SUCCESSFUL WOMAN FARMER

Tills 330 Acres With Aid of Man Only at Harvest

Miss Georgina Binnie Clark, of Saskatchewan, Canada, was one of the first to prove that women are capable of running a farm in the Dominion as a paying concern. Always a lover of outdoor life, some years ago she bought a farm of 330 acres in Saskatchewan, and devoted herself to its development, with the result that at the end of the fourth season she made a decent profit.

Miss Clark plows her own land and combines a practical knowledge of scientific farming with her capabilities as a good housewife. Except at seed-time and harvest, when the employment of a laborer or two is a necessity the entire work of the farm is carried on by herself, with the help of her three women pupils. Her idea is that women should vary their enterprises more than they do, and not be content with merely earning wages but should endeavor to make money independently as well.

A Misprint.

(From the "Manchester Guardian.")

Misprints are seldom amusing. At any rate, people who have to do with the production of newspapers find them much less amusing than the general public seem to do. But once in a way really delicious misprints do happen and one in the 'Daily Chronicle' must have been enjoyed even by the victim. It was in a review of a book of poems by the Rev. George Mitchell, formerly a policeman and well known as the 'policeman-poet.' Some verses are quoted from his policeman days, including this stanza:

Think not because when in the street
At evening hour upon my beat
I love to court the nurses,
I fail to keep a keen look out
For burglars who may be about
Or aught that law abuses.

It will be observed that 'nurses,' though syntactically apt, does not rhyme with 'abuses.' It should, of course, have been 'Muses.'

British Journalist's Views.

L. Scheff, special commissioner to Canada for the Glasgow Herald, Manchester Guardian, Sheffield Telegraph, London Graphic and other leading British journals, visiting Winnipeg last week said regarding Western Canada's extraordinary development: "It has not grown, it has simply leaped ahead, in the most amazing manner. Were the people of the British Isles to have anything like a real idea of the possibilities of the Dominion, especially the west, the ships would never be able to handle the traffic sufficiently fast. It is safe to say that in a very short while a growing proportion of the bone and sinew of the Old Country will be employed in the development of the Dominion, and that while Canada herself will thereby promote her own advance, the United Kingdom will draw increased Imperial strength from the connection."

FIFTY THOUSAND MEN REQUIRED

Farm Laborers' Excursions--This Year's Wheat Crop Will be the Largest in the History of Canada.

The wheat crop of 1912 will be the greatest ever harvested in Manitoba, Saskatchewan and Alberta; thus requiring the farm laborers of the East to recruit and assist in harvesting the World's greatest bread basket.

The Governments of the respective Provinces state that fifty thousand men will be required for this year's harvest. These will have to be principally recruited from Ontario, and the prosperity of Canada depends on securing labor promptly. The Canadian Pacific, on which Company will fall practically the entire task of transporting the men to the West, is already making special arrangements for this year. Excursions from points in Ontario to Manitoba, Saskatchewan and Alberta, will be run and special trains operated, making the trip in about thirty-six hours and avoiding any change of cars or transfers. This will be a day shorter than any other route.

Dates, rates and conditions will be announced in a few days. Consult any C. P. R. Agent for full particulars.

Happy Kilbride.

Kilbride's up in the mountain
Away up in the blue,
Where the garden's in full bearing
With food for me and you.
For Providence has blessed us
With sun and rain galore,
For I never saw such prospects
In all the years before.
With potatoes in abundance
They are crowding one another,
And tomatoes, cabbage, onions,
Are a splendid crop this summer.
For all this we're truly thankful
And contented with our lot,
For the best and handsome female
I tell you we have got.
I pray to be happy and cheerful,
A slave not for money or pelf,
Give me not poverty nor riches
I don't want to get stuck on my self.
I try to keep other folks happy
And lift up the minds that are sad,
But I don't like a billy joy rider;
They make me infernally mad.

-B. F. Churchill.

A newspaper having offered a prize for the most impossible item of local news, the competition was won by a wildly imaginative genius, who sent in the following brief story:—"A cabman and a 'bus driver came into collision in the street with their vehicles, so that their wheels were locked. "My dear sir," said the cabman, "I'm very sorry for this accident. Will you kindly excuse me?" "Pray do not mention it, my dear sir," replied the 'bus driver. "The fault was mine, rather than yours." And after getting clear of each other they bowed politely, and proceeded about their business with a pleasant "good day."

Capt. Frank Beaumont, of Beaumaris, Muskoka, and his nine-year-old nephew, Jack Beaumont, son of G. F. Beaumont, Toronto, were drowned near Beaumarts on Saturday afternoon.

Cotton Root Compound.

The great Uterine Tonic, and solely safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1 $1; No. 2 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cotton Root Compound Co., Windsor, Ont.

HALTON COUNTY FAIR

MILTON, SEPT. 24 & 25, 1912.

SNOW FIEND BEATEN

Man's Ingenuity Overcomes Obstacles in Mountains

An interesting bit of railroad history, revealing in a striking manner the difficulties and triumphs of construction work in the far west was just been made public by a British Columbia journalist who writes:—

"There was an unusually heavy snowfall up the Skeena River Valley in the winter of 1910. Tons of snow lay on the grade of the Grand Trunk Pacific and there were regular avalanches of beautiful white trouble to deal with in the deep cuttings and at exposed portions of the line for the first hundred miles out from Prince Rupert. One memorable day when all but one of the locomotives on the first completed stretch of line at Prince Rupert were out with the snow plows up river there came a blizzard and a big snow slide. Half a mountain of snow slid gracefully on to the grade between the locomotives and the city. The situation was most exasperating One solitatry engine remained in the shed at Rupert. It was not a complete engine. It lacked a tender but otherwise it was an efficient locomotive. The General Superintendent got busy after fighting his way back through the drifts to the city and having improvised a tender out of a flat car with a tank and coal bunker fitted to it, made up a long emergency train on which he conveyed an army of men to the scene of the slide. After a day or two the lost steel gleamed back between the marooned engines and the line to Prince Rupert.

In order to avoid once and for all any possibility of a recurrence of such a snow-slide as marooned the engines in 1910 a special tunnel has been bored through solid rock in such a way that not a vestige of snow can reach the track at this point even in the hardest wnters. Any slide of snow from the steep mountains above will glance harmlessly into the Skeena.

Owing to disputes in Belfast over the home rule bill, Messrs. Harland and Wolffe were forced to shut down a portion of their works.

THE MISSION OF MOTHERHOOD

Healthy Mothers and Children Make Happy Homes

Motherhood is woman's highest sphere in life. It is the fruition of her dearest hopes and greatest desires; yet thousands of noble women through some derangement have been denied this blessing.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong. This is evidenced by the following letters which are genuine and truthful:

London, Ont.—"I wish to thank you for the benefit I received by taking your famous medicine, Lydia E. Pinkham's Vegetable Compound. Before my baby was born I was so ill I could not stand long or walk any distance. I had to lie down nearly all the time. After I took your medicine I felt like a new woman. I could work from morning till night and was happy and well. I certainly think it relieves pain at childbirth and recommend it to every woman who is pregnant. You may use this testimonial if you like. It may help some other woman."—Mrs. Frank Corrin, 132 Adelaide St., London, Ont.

Brooklyn, N.Y.—"I was ailing all the time and did not know what the matter was. I wanted a baby but my health would not permit it. I was nervous, my side ached and I was all run down. I heard that Lydia E. Pinkham's Vegetable Compound was good and took the medicine. I have now a beautiful baby and your Compound has helped me in every way."—Mrs. J. J. Stewart, 299 Humboldt St., Brooklyn, N.Y.

GREAT ASSEMBLY OF BIBLE STUDENTS

Pastor Russell's Address at Glen Echo Park, Washington, D.C.

He Declares the Bible to Be the Only Centre of Attraction and Standard of Faith—Four Thousand Representatives Present From All Parts.

Washington, D. C., July 14—The International Bible Students Association closed a very successful eight days' Convention at Glen Echo Park tonight. Approximately forty speakers have addressed the Convention. Pastor Russell was the principal speaker this afternoon. His text was, "But ye are come . . . to the General Assembly and Church of the First-born, which are written in Heaven."—Hebrews xii. 23.

The speaker declared that St. Paul points us back to the institution of the Jewish law Covenant at Mt. Sinai and uses it as a picture or type of experiences of the Church to be expected at the Second Coming of Christ and the establishment of His glorious Kingdom.

St. Paul pictures the march of the Israelites from the Red Sea to Mt. Sinai, implying that some got to the mountain much in advance of the others, but waited there for the General Assembly. The Apostle points us back to the awful experiences connected with the inauguration of the Law Covenant — Mt. Sinai smoking, lightnings flashing from the cloud and thick darkness which enveloped the mountain, the earth trembling, the Voice of God heard, the people in fear.

All these things, said the Pastor, according to St. Paul, were foreshadowings of still more wonderful things to be expected in the near future in connection with the inauguration of the New Covenant. Many had misapprehended the Apostle's teaching in respect to the New Covenant and thought it already sealed and in operation. But not so. The Scriptures assure us that the work of Christ and the Church during this Age has been a preparatory one, without which the New Covenant could not go into effect.

A Time of Terrible Trouble.

Everywhere the Bible associates with the coming of Christ a great trouble upon the world and assures us that the faithful of the Church will be spared from it by their resurrection change. The plowshare of trouble will upset human pride and humble the world and make them glad to welcome the Messianic Kingdom then to be established for the purpose of bringing to Israel and to the world the long promised blessings of the New Covenant.

The introduction of this Kingdom St. Peter styles the Day-dawn. (II. Peter i, 19.) He describes its work as most blessed, saying, "Times of refreshing shall come from the presence of the Lord—He shall send forth Jesus Christ—whom the heavens must retain until the Times of Restitution of all things, which God hath spoken by the mouth of all His holy Prophets since the world began."—Acts iii, 19-21.

St. Paul's interpretation of the Mt. Sinai experiences would imply a "Day of Vengeance"—the very term which the Bible uses. Society will be so shaken and its experiences will be so dreadful that, like the Israelites of old, all will be ready to entreat for the Great Mediator — The Christ, Head and Body—Jesus and His Church in glory—to stand between them and the Almighty. It will be in response to this universal cry that the Messianic Kingdom will be established and by the New Covenant take over the control of the entire world of mankind, for whom, by the grace of God, Jesus Christ tasted death.—Hebrews ii, 9.

Terrible as the squaring of the world's accounts will be preparatory to the opening of the New Dispensation with a clean page, they are rational as well as Scriptural. Humanity will be able to look up to God and acknowledge His Wisdom and Justice, and then to thank Him for the loving provision of the Messianic Kingdom, under whose beneficient reign they may be helped back to full human perfection and to a world-wide Eden.

The Church In General Assembly.

We have greatly enjoyed, dear brethren, our Convention or Assembly. But what will it be to be there—in the General Assembly of the entire elect Church of God! There will be no sectarianism there, though there doubtless will be saints of God from every sect in that Convention in Glory! Let us carry with us a sense of the realities of the glorious promises of the Bible, which, we believe, are hastening to fulfilment.

Even now, on every hand, we see the evidences of social unrest; and the wonderful blessings of our day are being received by unthankful hearts with ingratitude, breeding discontent and pressaging the awful anarchy which the Bible teaches us to expect. It is a time for faithfulness to God, to His Word, on the part of all who are of "the household of faith," of every nation and demonination. It is a time for the Bride to make herself ready for the Bridegroom. It is a time for the soldiers of the cross to have on "the whole armor of God" and to be thoroughly equipped with the Sword of the Spirit.

The Old London Watch.

London's police force owes its origin to the London watch, instituted in the year 1253.

SAVED BY FISH LINE

Little Boy Was Rescued by His Sisters in a Miraculous Manner.

A remarkable case of life-saving is reported from Woodstock, Ontario. The child saved was Albert Hawkins, aged eight years. He had been playing on the banks of the River Thames in company with his sisters, Bertha, aged fourteen, and Edna, aged [illegible] when he fell in. [illegible] about fifteen [illegible] ing on a [illegible] after him [illegible] but [illegible] unable to swim [illegible] to the shore [illegible] where the child [illegible] screaming [illegible] not [illegible]

MILTON, ONT.

Compare the "IDEAL" Hammo-Couch with any other "couch hammock" offered you. You'll find it excels in every point of comfort, strength and durability. For example:

Frame of the "IDEAL" Hammo-Couch is round 1, [illegible] steel tubing, [illegible] nected at the ends with angle steel. (See illustration. Other couches have an uncomfortable, insecure wooden frame, which may break under weight of several persons.

Spring in the "IDEAL" Hammo-Couch is the famous [illegible] suspended from the ends, free of frame, no contact with hard edges or other [illegible]. Every move of occupant yields ease and rest.

The back of the "IDEAL" Hammo-Couch is just right [illegible] comfort. A light slat, concealed in top edge of wind-[illegible]. Other kinds have an unsupported, "clanger" flap, which [illegible]

Seat is just the right width for either sitting or lying down. Mattress [illegible] kinds are suitable only for one person lying down. Mattress [illegible] thick, filled with soft, sanitary cotton. High quality khaki [illegible] throughout. Magazine pockets securely sewed and riveted [illegible]. Adjustable canopy sun-shade is another exclusive feature.

150,000 Free Homesteads

ALONG THE LINE OF THE

Canadian Northern Railway

IN

Manitoba, Saskatchewan and Alberta.

The Government has thrown open for entry 150,000 Free Homesteads, [illegible] each—along the lines of the Canadian Northern Railway in Manitoba, Saskatchewan and Alberta. At least 5,000 of these are within a radius of 12 miles of operations of the Company, while the balance will be served by branches now under construction or projected.

Alberta—the Province already noteworthy for its fertile lands and alluring climate—takes first place in the total of homestead offerings. But the wonderful West Lands of Saskatchewan are well represented in the free Farms which have been thrown open for entry. Manitoba—the oldest settled of the three—makes a large number.

Manitoba, 21,800 Saskatchewan, 48,080 Alberta, 74,000

Western Canada is so big that practically every farming condition is met with in the combined total. There is open prairie, the bluff country, which needs some settling, and also the rolling land where loam and climate are admirably adapted to the needs of mixed farming. The atmosphere—clear, dry and invigorating—makes this land the best land to live in.

The best Homesteads are rapidly being taken up, and intending settlers will be well advised to make their selection without delay.

Write for a free booklet giving the location and a description of the land now offered. A copy will be mailed to anyone making application to R. J. Fairlank, General Passenger Agent, Canadian Northern Building, Toronto, Ont.

CHAINS and FOBS
