands. They do not purge or cause inconvenience. If they do not positively cure chronic or habitual constipation and thus relieve the myriads of associate or dependent chronic ailments, your money will be refunded. Try Rexall Orderlies at our risk. Three sizes of packages, 10c., 25c., and 50c. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store, F. B. Smith.

THE POWER THAT DRIVES THE HUMAN FACTORY.

Dr. Williams' Pink Pills Help the Blood and Make You Well.

The human body is the busiest factory in the world. There is no eight hours day, no slack season, no holidays, no cessation of labor at any time. Day and night work is being carried on in the workshop of your body, and it never ceases until the engine—the heart—stops forever.

The factory of your body has its motive power, without which it would have to close down at once. That motive power is the blood, healthy, rich, red blood which keeps your whole system efficient and which drives away all diseases that may attack it.

Good, red blood is the chief controller of every action; the source of all the energy you possess. It builds up every substance of your muscles, nerves, sinews and flesh. It removes the waste and poisonous products constantly created in your body, which, if allowed to remain set up disease and weakness of every kind. Good blood gives energy and vitality to the nervous system, besides regulating the functions of the stomach, intestines, liver, kidneys and other organs of the body. Briefly, on the purity and richness of your blood the health of your whole body depends.

Often the blood begins to fail and becomes thin and poor in quality. It becomes loaded with waste matter and charged with poisons. Then it is that the motive power of your bodily workshop goes wrong, your physical machinery becomes disorganized and you fall ill. You become anaemic; maybe the nerves break down, or you begin to suffer from indigestion, neuralgia, general debility, severe headaches, pains in the back or side, rheumatism, or even paralysis.

In all failures of the blood Dr. Williams' Pink Pills are the best known remedy. These pills actually make new, rich blood, which brings health and energy to every part of the body. Thousands and thousands of people, not only in Canada, but all over the world, testify to the truth of this statement. The following is a bit of proof. Mrs. Fred Stricker, jr., Moosefield, Ont., says: "A few years ago I was a physical and nervous wreck; I had pains throughout my whole body. I had no appetite and my stomach felt as if there was a big lump in it. The least exertion would make my heart beat violently, and I would be attacked with trembling spells, and such a weakness that my breath would come in gasps. I was under a doctor's care for nearly two months, but got very little relief. I then tried other remedies, but with no better results. Finally I decided to try Dr. Williams' Pink Pills and this was the first medicine that reached the root of my trouble. After taking the pills a few weeks I was much better, and by the time I had taken ten boxes I was entirely recovered. I now always keep the pills in the house and if I feel the least worn out take an occasional box and feel all right again."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

OBITUARY.

FREDERICK ARTHUR KERNS, B.A.

Frederick Arthur Kerns, B. A., a well known barrister of this village, died at the home of his parents on Tuesday morning, after a lengthy illness, aged 41 years. He had been in poor health since last August, and the best medical skill was secured, but without avail. The deceased was born in Burlington, and was the eldest son of Col. Wm. Kerns. He received his early education in the public school here, and afterwards attended Waterdown High School. He then went to Toronto to the Upper Canada College, and graduated from Toronto University when quite young. He studied law with Chief Justice Meredith, and also served upon the law firm of Bruce, Burton and Bruce, of Hamilton. Eighteen years ago he opened an office in Burlington and had built up a good practice. He was highly esteemed and regretted by a host of friends. He was a member of the A. F. & A. M., and K.O.T.M. He is survived by his father and mother, and one brother, Wm. C. Gazette.

MRS. BUCK.

Guelph, Feb. 5.—Another old resident of this city passed away on Sunday in the person of Mrs. Catherine Buck at the advanced age of 92 years. She was born in Niagara Falls, Ont., her maiden name being Catherine Greenlesse, and she was the widow of the late Gideon Buck, who died some twenty-seven years ago. The deceased had been a resident of this city for the past thirty-five years, and was well and favorably known by a large circle of friends and acquaintances. She leaves four children—Thomas, of Guelph, George, of London, Elizabeth, of Guelph, and Mary, of St. Catharines. Mrs. Buck lived near Lowville for many years.

LIVE IN FLAG STATIONS

The Grand Trunk Pacific Makes Provision for Section Men.

Ninety-six of the new stations, out of the 150 contracted for in the spring, have been opened, 27 are under construction, and the balance will be completed in the spring. These stations on the Grand Trunk Pacific are an innovation as far as stations in Western Canada are concerned for they provide, unlike stations built heretofore, for the looking after the flag stations, points where trains only stop when there are passengers to get on or off, are in charge winter and summer of capable employes, and are kept heated day and night. The arrangement has been made with section men to live in these stations, quarters having been provided for them and in return for looking after the station and keeping it in shape for receiving passengers at all times, they have heat and rent free. The one stipulation that is put on by the company is that the agent or section man must be married, for in this way the company thinks they will receive better service.

On the main line of the Grand Trunk Pacific railway the end of track has now reached 1057.5 miles west of Winnipeg. On the Alberta Coal Branch, which is being built from Bickerdike into the Brazeau Coal Fields, the track has reached mile 21.4 south of Bickerdike. On the Tofield-Calgary Branch the steel has been laid 105.3 miles south of Tofield. On the Young-Prince Albert Branch the end of track is at mile 67.3 north of Young. The entire portion of the Branch between Melville and Regina has been completed, a mileage of 98.4. The 52 miles on the Melville-Canora Branch has also been completed. On the Moose Jaw Branch between Regina and Moose Jaw, track has been laid 11 miles west of Regina. On the Mountain Division steel has been laid to the mouth of tunnel at mile 104 east of Prince Rupert.

PRINCE OF WALES' FEATHERS

On the crown worn by the Prince of Wales on special occasions is a tuft of peculiar feathers, the value of which is estimated at over nine thousand pounds, and which is thought to be the only tuft in possession of any human being. The feathers are those of the periwak, a very rare creature which is found only in dense jungles infested with tigers. Consequently, there is considerable danger in undertaking to procure the feathers; those in the crown of the Prince of Wales having cost more than twelve human lives to secure.
