NOT REPRESENTED BY MONEY

Sir Edward Walker's Observations Before Montreal Canadian Club

"We have," said Sir Edmund Walker at the Montreal Canadian Club, "passed from a country noticeably moderate to one of feverish speculation and extravagant expenditure in the cost of living. This is almost as destructive to the fibre of a nation as crime. The country that believes that permanent success is represented by money will not survive. We must have respect, or else we become simply one of those hateful oligarchies which disturb the stream of civilization." The remedy must be applied by our children, and the universities and schools must teach it to them. "Remember," he remarked in closing, "the credit of Canada in England is all important, for it is there we must borrow the necessary millions to accomodate the vital immigration. Every foolish operation in Canadian finance impairs that credit. We must play the national game like gentlemen, and both political parties here must explain that game to newcomers, and tell the British and non-British settlers that Canada is destined to share in and pay a share towards the perpetuation of the British empire forever.

FINE HOODED SEAL

Eight-foot Specimen of the "Bladder Nose" Variety at University

A fine specimen of the hooded seal, or "bladder-nose," as it is called by the sealers, has just been placed on exhibition in the Biological Museum at Toronto University. It is a large specimen, about eight feet in length. There was no room for it in the ordinary cases, and it could not be exhibited until a special case had been constructed for its reception. The male has a peculiar bag of skin on its muzzle, which it has the power of inflating when excited. The present specimen shows this bag fully blown out, and certainly the name of "bladder-nose" very appropriately describes its curious appearance.

Hints to Young Reporters.

A charming young widow is any woman whose husband is dead.

Oysters are always playfully referred to as succulent bivalves.

The victims of a railroad accident are invariably buried into eternity.

At a fashionable dinner the wine always flows like water.

Always refer to the sun playfully as Old Sol.

When an outdoor event is postponed by rain, never miss the opportunity of blaming it on Jupiter Pluvius.

Remember that the man who falls from a high building always strikes terra firma with a dull, sickening thud.

Just before the execution a condemned murderer always eats a hearty breakfast of ham and eggs.

In writing up the dog show, don't fail to mention that society is going to the bowwows.

No description of the horse show is complete without several allusions to beauty and the beast.

Never fail to record the fact that the social outcast who committed suicide showed traces of former beauty and refinement.

In describing a fire, use the words "holocaust" and "conflagration" as often as possible. This enables the copy-reader to earn his salary.

Never lose sight of the fact that all men from the South and West are prominent citizens, especially when engaged in the pleasant pastimes of lynching and tarring and feathering.

FATHER OF THE CINEMA.

The Man Who Made the First Moving Picture.

Considerable discussion has been going on for some time past as to who originated the cinema. Many claimants to the distinction have come forward, but after careful investigating it would appear that the honor really belongs to an Englishman, Edward Muybridge, who emigrated from Kingston-on-Thames in the 'forties, and settled in California, where later on he obtained an appointment as photographic surveyor of the Pacific Coast.

The first moving picture which he produced was really the outcome of a wager made between the Governor of California (Leland Stanford) and a friend as to whether a horse ever has four legs off the ground at the same moment while running. Muybridge was asked to settle the point. He placed twenty-four cameras in a line to cover each movement of the horse and rider, the camera-shutters being moved by connecting-pieces of string which the animal broke as he passed. The result was a series of pictures showing each movement of the horse. It settled the argument, for Muybridge was able to show that, except when jumping, the horse never had all his feet off the ground at one time.

This experiment caused Muybridge to think what an interesting thing it would be to present the photos in motion. To do this he copied the method made familiar to many in the zoetrope. This toy was a pasteboard cylinder, with slits in the upper section, and when it revolved rapidly it reproduced drawings apparently in motion.

To reproduce the effect upon a screen, using photographs, was a mechanical feat which was finally conquered, the movements of the horse being shown, but no background.

This was before the introduction of the flexible film for the camera, and before rapid photography had been developed. Muybridge lived to see the wonderful moving picture of today, and died in 1904 at his home in England. He left with the officials of the community and his friends the photographs and much of the apparatus used in his experiments.

HAD BAD SORE FOUR YEARS

ZAM-BUK HAS HEALED IT!

Mrs. Wilson, 110 Wickson Ave., Toronto, says: "About four years ago a sore spot appeared on the right side of my face. This spot increased in size until it became about half an inch in diameter and very painful. I went to a doctor but the ointment he gave me did not have any good effect. The sore continued to discharge freely, and was most painful. I had it cauterized, tried poultices and all kinds of salves, but it was no good, and I continued to suffer from it for four years.

"A sample of Zam-Buk was one day given to me, and I used it. Although the quantity was so small, it seemed to do me some good, so I purchased a further supply.

"Each box did me more and more good, and, to my delight, before I had been using Zam-Buk three weeks, I saw that it was going to heal the sore, in less than a month it was healed!

"I know a lady in the east of the city, whose husband suffered for years with an open sore on his leg. On my recommendation, Zam-Buk was tried in that case. The other day, when I saw her, she told me that it had healed the sore completely.

"My daughter, who lives in Lethbridge, Alta., has also used Zam-Buk with the same satisfactory result. I think it is, beyond all doubt, the finest healing balm known."

Such is the opinion of all persons who have really tried Zam-Buk. It is a sure cure for eczema, piles, abscesses, ulcers, scalp sores, ringworm, cuts, burns, scalds, bruises, and all skin injuries and diseases. 50c. box, all druggists and stores, or post free from Zam-Buk Co., Toronto, for price. In case of skin disease use also Zam-Buk Soap, 25c. tablet.

WOMEN MAY AVOID OPERATIONS

By taking Lydia E. Pinkham's Vegetable Compound

The following letter from Mrs. Orville Rock will prove how unwise it is for women to submit to the dangers of a surgical operation when it may be avoided by taking Lydia E. Pinkham's Vegetable Compound. **She was four weeks in the hospital and came home suffering worse than before.**

Here is her own statement.

Paw Paw, Mich.—"Two years ago I suffered very severely with a displacement. I could not be on my feet for a long time. My physician treated me for seven months without much relief and at last sent me to Ann Arbor for an operation. I was there four weeks and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound, and I did. Today I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound and advise my friends who are afflicted with any female complaint to try it."—Mrs. ORVILLE ROCK, R. R. No. 5, Paw Paw, Michigan.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

For thirty years it has been the standard remedy for women's ills, and has positively restored the health of thousands of women. Why don't you try it?

HERO OF BALACLAVA

Whereabouts Made Him Shower Other Twice from Many Sides

"Well done, Jones Woodhall. I'll write to your father in Yorkshire to-night to tell him how proud he ought to be of his son." Such was the remark made to Sir George Woodhall, who recently celebrated his golden wedding, by the late Duke of Cambridge, when the remnant of the 17th Lancers—the "Death or Glory Boys"—to which Sir George was then attached as a cornet, returned from the "Valley of Death." Sir George rode on the right flank of Lord Cardigan as extra galloper. Twice he had his mount shot from under him, but he went to within a hundred yards of the terrible batteries unscathed. For his gallantry he was promoted, and ultimately retired from the army in 1855, on succeeding his father in the baronetcy.

AN OLD BIBLE

It Has Been in Mrs. Williamson's Family 147 Years.

Mrs. Frank Williamson, Hamilton, has in her possession a bible that has been in her family for the past hundred and forty-seven years. It was presented to her great grandfather by the great grandfather of the late Duke of Fife. It was necessary to have it recovered a number of years ago. It is inscribed thus:

"Presented to Brevet Major William MacIrvine by me, George Duff, by the grace of God II. earl of the throne of Fife, as a testimony of my esteem for so brave a soldier to both God and his legal chief.

"Duff castle, third March in the year of our blessed Lord, 1765.

"GEORGE DUFF, earl of Fife."

Mrs. Williamson has had the Bible in her possession for over thirty years, and numerous collectors have called to see it.

GREAT DUCK SHOOTERS

Dave Ward and George Warin were considered the best duck-shooters in the country when Toronto was not the populous city it now is and ducks were plentiful close at hand. Warin, who was our most noted racing boatbuilder lost his left hand by a gunshot accident with a muzzle-loader at Blockhouse Bay, but that disability did not prevent his continued superiority both at shooting and shell-building. The possibilities of St. Clair Flats as a pocket duck preserve were first recognized by these men, with the late C. C. Small and Mr. John Maughan. To them was due the founding of the Canada Club, which now has some ewenty thousand acres of shooting in the flats, but whose membership includes none of the old guard.

WARDEN'S OLD GOWN

The old gown worn by Wardens of Victoria County has been discarded for a new one. It was worn for fifty years. It was presented in 1861, to Wm. Cottingham of Omemee, the first Warden of Victoria county. It cost $50.25 originally, and thus the robing of the county official has averaged $1 a year. The old gown will be kept as a relic to commemorate the beginning of the Wardenship of Victoria county.

BIBLE'S CIRCULATION

Take any hundred of the "best sellers" among the novels or any other books in the world, except the Bible, and our combined circulation last year was not equal to the circulation of the Bible, which amounted throughout the world to nearly eleven million copies, in whole or in part. This statement was made by Rev. Jesse Bibson; Secretary of the Upper Canada Bible Society.
